

## REPORT KERENSKY ARRESTED

## SALE OF CARPET MILLS TO CARTRIDGE CO. REPORTED

The report that the United States Cartridge Co. was negotiating for the purchase of the Bigelow-Hartford carpet plant in Market street, as mentioned in these columns several days ago, is still extant and despite the fact that officials deny all knowledge of such transaction, the report has been added to within the last 24 hours to the extent that negotiations have been completed and that the Cartridge company has actually taken over the big plant.

That the Cartridge company will have to extend its plant in the very near future the officials of that company do not deny. The plants of the United States Cartridge Co., and Maxim Munitions at Derby, Ct., and Watertown, N. Y., operated by the United States Cartridge Co., have been shut down on account of difficulties in operation and the work heretofore done at those plants will have to be done here.

## GERMAN CHANCELLOR ALREADY IN PERIL

COPENHAGEN, Nov. 9.—Although Count von Hertling, the imperial chancellor, is now in his post that he has not yet faced the reichstag, already his chancellorship is in danger of immediate wreck. A military dictatorship is said to be inevitable unless the political parties accept von Hertling, which apparently they have no intention of doing. The charge is made openly that he has succumbed to military and junker influence.

The Berlin Tageblatt and other radical newspapers say that if Chancellor von Hertling bows to the "hidden powers" and the influence of the court clique the opposition will introduce on November 22, when the reichstag reconvenes, a resolution of lack of confidence in the government. Count von Hertling's position is much like that of Dr. Hertzfeldt after his "as I interpret it" speech.

## Other Posts Cause Trouble

The refusal of Herr Friedberg, leader of the national liberal party, to accept the vice-presidency of the Reichstag ministry, and the alleged certainty that Dr. Hertzfeldt is to be retained as vice-chancellor are regarded as matters impossible of settlement.

The situation is drifting rapidly toward the goal desired by the reactionaries—that is, a split in the present minority in the reichstag and the formation of a new coalition embracing the conservatives and the national liberals. Such a bloc, which would have a bare majority in the reichstag, is by no means impossible, despite the apparent unity proclaimed by the majority caucus.

The catholic center is by no means adverse to following the chancellor along a road marked with party advantages. The national liberals, who for the most part are conservatives and annexationists, of whose hearts have been in the present majority bloc, intimated strongly in their formal announcement of Herr Friedberg's withdrawal their dissatisfaction with the attitude of the radicals and the socialists. They are probably quite ready to link up with the socialists in an alliance.

## Socialists May Stay in Opposition

The socialists apparently have abandoned the idea expressed by Philipp Scheidemann on Sunday that the new Hertling government, which differs from that of Dr. Michaelis only in the person of its chief, provided all necessary guarantees.

## Interest Begins

Saturday, Nov. 10  
WASHINGTON SAVINGS INSTITUTION  
30 MIDDLESEX STREET

## Chalfoux

ALL THE LADIES GREW OVERNIGHT TO A NEW MANLINESS

Everyone has noticed the new man that has sprung up in the khaki uniform. He is no longer the carefree boy. There's a new light in his eyes as he gathers around Old Glory. He stands up taller and with newly manifest dignity as a servant of the United States government. Without words he modestly but firmly says, "My mother and my father and everyone that knows my name, shall be proud of me in the performance of my duty."

Who dares to say now that a boy does not know what he ought to do until he is 25 years old?

The transfer of the operations of these two plants to Lowell, it is believed, would mean the hiring by the United States Cartridge company, providing the company succeeds in bringing about the necessary expansion, of at least 5000 more hands.

The United States Cartridge company is making a great record for quality. In fact it is said to be turning out the best ammunition in the world. It doesn't make all kinds and sizes, but what it does make is pronounced the very best. And the demand for ammunition is so great that the Cartridge company will probably have more business than it can attend to, even though it should succeed in developing its plans for expansion. It is anticipated that the munitions orders of the United States, on which the shop is now operating, will keep the plant going at full speed at its present capacity.

## sary guarantees of responsible popular government as a pre-condition to peace.

The socialists declare that they have no confidence in an administration made up of conservative, centrist and nationalist elements imposed on a sub-structure of old line bureaucrats and will remain in opposition unless the desired places are given to the radicals, whom the socialists regard as their representatives in the ministry.

The Lokalanzeiger of Berlin, organ of the annexationists and great business interests, publishes a report that progress recently between German and Austrian representatives in Berlin the decision was reached to abandon entirely the pretense of a non-annexationist peace program and to go over to the policy of uniting Poland with Austria-Hungary, Czechoslovakia and Lithuania with Germany.

This report has been neither confirmed nor denied in authoritative quarters. Other Berlin newspapers quote these statements as entirely possible.

## The socialist organ, Vorwaerts, lodges a decisive protest against the idea, which it says is a flat negation of Germany's reply to the pope and of the reichstag peace resolution.

## GERMAN FUGITIVES ARE CAPTURED IN TEXAS

LAREDO, Tex., Nov. 9.—Lieuts. Hans Berg and Loeschner, who were of the 10 Germans who escaped from the internment camp at Fort McPherson, Ga., on Oct. 23, were captured on the Rio Grande yesterday as they were trying to get across the river into Mexico.

They had been here several days and early yesterday they drove to a point across the river. On the other side of the river was a Mexican boatman, to whom they were beckoning, when Robert Runney and John Chamberlain, customs inspectors, rode up. Thinking they were cowboys, Berg said:

"We are German prisoners who escaped from Fort McPherson. We are trying to get to Mexico and from there are going back to Germany."

They were brought here and turned over to the military authorities. Both had large sums of money.

## "WETS" NOW HAVE LEAD OF 2534 IN OHIO

CINCINNATI, O., Nov. 9.—With 69 counties having reported officially and unofficial but apparently reliable and complete figures from 19 others the anti-prohibition forces will maintain a lead in the election by a majority of 2534. When it is remembered that more than one million votes have been tallied, it is evident that any variations from the unofficial returns may affect the final result.

Red Triangle Week  
Nov. 11-19

Your business or the Red Triangle? Y.M.C.A. war work for the soldiers! Give your time and support to secure thousands of dollars, which you know you can influence for the Red Triangle and leave your business to Providence.

Would you rather make thousands for the Red Triangle work or dollars for yourself? This is a matter of national importance and urgency.

Very urgent: We want everybody's best and most.

OTTO HOCKMEYER.

## Maximalists to Negotiate for a "Democratic Peace"

## Report Russian Army on Northern Front Has Joined Maximalists and is Marching on Petrograd—Kerensky Cabinet Members Imprisoned—Entire Turkish Army in Palestine Retreating—British and French Troops Nearing Italian Front

Reports from German sources today furnished virtually the only fresh news regarding the situation in Russia, where the maximalists are in control of Petrograd and are appealing to the army to support it "against imperialist attempts" until it has obtained "a democratic peace."

One of these reports, which was entirely without confirmation, was that Premier Kerensky, who left the capital before the extremists gained the ascendancy, had been arrested. The other report, also of German origin and similarly unconfirmed, declared the Russian army on the northern front had joined in the maximalist movement and was marching on Petrograd.

## Cabinet Members Imprisoned

The great majority of the members of the Kerensky cabinet were made prisoners by the maximalists when the winter palace, in which they had taken refuge, was surrounded by the army. They are in the fortress of St. Peter and St. Paul and will be tried for complicity in the Korniloff revolt, the maximalists announce. General Korniloff himself is also to be brought to the fortress for trial by a military tribunal.

Unofficial opinion in allied capitals seems to be that the Maximalist attempt to guide the destinies of Russia will be short lived. Civil war with the most conservative elements of Russia, opposed to the extremists of Petrograd, is not looked for and in some quarters it is thought that even now Kerensky at the head of loyal troops may be marching against the Bolsheviks.

## Lenine Leads Maximalists

News despatches received from Petrograd are subject to the censorship of the Maximalists and probably portray only one side of the situation. Nicolai Lenine, who fled Petrograd after the July failure, is again leading the Maximalists, at whose back are most of the Petrograd garrison and sailors from the Baltic fleet.

## Entire Turkish Army Retreating

In Palestine the British operations around Gaza and Beersheba have resulted in the entire Turkish Palestine army beginning a retreat toward the north. It is being harassed by air-plane bombardment in its retreat and its communications along the coast are under fire from French and British warships. Forty Turkish guns have been captured by the British whose advance is rapidly bringing them nearer to Jerusalem.

## Italians Resist Advance

In northern Italy the Austro-Germans have forced a crossing of the

Livenza river and the Italians are retreating toward the Piave, the last strong natural line before Venice. Gen. Cadorna's troops are making a more spirited resistance to the forward movement of the invaders, especially on the upper Tagliamento and the upper Livenza.

## 250,000 Italians Captured

The larger units of the Italian army are retreating without molestation from the Austro-Germans, but strong rear guards are giving the Germans battle at several points. An Italian attempt to hold out on the middle Tagliamento resulted in the force being cut off and 17,000 Italians, including a general, being taken by the Austro-Germans increasing their captures, according to Berlin, to 250,000.

## Cadorna to Make Stand

Along the Livenza Gen. Cadorna's soldiers apparently were more successful. The invaders crossed the Livenza only after a vigorous attack and in the region of Vittorio the Italians were able to delay the advance. The Livenza is only 10 miles from the Piave, where Gen. Cadorna probably will make a strong stand.

## Former Ministers Imprisoned

PETROGRAD, Nov. 8.—Confirmation was obtained tonight that the former

ministers were taken to the fortress of St. Peter and St. Paul and will be tried for complicity in the Korniloff revolt, the maximalists announce. General Korniloff himself is also to be brought to the fortress for trial by a military tribunal.

## Unofficial opinion in allied capitals seems to be that the Maximalist attempt to guide the destinies of Russia will be short lived.

Civil war with the most conservative elements of Russia, opposed to the extremists of Petrograd, is not looked for and in some quarters it is thought that even now Kerensky at the head of loyal troops may be marching against the Bolsheviks.

## Lenine Leads Maximalists

News despatches received from Petrograd are subject to the censorship of the Maximalists and probably portray only one side of the situation. Nicolai Lenine, who fled Petrograd after the July failure, is again leading the Maximalists, at whose back are most of the Petrograd garrison and sailors from the Baltic fleet.

## Entire Turkish Army Retreating

In Palestine the British operations around Gaza and Beersheba have resulted in the entire Turkish Palestine army beginning a retreat toward the north. It is being harassed by air-plane bombardment in its retreat and its communications along the coast are under fire from French and British warships. Forty Turkish guns have been captured by the British whose advance is rapidly bringing them nearer to Jerusalem.

## Italians Resist Advance

## RUSSIAN REVOLUTION "MADE IN GERMANY"

LONDON, Nov. 9.—That the Russian coup d'etat was engineered and subsidized by Germany for the purpose of eliminating Russia from her enemies is the virtually unanimous opinion expressed in newspaper editorial comment. A despondent view of the outlook is taken by some commentators, while others claim that the triumph of the maximalists probably is a passing phase and refuse to believe that they represent Russia or that Russia will agree to a separate peace.

The Times partly blames the Kerensky government for tolerating anarchy and says:

"Premier Kerensky never showed himself really able to rule the storm and came to the least—with diminished credit out of the Korniloff episode. That the real Russia will ever consent to a separate peace of acquiescence in all the extravagance of the soviet manifestos is impossible to believe."

The Morning Post under the caption: "Revolution Made in Germany," says:

"Whether the revolution will succeed remains to be seen. There is still a core of good faith and loyalty in Russia. It remains only for the allied nations to reach by some means the heart of the Russian people themselves. This is a task in which the United States and Japan might exercise their new found power of friendly co-operation."

"The situation needs strength, energy and wisdom. Do these elements exist anywhere in the diplomacy of the allies? We had up to this time looked vainly for them, but we seem to see them in the United States which is acting with vigor and intelligence from which great things for the future are to be hoped."

The Daily Mail says:

"Social revolutions move in a fixed orbit and one of the stages through which they pass is that of chaos during which the Robespierres and Lenin hold power. The Robespierres were not France and the Lenins have no right to pose as representatives of Russia."

## WITH THE ARMY AND NAVY

Paul H. O'Donnell, son of Maurice O'Donnell of 162 Princeton street, has been accepted in the 217th Field Battalion, S. C. R., of the U. S. army. Mr. O'Donnell enlisted last June and during the past week was ordered to report to Camp Devens where he will receive preliminary training for foreign service.

Lester F. Streeter of 783 Lawrence street and Louis Shapiro of 14 Daly street, were accepted this morning at the local navy recruiting station and were sent to Boston where they will be formally enlisted as apprentice seamen.

Assistant William Nitschke of the navy station has received a letter from Chief Yeoman Walter F. Frazier who was formerly a member of the local office staff. Chief Frazier says that one does not realize that a war is going on until he gets in the midst of a big clearing house for recruits such as that in Boston.

Chesley H. Lake of this city left Lowell last night for the officers' training camp at San Antonio, Texas, where he will take a course in aviation. He enlisted a week ago.

## HIGH COST OF LIVING BARS OSTRICH

The park department has decided to curtail expenses to the extent of refusing the gift of two ostriches from the Franklin park zoo in Boston. Nothing definite has been stated as to why the zoo authorities developed so generous a spirit, but it is hinted that the high cost of living and the inability of the ostriches to Hooverize are responsible for the heart-opening process on the part of the zoo managers. The ostrich is a great grain eater and he has an appetite that would put an elephant to shame. There's no doubt but what the general appearance and size of the ostriches would add materially to the embryo zoo at Fort Hill park, but the price of grain is prohibitive and just for that the very generous offer of the good people of Boston will have to be declined with thanks.

## ST. PATRICK'S ALUMNI MEETING

## SENTENCED FOR PLOT TO AID GERMANY

NEW YORK, Nov. 9.—Fritz Oernes, a Dane, Waldemar R. Adams, born in Sweden, but a naturalized American, and Robert J. Collin, a Swede, who pleaded guilty recently to indictments charging them with attempting to smuggle powdered tungsten to Sweden from this country, were sentenced to one year in the United States penitentiary at Atlanta and fined \$1000 each in the federal court today.

Powdered tungsten is an important element in the manufacture of war munitions, said Harold A. Contant, assistant United States attorney, in urging the court to impose severe sentences on the men. The government believed, he said that Germany was the ultimate destination of the stuff.

## AGITATION FOR COINAGE OF TWO AND ONE-HALF CENT PIECE RENEWED

WASHINGTON, Nov. 9.—Agitation for coinage of a 2½ cent piece has been renewed by the recent rapid upward movement of prices caused partly by new war taxes and a bill probably will be pressed at the next session of congress to authorize the mintage of such a coin.

## MATRIMONIAL

Thomas McCausland and Miss Elizabeth Fowler, both of Tewksbury, were married Wednesday evening at the home of the bride's parents, Mr. and Mrs. Arthur E. Fowler, the ceremony being performed by Rev. A. C. Archibald of this city. The bride was Miss Genevieve McPherson, with the best man was Frank Jackson. After a honeymoon trip, the couple will make their home in Tewksbury Centre.

## STRIKE CLOSES PLANT

RUMFORD, Me., Nov. 9.—Enforced idleness for 200 male employees was caused today by the strike last night, of about 250 girls in the mill of the Continental Paper Bag Co., for a wage increase of \$1 a week. The present wage with bonus is \$10.55.

## PAY DAY

Pay day is often a spending time. Men and Women buy what they they don't need. Pay day ought to be savings day. When you get your pay, if you will immediately set apart a certain portion of it, and deposit it in the savings department of this old established Bank it will, in the end, give you ten times the happiness you find in squandering it.

## Old Lowell National Bank

The Oldest Bank in Lowell

Money deposited in the SAVINGS DEPARTMENT begins to draw interest the first day of each month.

## Gen. Cadorna Removed From Command of Italian Army

## Conference of British, French and Italian Representatives Results in Creation of Permanent Inter-Allied Military Committee

ITALIAN ARMY HEADQUARTERS, Nov. 8.—(By The Associated Press)—The conference of British, French and Italian representatives has resulted in the creation of a permanent inter-allied military committee. New leadership for the Italian army has been provided.

Gen. Cadorna, who has been in supreme command of the Italian army since the beginning of the war has been given a place on the new committee.

## LOWELL HIGH UP AGAINST FAST ARLINGTON TEAM

Lowell high lined up against the fast Arlington high eleven at Spalding park this afternoon, in the annual football tussle of the two institutions. Excellent weather conditions attended the game and the local students were represented by a fair crowd of rooters. Both teams made a speedy showing in their preliminary practice. The Lowell lineup was practically the same as that which

## EX-QUEEN OF HAWAII REPORTED DYING

HONOLULU, Nov. 8 (Delayed).—Ex-Queen Liliuokalani of Hawaii was reported dying today. Physicians said she could not live many hours.

A particularly interesting Woman's Page appears in the Sunday Supplement which is given away free with Saturday's Sun.

### THINKS WEALTHY WIDOW WAS MURDERED

NEW YORK, Nov. 8.—District Attorney Swann last night began an investigation into the death of Mrs. Sarah Stiasny, a wealthy widow, in her apartment in New York, Wednesday morning, which previously had been reported to him as a case of suicide.

Mr. Swann announced the inquiry was started after a coroner had forwarded to him a letter purporting to be from a niece of the dead woman, in which suspicious circumstances were suggested.

Dr. Otto H. Schultze, medical assistant to the district attorney, said after an investigation that he believed Mrs. Stiasny had been murdered.

Isidore Hershfield, an executor of Mrs. Stiasny's will and whose wife was a cousin of the dead woman, told District Attorney Swann the letter had been "written in a spirit of spite because the niece who wrote it had been disinherited."

Investigation is said to have revealed the two bullet wounds were found in Mrs. Stiasny's body, one in the temple and another below the heart, but that only one exploded cartridge was found in the revolver beside the body. The body was found by Richard Epstein, a cousin of the dead woman, who lived in the apartment, and also an executor of her will.

Letters found in Mrs. Stiasny's room indicated that she had contemplated suicide.

Roth Epstein and a negro, maid declared they had not heard shots.

### GROWING IMPATIENCE AMONG GERMANS

COPENHAGEN, Nov. 8.—Capt. Persius, naval expert of the Berliner Tageblatt, notes a growing impatience among Germans with the results of the submarine campaign registered in a swelling flood of letters demanding an answer to the question: "When shall we have England beaten?" He throws cold water on the optimists and warns them against accepting any readable figures on destroyed tonnage, including those apparently German and other statistical material.

Capt. Persius says that with the 1917 harvest and the imports of grain the food problem can scarcely become a motive, for the next six months at least, to make Great Britain inclined to conclude peace. He holds that the submarine question for the British will be not "can we continue the war?" but "will it pay?"

### RAILWAY MAIL CLERKS TO JOIN A. F. OF L.

PORTSMOUTH, N. H., Nov. 8.—The Railway Mail Clerks' association, an organization covering the entire country, has voted to affiliate with the American Federation of Labor.

E. J. Ryan of Boston, the national president, announced at headquarters here last night the result of the referendum ballot taken in accordance with the action of the convention of the association held in Cleveland last June.

The vote was 6827 in favor of joining the federation to 2072 against. In New England the vote was 662 to 121 in favor of the plan.

### JEWELRY WORKERS TO VOTE ON STRIKE

NORTH ATTLEBORO, Nov. 8.—The Jewelry Workers' union with a membership of 1400 will meet tonight to vote on the question of a general strike in all the jewelry factories in this town.

Sixty employees of V. H. Blackinton & Co. went on strike yesterday because of the alleged discharge of three union men last week.

### \$10,000 LOSS CAUSED BY FIRE AT BRUNSWICK, ME.

BRUNSWICK, Me., Nov. 8.—Two business buildings owned by Ferdinand J. Lemieux on Maine street were practically destroyed by fire discovered about 3.40 o'clock yesterday morning in the rear of the building occupied by Leonard A. Surace as a poolroom.

In the opinion of the firemen, the firemen started from a cigarette or match.

The next building south, also owned by Mr. Lemieux, was in part occupied by the owner, who had a store in the north half, and Emilie T. Saintonge, who sold machinery in the south half. The tenements in the second story were

### HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for cod liver oil—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, a pimple-free face, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

occupied by T. Louis Tremblay and Alexander Deschaine.

Mr. Deschaine was awakened by smoke and discovered the next building in flames. Two alarms were sounded, bringing all the apparatus in town to the fire. The blaze quickly spread to the southern building and was with great difficulty prevented from spreading to Day Block next south.

In escaping from his tenement Mr. Tremblay struck his head against some object which inflicted an ugly cut. One of the children of Mr. Deschaine was injured about the head when she fell down stairs. Two firemen, George Mansfield and Joseph N. Collins, were slightly injured by a falling ceiling.

Mr. Lemieux carried \$2000 insurance, but none of the others was insured.

### U. S. AGENTS SETTLE TWO LABOR CONTROVERSIES AT WEBSTER, MASS.

WASHINGTON, Nov. 8.—The department of labor yesterday announced the settlement of two labor controversies involving employees of the S. Slater & Son cotton and woolen mills at Webster, Mass., and West Virginia engineers.

Secretary Wilson telegraphed that the special labor commission of which he is chairman will investigate grievances of the Pacific coast telephone employees on its arrival at San Francisco within a day or two. The workers recently returned with the understanding that the government would undertake a settlement.

### ELKS TO BUILD WAR BELGIAN CONVICTED AS SPY IN LONDON

WASHINGTON, Nov. 8.—America's first reconstruction hospital where men wounded overseas will be fitted for occupational pursuits commensurate with their injuries will be built by the Benevolent and Protective Order of Elks at Boston.

The Elks' war relief commission, after a meeting here yesterday, announced that the government has agreed to accept the hospital.

The institution will cost \$250,000 and will be erected on Parker hill, contiguous to the Robert B. Brigham hospital.

It will consist of a complete unit of twin-ward hospital buildings, vocational workshops, barracks, mess hall and post exchange, and is to be a standard for similar hospitals to be built in various parts of the country.

Funds for erecting the institution will be available out of the \$1,000,000 fund contributed by the 500,000 Elks of the country.

### SEVERAL MILLION DOLLARS MORE IN RAILROAD REVENUE CONTEMPLATED

WASHINGTON, Nov. 8.—Several million dollars more in railroad revenues are contemplated in proposed increases in rates on grain and its products from the Central Freight association territory on which a hearing was conducted today by Examiner Disque, of the interstate commerce commission.

The case is part of the 15 per cent rate increase which the commission is considering and involves local and reshipping rates on domestic and export grain from Chicago, Mississippi river, Toledo, Cleveland and other markets to eastern cities, including all North Atlantic ports.

### MORE LETTERS CONCERNING ACTIVITIES OF SINN FEINERS TAKEN FROM WELSH

NEW YORK, Nov. 8.—Three more letters concerning the activities of Sinn Feiners in Ireland have been found in the effects of Thomas Welsh, arrested here Monday after his arrival on a British steamship. It was announced last night by William J. Flynn, chief of the United States secret service.

While the contents of the letters were not made public, it was said they contained names of persons in the United States and Europe, which may prove of value in breaking up conspiracies against the government of England. Welsh is still held in the Tombs in \$2600.

### THREE STORY LEAP TO ESCAPE FLAMES

WESTFIELD, Nov. 8.—Walker Barger, an engineer employed in No. 2 Strathmore paper mill at Woronoco, suffered fractured ribs, a strained back and a lacerated right, tore arm in a jump from the third story attic to the ground, to escape a fire which gutted his home in Woronoco last night.

The fire was discovered by a pedestrian, who saw it burning under the eaves, on the opposite side of the house from the Bargeron apartment.

Awakened by his wife and four small children, Barger led them to safety and then re-entered the house to save some personal effects. While in the attic his escape was cut off by the collapse of the stairs and he was forced to jump from the attic window, landing on the ground in an upright position. He was taken to Noble hospital in Westfield, where he was treated by Dr. R. H. Hildreth before returning to his home town.

Woronoco fire department was assisted in handling the blaze by apparatus sent from Westfield. The nearest hydrant was a half mile from the house, and while the fire was at its height, the water connections were broken to allow a trolley to pass.

### NEW YORK WOMEN GO TO THANK WILSON

WASHINGTON, Nov. 8.—A delegation of suffragists, headed by Mrs. Carrie Chapman Catt and Dr. Anna Howard Shaw, president and honorary president respectively of the National American Woman Suffrage association, have an engagement to call at the White House today to express to President Wilson the gratitude of the New York women and of the association who feel that the victory in New York was largely due to his help in their campaign.

The delegation includes Mrs. Helen Gardner of this city, member of the congressional committee of the National Woman Suffrage association, and representatives of the recently disfranchised women of Ohio and Indiana. The latter were prepared to lay before President Wilson what they consider the injustices and injustices of the national situation, which permits New York women to vote while Ohio and Indiana women are denied this right.

### FORD TO BUILD NO MORE PLEASURE AUTOS UNTIL THE WAR IS OVER

WASHINGTON, D. C., Nov. 8.—Henry Ford will build no more pleasure automobiles until the war is over. He will devote his entire plant to the production of war necessities, such as

tractors, ambulances, air craft engines and shells. Through his personal representative, C. H. Wills, he recently offered to discontinue absolutely the production of pleasure cars, and under the head of "pleasure cars" fall the ordinary runabouts, touring cars and small commercial trucks which his plant has turned out by the million.

## Free From Tortures of Rheumatism After Suffering Seven Years

Does Own Housework After Being Helpless in Wheel Chair Sixteen Months—Joints Were Deformed

The story of what appears to be a remarkable recovery from chronic rheumatism of the joints after being in pain from the disease for seven years was recently given out for publication by Mrs. L. M. McMasters of 312 Humphrey St., Lowell, Mass. When

taking Var-ne-sis I could use my wheel chair, then my crutches and finally my canes. The pain and stiffness became less noticeable. The chalky bunches of the fingers and the knees disappeared, my hands straightened so that now I can walk down stairs step after step, sew a little and

asked for a statement she said:

"For seven years I have not known a day that I did not have pain. All my joints were afflicted, when I moved my head I could hear and feel grating like there was gravel or sand in my neck. My knees would snap and grate like my neck, they were drawn up so I was unable to straighten them. If I wanted to sit down I would have to literally fall in a chair. Trunk straps were fastened around my body to get me upstairs; on the top step I was laid on a rug and dragged to the bed.

"The fingers of the right hand were drawn into the palm and the hand drawn to the body. I could not get my hand to my head, as joints were stiff, and I had to be fed and dressed like a child. Different physicians treated me for a time. The last doctor said I would never get rid of the disease, as it was the worst form of rheumatism, Arthritis deformans. I was in bed for sixteen months.

"Reading about Var-ne-sis and how it helped others with rheumatism of the joints, I decided to try it. After

do some housework. "I have given W. A. Varney my wheel chair, crutches and canes to add to his large collections for I can get about now without any assistance."

Mr. Varney said: "It is to your interest to write to this woman or investigate in any way you see fit. "I will pay the expense of three business men to investigate the evidence I produce, providing they will allow me to publish the results under their names. Can I do more?"

You ought to read "The Rust of Human Things," just off the press. It's free. Just address W. A. Varney, Lynn, Mass.

Get Var-ne-sis now, today, at Liggett's Riker-Jaynes Drug Stores, and any reliable druggist, and know what good health means.—Advertisement.

## EX-GOV. FOSS HARD HIT BY SLUMP IN STOCKS

BOSTON, Nov. 9.—Caught with heavy stock holdings in a rapidly falling market, ex-Gov. Eugene N. Foss has been forced to place his affairs in the hands of a committee of Boston bankers in order to protect his manufacturing interests.

An enormous shrinkage in the market value of high grade securities, extending over several months and continuing this week, precipitated the crisis in Mr. Foss' affairs. Stocks, of which he had been a large holder, have suffered a steady decline, probably aggregating a loss of several million dollars in his assets.

Investments which he made long ago have been threatened with ruin, owing to the fact that many of his assets are in real estate holdings which are not readily convertible.

### To Sell Some Stocks

To have poured these securities into a falling market would have depressed values still further. Yet some of these investments must be liquidated in order to protect his ownership in the Sturtevant Blower company and other manufacturing concerns which are in good shape and operating with steady profit.

This liquidation will be carried out by the committee in an orderly manner, and it is possible that financial assistance will be given the ex-governor. A member of the committee stated that Mr. Foss' assets, for the present, exceed his liabilities by a considerable amount, and the committee hopes so to adjust his affairs that a substantial sum will be left to his credit.

Mr. Foss himself is declared by friends to be a broken man. It is believed possible that he will go away to seek rest and renewed health. Though in his office in the John Hancock building yesterday, he denied himself to newspapermen.

It was within the past two days that he placed his affairs in charge of the committee, which includes Col. William A. Gaston, lately president of the National Shawmut bank; Galen L. Stone of Hayden, Stone & Co., and Neal Rantoul of F. S. Mossley & Co.

## CONNECTICUT LEADS NEW ENGLAND ON LOAN

BOSTON, Nov. 9.—With the final total of subscriptions to the second Liberty loan of 1917 aggregating \$176,616,050, New England came within \$23,953,050 of securing its maximum allotment of \$200,000,000 and over-subscribed its minimum quota of \$200,000,000 by \$176,616,050.

The final figures issued yesterday by the Liberty loan committee of New England, compiled from the reports sent in by the 1073 banks in the New England district, in conjunction with the records of subscriptions placed in Boston and other centers which have been credited back to the home towns of the subscribers, show that, as a result of these transactions, Massachusetts lost \$7,900,000 to the other New England States.

Of this amount \$1,055,000 was credited back to Vermont; \$2,340,000 to Maine; \$1,927,000 to New Hampshire; \$2,250,000 to Connecticut and \$150,000 to Rhode Island.

The state of Massachusetts, which was originally credited with \$23,499,250, now has to its credit the sum of \$21,792,250. The city of Boston lost \$25,000,000 as a result of these transactions, and now has a final total of \$147,269,250. This is \$31,518,250 in excess of its maximum quota of \$115,751,000.

### Connecticut Leads New England

Of all the New England states, Connecticut is the only one which, in this final accounting, has exceeded its minimum allotment, all the other falling a bit short. With a maximum quota of \$61,346,000, Connecticut is now credited with subscriptions aggregating \$64,723,150, an over-subscription of \$3,377,150. This exceeds the minimum quota for that state—\$50,500,500—by 14 per cent.

Of the other five states, Massachusetts comes nearest to attaining her maximum. This was fixed at \$125,000,000 and the final figures for the state are \$124,792,250, only \$207,750 below the maximum and 56 per cent. above the minimum allotment of \$191,302,750.

Maine, with a total of \$25,540,500, has come within \$24,499,250 of reaching her maximum quota of \$30,000,000 and has exceeded by 46 per cent. her minimum allotment of \$15,351,000.

Rhode Island, with a final figure for which is \$28,253,100, is \$8,741,900 below her maximum allotment of \$47,250,000, but has exceeded by 55 per cent. her minimum quota of \$17,511,200.

## DOCTORS HAND OUT LIVE TIPS

They Take the Public Into Their Confidence

Prominent physicians claim people fail in life because of "nerve hunger," that it is the active, bright-eyed, strong nervous system woman who is "there" at work or play.

Strong, well nourished nerves is the great secret of success, health and happiness.

Men and women try to live regardless of health, strength, ambition, energy and hope. They exceed the speed limits, wearing nerve strength and energy and fail to stop; up reserve force, afterwards they only exist, life has no joys.

Without energy, ambition, strong nerves, and pure blood, one cannot hope to enjoy the fullest measure of success and happiness.

A noted specialist says, "Phosphated Iron brings strength to the blood, nerves and brain, that it is a perfect combination of vital elements of great tonic qualities when taken by 'Nerve-sick humans' that it will increase body and nerve energy, restore ambition and staying powers."

He also says: "If you are the victim of overwork, worry, excess of mental and physical forces, have the blues, and the pleasures of life are no longer enjoyable, that you need Phosphated Iron to brace, build you up and put you on your feet again."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow others to imitate our pills or tablets. Fred Howard, the druggist, Lowell Pharmacy and leading druggists everywhere.

# OVERCOATS

## \$25 Value to Order

Made any style, fly front, double breasted, balmacaan, ulster style, buttoned through, and the popular Trench coat for young men.

## THIS WEEK SPECIAL \$15

Three months ago for spot cash I bought 19 styles of Wanskuk fancy gray Overcoatings. In this lot there are a few black kerseys and patent beavers, 28 ozs. in weight.

This mill makes the finest face cloth in New England, on Beavers and Serges and mostly staple patterns, in blacks, oxfords, vicunas, meltons and herringbone weaves. The conservative dresser will find in this range of patterns just the style he is looking for. These goods should have been on my counters two months ago, but owing to conditions of the present day congestion, I just received them---the lateness of the season compels me to sell them at the above mentioned price.

Real honest value, worth \$25 in to-day's market. My price to order

## MITCHELL, THE TAILOR

LOWELL.  
Open Evenings Till 9.

## HOPE OF SAVING U. S. SAILORS ABANDONED

WASHINGTON, Nov. 9.—All hope for the safety of Lieutenant John T. Melvin and the enlisted men reported missing after the torpedoing of the American patrol ship Alcedo has been abandoned. Vice-Admiral Sims cabled the navy dept. yesterday that the search for survivors of the Alcedo had been given up, and that it was believed most of the missing men had been killed outright by the explosion of the torpedo.

**Daniels' Statement**  
Secretary Daniels authorized this statement: "The navy department has received a report from Vice-Admiral Sims stating that no trace has been found of the one officer and 20 men reported missing after the sinking of American patrol vessel Alcedo. Several vessels which were searching for possible survivors have given up the search. It is believed that most of the missing men were killed by the explosion of the torpedo."

## POLICE WOMEN

There may come a time when our women will have to do police duty, and it is said that they have done noble work in this line in a few cities of the United States. A woman, however, must be perfect physically, and strong, to take over man's duty. The housework for the mother or the housekeeper at home is often beyond her strength. It must be lightened in some way or other. Very often the worries and cares are much greater than the actual physical labor, but the feeling that this or that cleaning, sewing, etc., must be done, fatigues the mind more than the physical labor actually tires the body. No wonder the tendency of our times is for the young women to prefer work in office or factory rather than doing house drudgery. If the woman of the family is run down with the distressing complaints peculiar to woman, she should give instant care to those organs which are so important for womanly health. Dr. Pierce, the specialist in woman's diseases and founder of the Invalids' Hotel, at Buffalo, N. Y., put up his "Favorite Prescription" nearly 50 years ago, made entirely of roots and herbs, without alcohol, that puts the womanly health in proper condition. The catarrh is cured, and in consequence backache, dizziness, fainting spells are dispelled. Send 10c to Dr. Pierce's Invalids' Hotel, for trial package of tablets. Tablets for sale by most druggists, at sixty cents.

Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of. In ninety-nine per cent. of these cases it is the womanly organism that requires attention; the weak back, dizzy spells and black circles about the eyes are only symptoms. Go to the source of trouble—take Dr. Pierce's Favorite Prescription! When that is corrected the other symptoms disappear.

## SAYS SMALL DID NOT HAVE A FAIR TRIAL

CONCORD, N. H., Nov. 9.—The full bench of the supreme court heard in this city yesterday arguments in the case of Frederick L. Small of Ossipee, formerly a Boston broker, found guilty of wife murder. He is now in state prison under sentence to be hanged in January.

William S. Matthews of Somersworth argued the case for Small yesterday morning, with the assistance of Sidney F. Stevens, Atty. Gen. James P. Tuttle, assisted by County Solicitor Walter D. H. Hill of Conway, was heard for the state.

Mr. Matthews argued that the testimony of the state's electrical experts as to what might have been done with various articles found in the cellar of the burned Small cottage to produce a delayed fire, as alleged by the state, should have been ruled out because it was not based upon evidence in the case.

"The case against the respondent is based wholly upon circumstantial evidence," said his counsel, "and with this vitally important link (covering between seven and eight hours) missing, the state's case fails, for it is certain from the evidence that the person who committed the murder set the fire."

## SWEDISH CHURCH FAIR

Another successful session of the fair under the auspices of the Swedish Methodist church was conducted last evening and the receipts of the evening were very substantial. The program included an address of welcome by Miss Anna Anderson, bible reading and prayer by the pastor, selections by the quartet of the church, and readings by Miss Matilda Schomborn. A book business was carried on at the following sales tables, cake and preserves, the American Girls' organization, dry goods, the Scandinavian Girls' fancy articles, Dorcas society, candy table, young men of the church, tea, cream, cake and coffee were served by the Sewing society.

### THE RED TRIANGLE

Continued

him to attend the business session, which will not begin until 8 o'clock. The organization of the campaign is practically complete now and this evening's affair will serve to introduce the workers to each other. This afternoon a meeting of the women of the city was held in Colonial hall and prominent speakers were on hand to talk of Red Triangle work.

Tomorrow about 150 Lowell soldiers from Ayer will come to town to assist in giving the campaign a good send-off and at 8 o'clock in the evening a mass meeting will be held at the Westford street armory.

Monday the workers will meet at the Y.M.C.A. at noon to make their first reports and by that time the campaign should have swung into its full stride.

Otto Hockmeyer, general chairman of the campaign, has announced that the work of securing subscriptions in the suburban towns has been handed over to Hon. Edward Fisher, who was conspicuously successful in this line at the time of the Red Cross and other campaigns last summer.

**Class 3 Division**  
The following workers were appointed last evening for the teams in the so-called Class 3 division. They will solicit amounts under \$500.

#### DIVISION A

Paul Chandler, chairman, Sawyer Carriage Co.

**Dandruff Scalps Lead to Baldness**

If you have dandruff you must get rid of it quick—it's positively dangerous and will surely ruin your hair if you don't. Dandruffy heads mean faded, brittle, gray, scraggly hair that finally dies and falls out—new hair will not grow—then you are bald and nothing can help you. The only sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, surely and safely, and at little expense, there is nothing so effective as Parisian sage, which you can get from good druggists everywhere. It is guaranteed to banish every sign of dandruff, stop itching scalp and falling hair, and promote a new growth of the cost, small as it is, will be refunded.

Parisian sage is a scientific preparation that supplies all hair needs; an antiseptic liquid, neither sticky or greasy, easy to apply, and delicately perfumed.

If you want beautiful, soft, thick, lustrous hair, and lots of it, you must use Parisian sage. Don't delay—begin tonight—a little attention now insures abundant hair for years to come.

Note: Parisian sage positively will not color or streak the hair.

## What Morris Plan Loans are Made for

Here are some of the things for which people of character without giving chattel security or losing their self-respect, borrow money on easy terms, at legal rates of interest from Morris Plan Companies in all parts of the country:

- |                          |                                    |
|--------------------------|------------------------------------|
| Accident.                | To pay taxes or assessments.       |
| New Baby.                | To pay life insurance premiums.    |
| To pay up loans.         | To clean up old debts.             |
| Sickness in family.      | To make first payment on a lot.    |
| Death in family.         | To make repairs on home.           |
| Clothing for children.   | For a vacation trip.               |
| Clothing for parents.    | To discount bills.                 |
| To buy sewing machine.   | To increase stocks of merchandise. |
| To begin business.       | To purchase store equipment.       |
| To pay for education.    | To purchase delivery equipment.    |
| To begin housekeeping.   |                                    |
| To help needy relatives. |                                    |

One of these may be YOUR reason for making a loan. Perhaps you have an entirely different reason.

This Morris Plan Company is always looking for opportunities to loan money on easy terms to worthy applicants who are vouched for by persons of character.

It does not demand chattel security. CHARACTER is the basis of credit here.

IF YOU HAVE PRESSING DEBTS, PAY THEM WITH A MORRIS PLAN LOAN. GET A NEW START.

**MILK MAN ARRAIGNED IN POLICE COURT**

Walter A. Andrews of Dracut, was charged in police court this morning with a violation of the milk law in having watered milk in his possession.

William A. Bennett, acting milk inspector, testified to taking samples and finding them adulterated. It was testified that the present case was the third offense of Andrews on the same charge. Judge Frederic A. Fisher made a finding of guilty and Andrews was ordered to pay a fine of \$50.

Joseph P. Kelly, charged with the larceny of an automobile valued at \$500 from Ralph C. Stuart, was held in \$1000 for superior court.

Catherine F. Grimeshaw, Marguerite Bellemare, Sargent Bellemare and Charles Joyce were arrested yesterday by members of the vice squad, from a house at Tremont and Moody streets, and in court this morning were charged with drunkenness. They were found guilty and each received a 30-day jail assignment.

James L. Ronley, charged with drunkenness, was also found guilty and sent to jail for a month. The case of James Moan, charged with drunkenness for the fourth time, was continued until tomorrow.

The case of Fortuna Roy and Raoul Gagnon, charged with assault and battery, will also be heard tomorrow.

Dominick McCarty was charged with the larceny of \$24 in cash and a pocketbook valued at \$2 from Thomas H. Dalry, November 16 was the date set for the trial. The case of Alfred Gagnon, charged with non-support, was continued until Nov. 17. Mohammed Said, charged with larceny, will have his case heard Nov. 20.

A long drawn out non-support case took up the major portion of the session and when all the testimony had been offered, the court ordered the case continued for a month and in the interval an effort will be made to have the couple come to terms.

## WARNS OF DANGER IN PRUSSIAN PRINCIPLES

BOSTON, Nov. 8.—"If the present war had not come this country would have had an industrial revolution which would have been little less horrible," declared Miss Helen R. Y. Reid, a social worker from Montreal, last evening at the annual meeting of the Associated Charities of Boston in Jacob Sleeper hall, Boston university.

Miss Reid, who is director of the Ladies' auxiliary of the Canadian Patriotic fund, spoke on "The New Era for Canada and the United States." She said that democratic ideals have been too often lost sight of in this country and Canada in recent years in the race for dollars.

"The greatest danger to the world," she continued, "is not that Germany shall win the war, but that the Prussian principles of force in the guise of patriotism, materialism, greed and expediency under the name of science, shall win the world-spirit from its high purpose of producing free sons of men, intent on living sane lives. The real peril is in our hearts and minds, the stealthy corruption of our power to perceive truth and to know good from evil. So far as we have been thus corrupted, the Germans have sinned the sin of greed, have bowed down before deified science and have suffered the tools of man to enslave the spirit of man."

"Are we prepared to pull down from their thrones, after this war, those false gods of greed, materialism and efficiency that have made the Germans mad? Or are we to continue, after the war, still eager for the gold hunt, for individual achievement and place?"

Miss Reid described work done in Canada for making blind and convalescent soldiers useful to the nation. She said there are already 13,000 crippled soldiers being looked after there, while work has been received that in the future a monthly average of 1300 arrivals from Europe may be looked for, including an average of 100 tuberculosis victims.

In the absence of John F. Moors, president of the organization, Howard W. Brown, vice president, gave the annual address, expressing satisfaction that the deficiency for the year, \$255.40, is the smallest in 13 years. He mentioned that \$100,000 is to be received by the will of Mrs. R. D. Evans, more than double any benefaction ever received by the organization.

These officers were elected: Arthur Adams, clerk; Henry B. Cabot, treasurer; Miss Elizabeth L. Holbrook, assistant treasurer; Henry B. Cabot, secretary; R. Brackett, Julian Codman, Miss Josephine B. Colt, Miss Amy Folsom, Mrs. William H. Lathrop, Miss Frances R. Morse, John F. Moors, Mrs. W. E. Nichols, John H. Post and Mrs. Channing Simmons, directors for three years. The directors will choose a president and vice president.

## MORE CANDIDATES TAKE OUT NOMINATION PAPERS

Col. James H. Carmichael of 22 Rolfe street has taken out nomination papers for alderman, while Parker F. Murphy of 53 London street has taken out papers for school committee. The following candidates have taken out nomination papers with the city clerk: Perry D. Thompson, mayor; John R. Curtin and Marion E. Sproule, school committee.

The board of assessors announced this morning that the day State Street Railway Co.'s excise tax to the city this year will be \$541.27 more than last year, the amount being \$11,732.55 against \$11,191.31 for 1916.

Chaufeurs Examined

Twenty candidates for a chauffeur's license were examined at city hall this morning by Examiner Hubbell of the state highway commission.

South Common Pond

It is expected that the work of rebuilding the South common pond will be completed this week by Contractor D. H. Walker, who was awarded the contract. Other work in relation with the pond will be carried on in the spring.

Will Attend Dinner

Mayor James E. O'Donnell will be one of the speakers at the Triangle dinner which will be given at the Y. M. C. A. this evening. Tomorrow His Honor will start the football game of the soldier boys at Spalding park. The receipts of the game will go toward swelling the fund of the Red Triangle.

MEMBERS OF CLUB LAFAYETTE

ENJOY NICELY PREPARED DINNER OF DEER AND PHEASANT

Pheasant and venison were the piece de resistance at a dinner tendered about 25 members of Club Lafayette at the well appointed quarters of the organization in upper Merrimack street last evening. The hosts being Omar J. Smith, Ovila Morin, Willie Rousseau and Undertaker Joseph Albert.

It seems that a couple of days ago Messrs. Rousseau, Smith and Albert went on a little hunting trip and returned with a half dozen cock pheasants, and they immediately made plans for a dinner to a group of members of the club. Mr. Morin, who is a bit of a sportsman himself, heard of the arrangements and he thought he would contribute his share to the festivities and accordingly he went to Boston and purchased a hindquarter of a deer.

The game was brought to the club and Bert Grew prepared a beautiful and most appetizing dinner and last evening about 25 members of the club gathered around the festive board and discussed the food of the wild. At the close of the dinner post prandial exercises were held with Dr. Rodrigue Mizault acting as toastmaster and these present learned a thing or two about hunting. Entertainment numbers were also given and at the close of the evening a vote of thanks was extended the hosts, while Chief Grew was pronounced the best chef ever.

## TRAIN ALL YOUTH, SAYS MAJ. GEN. WOOD

BOSTON, Nov. 8.—Following a conference with Maj. Leonard Wood, commander of the department of the south, Brig. Gen. John A. Johnston, commander of the northeastern department, accompanied by members of his staff, started yesterday on an inspection of forts and posts in Boston harbor and its immediate vicinity. With Gen. Johnston are Col. Robert L. Howze, chief of staff; Col. Warren P. Newcome, inspector general; Capt. Joseph J. O'Hare, chief aid, and Col.

**Boston Wholesale Millinery Co.**

(INCORPORATED)

212 Merrimack Street, Opp. St. Anne's Church, Wier Building

Charles A. Bennett, commander of the coast artillery stations.

Before the party departed for the inspection, Gen. Wood gave out an interview in which he again favored compulsory military training for the youth of this country. He also spoke at length on the spirit of sacrifice manifested by the business and professional men in this country, a large number of whom are in the army. He said that these men were giving their service at a time when it was of most value, and their work, he declared, was appreciated.

He said that he favored all the young men of the United States between the ages of 18 and 21 having

two years of military instruction given by the government.

"Nothing will do more," he said, "for the future of the country than thoroughly to train the minds and bodies of the young men before setting them to work. The rich man does it for his son. Uncle Sam should do it for all his sons."

Col. Arthur Thayer, Vermont, and Maj. Edwin T. Cole, in command at the Massachusetts Institute of Technology, conferred with Gen. Johnston yesterday. Maj. Cole said there were more than 1000 at present training at Tech, of whom 500 were in the "Tech" battalion and 275 were in the officers' training corps.

Col. D. J. Carr, U.S.A., signal officer at the northeastern department, received orders from Washington to enlist a cryptanalyst. He will be rated corporal, receiving \$36 a month.

Appeal is made by J. J. O'Hare for more sweaters for the regular army men. Capt. O'Hare asks that 200 sweaters be sent at once to the northeastern department. He would also like woolen gloves for the soldiers.

Orders received yesterday by Lt. Lester Watson, aeronautical officer of the northeastern department, authorizing him to send aviation students to Princeton as well as Tech to study for commissions.

Officers and non-commissioned officers from the northeastern department are attending a three-day conference which opened yesterday at the South armory on the matter of pay allotment and war insurance. The conference is called by Gen. Johnston and Major J. M. Carville of the northeastern department headquarters, an insurance expert, is explaining the workings of the government insurance plan.

## POLICE WILL INVESTIGATE CAUSE OF FIRE

The state police, assisted by Chief Edward F. Saunders of the fire department, are making an investigation into the cause of the fire which broke out at 11 Broughton avenue, off Lakeview avenue on Tuesday night, and also the condition of the building. Chief Saunders, Deputy Neale and Inspector MacDonnell of the state police viewed the premises and will make a report later on. Judge Enright of the local police court and Clerk Tracy also visited the building and inquired into the deaths of five persons, will, in all probability, be held next week.

Mrs. Karolina Podginski, who was burned about the arms, neck and chest and suffered abrasions about the face, and fracture of the ankle, is still in a serious condition at Little's hospital. Little's hope is entertained for her recovery.

Felix Mashonka, whose two children were burned to death in the fire, is also in a serious condition at the Lowell Corporation hospital.

### FALSE FIRE ALARMS

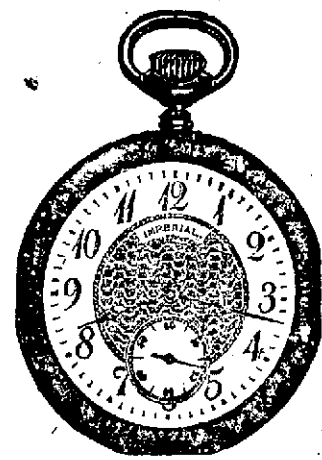

The prevalence of false alarms of late has been a source of annoyance to Chief Saunders of the fire department as well as the police, and although every effort has been made to intercept the culprits, the police have been unable to get a clue as to the identity of the persons who have been sounding the false alarms.

At 6:30 o'clock last night, an alarm from box 417, located at the corner of Chelmsford and Powell streets, summoned a portion of the department, only to have them find that there was no fire. There were several boys standing in the vicinity of the box at the time the alarm was pulled in, but when the apparatus arrived on the scene there was none of them present.

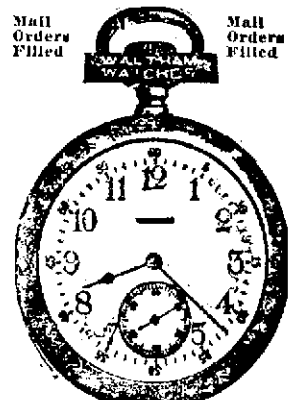

The members of Hose 7 were called to 200 Chapel street at 5:30 o'clock last night to extinguish a blaze caused by an overturned lamp. The fire was put out before much damage was done.

A telephone alarm at 11:47 o'clock this morning was for a grass fire off Quebec street. There was no damage.

# WARRANTED

## SMALLPOX EPIDEMIC AT GARDINER, MAINE

AUGUSTA, Me., Nov. 8.—The small pox epidemic at Gardiner, where there are between 75 and 100 cases in a form so mild that until recently it was supposed to be chicken pox, is well in hand today in the belief of officials of the state board of health. The state board is co-operating with the local authorities and every precaution is being taken. The schools have been closed but will reopen Nov. 19, and all scholars have been vaccinated. Churches and public libraries were closed and the moving picture houses have been asked to suspend.

At Fort Fairfield, where 21 cases were reported, there has been no further spread of the disease. Three cases also were reported at Presque Isle, near Fort Fairfield.

## RELIEF FROM THE COAL SHORTAGE

WASHINGTON, Nov. 8.—Temporary relief from the coal shortage existing in many sections was seen today in a new order of the fuel administration granting permission to jobbers to take a small profit margin on coal they had purchased at high prices prior to the fixing of government rates.

Under direction of the state fuel administrators, the coal will be allotted to communities where the shortage is most marked.

NEW YORK RECEIVES 10,000 TONS OF SUGAR

## BANK ROBBERS GET \$18,000

JACKSON, Mich., Nov. 8.—The Farmers' State Bank in the village of Concord, 10 miles south of here, was wrecked by burglars early today. The bandits escaped with about \$18,000 in cash. Explosions in the bank attracted several citizens, but they were kept at bay by armed men in front of the bank. Telegraph and telephone wires had been cut. The men escaped in two automobiles. It is claimed that the robbers exploded eight charges before the vault was ripped open. The Sun prints the news of the world when it is news and only such news as is fit to print. It is a clean, family newspaper.

## WHAT THE GREAT WAR WILL DO TO LOWELL

William R. Balch, war editor of the Boston Transcript, appeared before the members of the Highland club last evening and told them what he knew—or, at least, part of what he knew—about the great war. Mr. Balch spent several years in Germany during the outbreak of the war and now the German viewpoint and situation as few Americans do. He is in touch with all war news available in this country and has access to all official despatches received in Washington. These advantages give him a wealth of information and last evening, he was generous in imparting his knowledge.

In addition to his fund of facts Mr. Balch possesses a pleasing presence as a speaker and his talk last evening was an almost ideal one. His subject was "What the Great War Will Do to Lowell" and he spoke in part as follows:

"There's a new world coming when the war ends and it is up to you men of Lowell to see that the war is men's fought out. The mere going from your work to the street and seeing there are other and better ways to help. Have you ever realized that you and your family waste from 35 to 37 per cent. of the white flour in the bread which you eat? If 3000 other people in Massachusetts do the same, it's up to yourself. Two old and feeble friends of mine in England go to a hospital every night at midnight and stay up until dawn so that the nurses may sleep. They have found a way of doing something. You must do something like that if you want to get your men out of the trenches. Why are we fighting Germany, you may ask? Because the Germans have set out to conquer the world. They planned to do this immediately after the war of 1870. At the close of one war Germany is preparing for the next. The Germans planned to carry on this war along three great roads. The first was the policy of peaceful penetration.

"Years before the war began, Germany had one expert employed among every 20 or 30 workmen. When I was in England, a German youth came to me and asked if I could help him obtain a position as a chemist in a soap factory in England. He said that he wanted to learn chemistry and that he was willing to work for nothing until he should become of value to the company. This fellow was only one of the 17,000 spies in England. There were 16,000 in the United States, 18,000 in Belgium, 22,000 in France and as many more in other countries.

"Germany prepared even to the minutest detail for this war. Why, she even had invoices from other countries sent through her banks and the details of every shipment were noted. Business houses were bought in other countries. In Italy, Germany controlled 70 per cent. of the business of the country at the outbreak of the war. Why did the Germans put up such a stiff battle at Verdun? Because there are iron mines there and these, linked with Germany's coal mines, would make her commercial mistress after the war.

"The second road along which Germany planned to carry this war was by her highly developed spy system. Every action in Germany is based on an accurate knowledge of what the other fellow is doing or intends to do. The first German spy who was shot in London had been a barber in England for three years before the outbreak of the war. He had been set up in business by the government. All he knew about the spy system was that at a certain time, one man would hand him a paper or package which he was to pass on to a third man at another stated time. Outside of that, the whole German spy system of which he was a part was a mystery to him. And so it was with every German spy. If he were caught and forced to confess, his knowledge could implicate only two other men. It was a highly developed system as a whole, but the individuals were un-realizing cogs.

"A cut-glass factory six miles from the fortress on the Moselle, the line was blown in the early days of the war and in the ruins was found an emplacement for a 42-calibre gun. All the Germans had to do was to roll up their guns and start firing. There was a number of hunting shacks along the coast of Belgium before the war and these, also, were nothing more or less than gun emplacements. I believe that there are one of these emplacements hidden along the coast of Cape Cod. No schoolhouse has been built in Germany for the past 20 years without the approval of the German general staff. They must be capable of being turned into hospitals at the shortest notice. And so with every factory in Germany, it is merely a boast and tell what they had done and what they were going to do. The Germans discovered poison gas and as soon as they had a sure quality of it made they had to use it right

away. If they had waited until a sufficient amount had been made they might have gone right through France and driven everything before them. But they couldn't wait."

Mr. Balch then went into a detailed description of what happened to the German man when "Der Tag" arrived. Every German had been prepared for this day years in advance and when the signal was given they were ready for it. Little shacks similar to the rolling booths in this country were stationed all over the country and when the alarm was sounded the German rushed to his particular shack without even stopping to get his hat. If he were a minute late he was severely reprimanded. A key was clamped around his neck as a means of identification and he was sent off without seeing or speaking with his loved ones.

Mr. Balch epitomized the reason for Germany's failure to make good her boasts in the fact that the "Germans have never known or understood any nation on earth except her own. That is why Germany has not won a single battle, she has underestimated the fighting spirit of her opponents."

"The speaker said that he had the opportunity of talking with the kaiser when he was in Germany and he characterized the emperor as very keen but soapy and bad-tempered. He considered himself God's regent on earth and he thinks anyone who resents him insults the Almighty.

"The kaiser is a bad soldier," said Mr. Balch, "despite his years of military training. He was unwilling to leave the work of carrying on the war to his military experts; no, he must do it himself. He has repeated over and over again that the future of this earth belonged to Germany and America, but America has offended him and he must give us a good hiding."

In conclusion Mr. Balch urged his listeners to do everything in their power to oppose the Germans. He implored them to cultivate the greatest suspicion against every German who has not already openly declared himself on the side of the United States.

"If you don't do it now," he said, "six months from now, when black will be the fashionable color for women, you will be ready to take reprisal on the nearest German."

After the address Mr. Balch met the members of the club informally and answered a number of questions about the war.

Last evening's lecture was in charge of the entertainment committee.

LOWELL'S LIBERTY LOAN TOTAL CLIPPED

The Lowell Liberty loan committee is in receipt of a communication from the Federal Reserve bank to the effect that the Lowell total is being reported to Washington as \$6,115,300.

This sum is \$150,000, or thereabouts, less than the Lowell committee claimed and the discrepancy is unquestionably explained in the fact that Boston gave credit to Lowell for only \$50,000 of the Hamilton Manufacturing Co.'s subscriptions and kept \$100,000 in Boston in spite of a notification received during the campaign that the Hamilton's total subscription was to be credited to Lowell.

The Federal Reserve bank has credited Lowell with the \$100,000 of the Tremont & Suffolk mills subscription and \$100,000 of the Bigelow Hartford Carpet Co. subscription. In the final listings Billerica gets credit for \$3350 more, Dracut has a \$50 credit, Chelmsford \$100 and Tewksbury \$100. The New England Telephone & Telegraph Co. by a careful distribution of its centralized subscriptions has credited numerous sums back from Boston to Lowell and all the surrounding towns.

The final notification from the Federal Reserve bank states that the subscriptions in Lowell as reported were \$5,088,000 and the amount credited to Boston to the Lowell total is \$1,027,300, making the grand total \$6,115,300.

The Lowell committee could easily swell this by lighting for a total of \$150,000 which was at one time officially credited, but the committee does not consider the game worth the candle and contents itself with planning not to let the subscribers get away during the next campaign. The Federal Reserve bank has expressed its appreciation of the work done in Lowell which is considered to have brought from this city an entirely satisfactory total subscription, and it asks that the committee's organization be kept intact for the next drive.

CITY OF BROCKTON TO SELL SUGAR

BROCKTON, Nov. 9.—Mayor Stewart B. McLeod yesterday received a consignment of 30 bags of sugar, each bag weighing 100 pounds, which will be placed on sale Monday in one pound lots. Brockton has had considerable sugar during the past few weeks, but the poor people have not had a chance at it. In nearly every instance it was sold only to persons who bought other goods in fraying amounts. Police officers were put on guard at the door of the office of the board of health, where the sugar is stored, to prevent a raid and a corps of officers will be on hand Monday to preserve order when the sale starts.

A crowd of nearly 1000 women stormed the doors of the Brockton public market for two hours yesterday while a sale of sugar was on. Not satisfied with making the sugar market short, housewives are raiding the stores of salt, and even of matches. Every little rumor to the effect that a certain article of going short is a signal for a rush.

INVESTIGATE PRICES OF CANNED VEGETABLES

CHICAGO, Nov. 9.—Intimation that the big packers have not been playing exactly fair with the food administration in the matter of canned vegetables was contained in an order from Washington yesterday directing Harry A. Wheeler, state food administrator, to look into the stocks of tinned foods held by the packers. It is particularly desired to know what the stocks were put up. The government wants to know this with reference to prices paid at the time as compared with present prices.

The packers are said to be the biggest canners of vegetable products in the country and thus to control prices. This season's pack of corn is said to be the largest since 1912. It is said, should be obtainable at reasonable prices.

The corn pack for 1917 is estimated at 7,000,000 cases, as compared with 9,000,000 cases in 1914 when prices were about half what they are now.

ORDERS PHYSICAL CONNECTION OF STEAM AND ELECTRIC RAILWAY TRACKS IN PORTLAND

AUGUSTA, Me., Nov. 9.—The public utilities commission yesterday ordered the physical connection of the steam and electric railway tracks in Portland, the work to be completed by Jan. 1, 1918. The cost will be met, 75 per cent. by the steam roads and 25 per cent. by the electric roads.

SUPT. QUINN TO OPPOSE MAYOR ROCKWOOD AT CAMBRIDGE

BOSTON, Nov. 9.—Edward W. Quinn, superintendent of the Cambridge water works, has announced that he will be a candidate for mayor of that city in the coming election.

## AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more

medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. MCGONIGAL, 3432 Hartville Street, Phila., Pa.

## BRAZIL NOW FEARS DOUBLE ATTACK

SANTA ANNA DE LIVRAMENTO,

Brazil, November 9.—The municipal authorities believe that the settlement of the strike which has been in progress here for some time is only temporary and that the Germans are fomenting a new walkout.

The strike just settled was the third to come in quick succession, and like the others it greatly interfered with the shipment of foodstuffs and other supplies to the entente allies. Officials say they believe the strikes are part of a revolutionary movement.

Strong Forces Employed

The national government is maintaining strong forces through the affected district and the Brazilian army is being moved to the front in action against the Argentine troops as a result of persistent reports in official

circles that Argentina is mobilizing at Libros and Santo Tome, near the southern Brazilian frontier. Officials scoff at Argentina's excuse that the mobilization is merely precautionary against a German uprising in Brazil and fear a renewal of hostilities over the old boundary dispute concerning the Misiones province, which was settled some years ago by President Cleveland.

Among other international problems Brazil is faced by a renewal of active propaganda by the monarchists, especially in the Rio Grande do Sul and Porto Alegre districts and which also is active here.

Brazil has prohibited entrance into the country of Uruguayan Germans. It is reported here that a national decree has been issued suspending the constitutional rights of Germans and the decree is expected to cause a new outbreak in the German provinces.

LIBERTY GOLF TOURNAMENT

NEW YORK, Nov. 9.—Proceeds of the Liberty golf tournament conducted by the United States Golf association during the summer for the bene-

fit of the Red Cross were \$72,875, it was announced here last night by the association. On Independence day 135 clubs, representing every state in the Union with the exception of Idaho, Nevada, New Mexico and Oregon, held competitions for the Red Cross, the announcement said.

## SPY SUSPECTS WILL LOSE CABLE RIGHTS

WASHINGTON, Nov. 9.—The government is about to deny cable communication with neutral countries to a number of persons in the United States, including some American citizens, on the suspicion that they have furnished information to the enemy on military, naval and commercial operations.

Telegraph and cable companies, it was stated yesterday, will be given lists of individuals who have been under surveillance, with instructions to refuse transmission of their messages.

Some of the men under the ban are said to have been engaged by neutral organizations or corporations in the European neutral countries or in Mexico, South and Central America, to gather information ostensibly for commercial purposes entirely, but in reality for transmission to Germany.

Although these agents, in some instances, are unwittingly acting in the enemy's interest, the avenues of communication will be closed to them by the government censorship board.

Censorship is but one phase of the program for tightening control over enemy activity now being formulated for early announcement. The plans include further steps to prevent explosions, fires, and other acts of sabotage.

More drastic measures, also, will be taken soon, it is said, to restrict the movements of the thousands of alien enemies.

## PARIS CONFERENCE TO DISCUSS SHIPPING

WASHINGTON, Nov. 9.—Aside from the subject of actual military operations, shipping will be the most important question taken up by American and allied representatives at the Paris war conference.

The United States shipping board has announced that it will turn out between now and early spring 1,000,000 tons of ships. This will fall far short of the ever increasing demand, the army and the navy on the one hand and the allies on the other calling every day for more vessels. For every ship made available, the shipping board finds a dozen uses.

One subject the conference will consider carefully is how many troops America can put in the field without endangering the food and material supplies of France and Italy. The American view of the situation will be set forth by Bainbridge Colby.

The shipping board also sent with the commission, it was learned yesterday, a special representative to study English ship building methods. He is Charles Day, a Philadelphia marine engineer, who will investigate particularly the construction in England of fabricated steel ships.

### REGISTRATION FOR PRIMARIES

Twenty-two names of men and eight of women were added to the voting list at yesterday's sessions of the board of registrars. The registration by wards was as follows:

Ward	Men	Women
Ward 1	1,000	500
Ward 2	1,200	600
Ward 3	1,100	550
Ward 4	1,300	650
Ward 5	1,400	700
Ward 6	1,500	750
Ward 7	1,600	800
Ward 8	1,700	850
Ward 9	1,800	900
Total	12,200	6,150

### CONCERT BY FREDERIC G. BOND FOR BENEFIT OF THE RED CROSS

Next Wednesday evening in Colonial hall a concert will be staged under the direction of Frederic G. Bond for the benefit of the Red Cross. An excellent program has been arranged and the soloists will include Mrs. F. L. Roberts, Mrs. Nano Gallagher, Mrs. Jack Donnelly, Miss Vera Moody, Miss Kate Hennessy and Miss Margaret McDonough. Mr. Bond will also sing solo and duet numbers and several members of his class will take part. Napoleon Guilbault and Miss Ella M. Kelly will accompany.

The patronesses will include Mrs. Butler Ames, Mrs. H. A. Thompson, Miss Harriet Coburn, Mrs. J. W. Hurst, Mrs. Harry J. Corwin, Mrs. Charles L. Simpson, Mrs. Collins Vandenberg, Mrs. Henry H. Wilder, Mrs. C. C. Shiley, Mrs. H. H. Fletcher, Mrs. Frank Gramblin, Mrs. Charles Runcie, Mrs. Robert L. Jones, Mrs. Russell Fox, Mrs. G. M. Macartney, Mrs. Aubert J. Fay, Mrs. George H. Chandler, Mrs. E. N. Smith, Mrs. Frank Smith and Mrs. Frank W. Stevens.

### LOWELL SOCIALIST CLUB

The regular meeting of the American branch of the Lowell socialist organization was held last night at 22 Middle street. Routine business was transacted, and one new member was admitted. Plans were reported under way for a vigorous city campaign, and reports from New York were read stating that six and possibly eight socialists were elected aldermen, and that one socialist municipal judge also had been elected. The next meeting will be held Wednesday afternoon at 3 o'clock at the headquarters.

### ASSOCIATE HALL SCENE OF SIXTH ANNUAL DANCE OF THE BELLEVUE CLUB

The sixth annual dance of the Bellevue club was held last night at the Casino hall and the large attendance was an evidence of the popularity of the members of the club. The evening was spent in an enjoyable manner. One of the features of the evening was the dance orchestra which bore a calendar for the year 1918. The Doyle orchestra furnished music for the occasion, and the officers in charge of the arrangements were as follows: General manager, Richard Marshall; assistant general manager, William Wallace; floor director, Frank Hickory; treasurer, John Ward; and chief aid, Paul Chandler.

Save the Wheat and eat the Corn! I've been doing it ever since I discovered—

### THE JAMES CO.

## COMPENSATION DENIED LOWELL MAN

Special To The Sun.

STATE HOUSE, Boston, Nov. 9.—On the grounds that he failed to file a "claim for compensation within six months after he was injured" the case of Michael McCarthy of 139 Cross street, Lowell, against the Saco-Lowell shops was yesterday dismissed by the Massachusetts industrial accident

McCarthy, who has been an employee of the Saco-Lowell shops for 16 years, was injured Sept. 1916, while at work in the setting up room of the shop. He fell from a truck and in falling a three-inch level which was in his overall pocket crashed into a trolley which was in the grove. Subsequently he went to St. John's hospital and was operated on. He was out of work for five months, returning to his employment Feb. 19, 1917.

Yesterday's report of the industrial accident commission denying McCarthy's claim is based on the hearing which was held in the aldermanic chamber of the Lowell city hall on the afternoon of June 28 of this year. The insurer was the American Mutual Liability Insurance company.

The employee sought compensation for his incapacity and the payment of an \$80 bill due Dr. Matthew P. Macdonald, son of Michael McCarthy, who declared that he corresponded with the insurance company as early as January 16 telling of his father's injury and asking them to consider the matter.

## Most Old People Are Constipated

The wear of years impairs the action of the bowels. As people grow older they restrict their activity, neglect to take sufficient exercise, and indulge a natural disposition to take things easy. The digestive organs become more sensitive to the demands made upon them and rebel more quickly.

It is of special importance to the health of elderly people that the bowels be kept normally active. A mild, yet effective, remedy for constipation, and one that is especially suited to the needs of old folks, women and children, is the combination of simple laxative herbs with pepsin sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. It costs only fifty cents a bottle, and should be in every family medicine chest. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.

following the injury, and when the employee paid the \$4 or \$5 for medicines does not appear.

"I find that the average weekly wages of the employee were \$11.50. The amount of compensation which would be due, if this claim could be maintained, would be \$138.20.

"As to the medical bills incurred within the first two weeks, I find that \$50 for the first operation and \$5 for the pathological examination is a reasonable fee for the services of Dr. Mahoney; that the bill of St. John's hospital in the amount of \$10 is reasonable; that the bill of Dr. John H. Donovan in the amount of \$10 is reasonable. Dr. Carritt's bill, it appears, was incurred after the first two weeks

"I find that the employer had knowledge of the injury but that no claim for compensation was made until April 17, 1917, more than six months after the injury.

"The letter written to the insurer by the employee's son on January 16, 1917, does not meet with the statutory requirements for a claim, and it is apparent that none of the letters after that date approach such requirements. The question then arises as to whether the failure to file a claim was due to mistake or other reasonable cause.

No promise of settlement was held out in any of the insurer's letters. The insurer's letter of February 27, 1917, made the employee aware that the insurer was not then ready to admit liability but was still investigating the case. But, notwithstanding this, the six months was allowed to elapse without the filing of a claim.

"The failure to file a claim within six months cannot be held to be due to 'mistake or other reasonable cause' as those terms are used in law.

"The claim for compensation is dismissed."

HOYT.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION SECURES MANY NEW MEMBERS IN CAMPAIGN

More than 100 members have been secured by the Young Women's Christian association as a result of the campaign which is being held for an increase in membership. There were about 70 Y.W.C.A. members at the supper tables in Kitson hall last night and the report of the "Double Your" campaign proved to be a very encouraging one. During the supper the girls sang association songs and the campaign leaders were cheered to the echo.

The report showed that 107 new members have been added. The Blues under the leadership of Mrs. Hatch secured 66 new members, while the Red team succeeded in adding 41 new members. Y.W.C.A. pins were awarded to Isabel Scott, Edith Scott and Ruth S. Chidding, a member of the national board, will visit Lowell and speak at a Sunday afternoon meeting, Nov. 25.

Mrs. E. E. Gibson, chairman of the foreign work committee, spoke of the Lowell association's work in China under Miss Boutelle's leadership, and outlined plans for the securing of our financial share in the work. Mrs. Thies, S. Chidding, a member of the national board, will visit Lowell and speak at a Sunday afternoon meeting, Nov. 25.

Mrs. E. E. Gibson, chairman of the foreign work committee, spoke of the Lowell association's work in China under Miss Boutelle's leadership, and outlined plans for the securing of our financial share in the work. Mrs. Thies, S. Chidding, a member of the national board, will visit Lowell and speak at a Sunday afternoon meeting, Nov. 25.

Mrs. E. E. Gibson, chairman of the foreign work committee, spoke of the Lowell association's work in China under Miss Boutelle's leadership, and outlined plans for the securing of our financial share in the work. Mrs. Thies, S. Chidding, a member of the national board, will visit Lowell and speak at a Sunday afternoon meeting, Nov. 25.

## ROADWAY CLUB ANNIVERSARY

The third anniversary of the Broadway Social and Athletic Association was celebrated with a banquet at the Beverly hotel last evening, and the affair, like all others conducted by this prominent organization, proved a success in every particular. There was a large attendance and all greatly enjoyed the appetizing supper, the eloquent addresses and the excellent musical and literary numbers.

The speakers included Mayor O'Donnell, Commissioners Morse, Brown and

Warnock, Rep. Dennis A. Murphy, Rep. Charles H. Slowey, President Timothy O'Sullivan, Jeremiah J. O'Sullivan, Sheriff Martin Conway and William H. Sullivan. Musical numbers were furnished by Walter Poulet, Commissioner James B. Donnelly, George Bolton, John Shugrue and John Stapleton.

The affair this year held more significance than any previous event, and this fact was brought out very forcibly during the progress of the festivities.

Since the organization of the club, five of the members have been called to their reward, the club members have purchased over \$1500 worth of Liberty bonds, and it has contributed 12 members to the service. All these facts were touched upon, and a silent tribute was paid the departed members, with Commissioner Donnelly singing "Absent Brothers." The soldier members of the club who were able to secure leave from duties were present, and occupied seats of honor. They were praised for their patriotism and loyalty, and a toast was offered for the mothers of the boys in khaki.

The exercises last evening opened shortly after 8 o'clock, and after the inner man had been satisfied, President Timothy P. O'Sullivan rapped to order and extended a cordial welcome to all. He also took occasion to thank the members for again electing him to the

high office of president and said that he hoped all would continue to render him their co-operation and assistance. He said that whatever success his administration had enjoyed was due to the undivided support he had received from all connected with the club. He pledged himself to continue to discharge the duties of the office in the same manner as in the past, and urged all to continue their interest in the club's affairs.

Jeremiah J. O'Sullivan, Esq., a member of the club, was then presented as toastmaster of the evening. He received a great reception for his prominent work as toastmaster at the last anniversary banquet was fresh in the memory of all. He thanked the members for again honoring him and told of the great pleasure it gave him to attend the affairs conducted by the club. He said that the prominent position held by the organization was shown by the presence of all members of the municipal government. The state was represented by two members of the legislature, and good old Uncle Sam by the soldier members of the club. Rep. Dennis A. Murphy was next called upon, and he was accorded an ovation. He thanked the boys for the reception and said that he wanted to again express his gratitude for what they had done for him in the past. He assured them that he would always cherish an opportunity to show his appreciation of their many favors.

Mayor O'Donnell was received with cheers and he bowed in recognition of the receipt. He said that while he was not a member of the club or a resident of that section of the city, he was always a member and resident of the Acre in spirit. He said that he always had the greatest respect for the type of people from that part of the city, for they were a credit to the community. He said that he was pleased to see that the members appreciated the true worth of their popular representative in the legislature, Dennis A. Murphy, and that he joined with them in wishing him continued success. The speaker congratulated the club for its contribution to the liberty loan and for its great showing in sending 12 of its members to assist the United States government to make the world safe for democracy. The mayor concluded by thanking the committee for inviting him to attend the banquet and hoped that the club would enjoy many years of success and prosperity.

The Commissioners Commissioner Charles Morse was then introduced, and he arose amid cheers. He wished the club every measure of success, and said that he was delighted at the opportunity to be present and assist at the celebration of the anniversary.

Commissioner Frank Warnock was well received when called upon and, after thanking the members for giving him an opportunity to attend the banquet, told of his experience as a member of the U. S. Army during the Spanish-American war. He praised the soldier members of the club and said that he sincerely hoped that all who were called upon to go across to Europe in the great battle would safely return to the Broadway club.

Commissioner George H. Brown was loudly applauded as he arose to speak. He told of the prominent position that the Broadway club held in the city and said that he realized that its success was due to the earnest co-operation of all, and the manner in which they respected their officers and the rules laid down by the governing board. "Continue to do this," he said, "and you are bound to succeed. May God be with you!"

Other Speakers Rep. Charles H. Slowey, a colleague of Rep. Murphy, was enthusiastically greeted, and he said that he wanted to thank the members for all that they

had done in his behalf in the past, and said that he would always remember their many kindnesses.

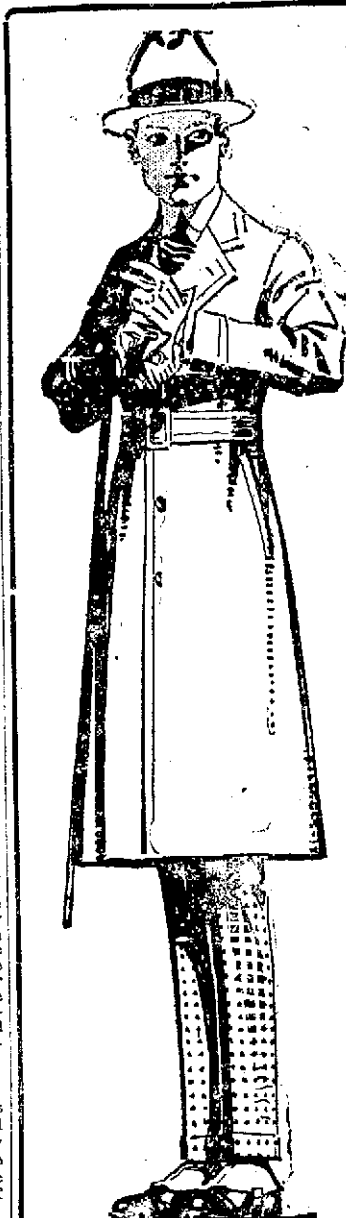

Sheriff Martin Conway spoke reminiscently of the days when the old North common ball team came out in his town, Billerica, to play ball. He told

of the many great battles on and off the field, and said that what he and all boys admired the boys from the Acre for their loyalty and devotion to one another. He closed by paying a glowing tribute to Rep. Murphy.

William H. Sullivan spoke along congratulatory lines, and expressed his thanks for the opportunity to be present at the third anniversary banquet.

At this point Toastmaster O'Sullivan said that he would request all to stand and pay a silent tribute to the five members of the club who have passed away. The list of departed brothers was read as follows: Raymond McGrath, Walter Stockbridge, Michael Driscoll, Thomas Tague and Benjamin Dunn. Commissioner Donnelly came forth and sang "Absent Brothers," with all joining in the chorus.

The affair was brought to a close with all singing "The Star Spangled Banner."

The affair was brought to a close with all singing "The Star Spangled Banner."

The officers of the Broadway Social and Athletic club are: President, Timothy P. O'Sullivan; vice president, Martin Peeney; recording secretary, John Shugrue; financial secretary, Richard P. O'Brien; treasurer, Peter F. Brady; board of trustees, William A. Walsh, George Sullivan, John Riley, William R. Kiernan, John Clancy; sergeant-at-arms, James Winn; literary committee, John Stapleton, Stephen Shugrue, William Madden, James Clinton and Fred Lawton.

**BOOK PAPER MAKERS AGREE TO STOP ALLEGED PRICE-RAISING PLOT**

WASHINGTON, Nov. 9.—Book paper manufacturers yesterday made an agreement with the federal trade commission which alleged unfair trade practices will be stopped and no further action will be taken on the commission's complaint that the manufacturers conspired to enhance prices.

Manufacturers doing an annual business of \$80,000,000 are affected by the agreement.

The commission's order was one of the most sweeping ever issued by the body to protect the public against concerted price raising. Dissolution of the bureau of statistics maintained by the book paper manufacturers, and charged with having been the medium through which they acted, first was ordered, and then the complaint were directed to desist forever from continuing membership in the bureau, from reorganizing it or from becoming members of any similar organization.

The manufacturers also were ordered to cease engaging in any concerted movement to enhance the prices of book print paper, to maintain such enhanced prices, to bring about substantial uniformity of such prices or to effect or maintain such enhancement to uniformity through telephone communication, correspondence, personal meetings "or in any other manner whatsoever."

Charles F. Moore of New York, secretary of the bureau of statistics, individually was named in the order and ordered to desist from all the practices complained of.

**MARAVILLE TO ENLIST**  
BOSTON, Nov. 9.—Walter Maraville, shortstop of the Boston National league baseball team, visited the navy yard yesterday and announced that he would enlist in the service. He will take his examinations next week.

**U. OF PENN. TO MEET DARTMOUTH**  
PHILADELPHIA, Nov. 9.—The University of Pennsylvania football squad left here today for Boston where the team will meet Dartmouth on Saturday. Including coaches and managers there were 15 men in the party.

Because of the war protest, Smith requested a "silent send-off" for the squad so the usual noisy demonstration at the railroad station was dispensed with.

**U. S. HUNTING CLUB**  
The Bunting club of this city is making arrangements for a very busy social season during the winter months. A pool and billiard tournament between the members for the championship of the club is now being arranged by Mr. George Underwood, the chairman of the pool committee.

The first of the series of games to be played between the Buntings and the French American citizens club is scheduled to be held at the Bunting club next Thursday night, Nov. 15 and as is the usual custom, the Buntings will be present in large numbers to greet their French American friends and endeavor to retrieve their defeat of last year in which, billiards and other games.

Last Sunday, the Buntings were honored with a visit from the Rogers club of Lawrence, and the Rogers of Lowell saw to it that they were entertained during their brief stay.

The present management is making a determined effort to clear off the floating debt before May 1, and the prospects are bright that their efforts will be crowned with success. New members are coming along fast, as each member has been asked to bring in at least one new member before May 1 and every member is hustling selling tickets for the annual Christmas cheer to be held at the club house Christmas eve.

**POLO NOTES**  
The first local game in the new polo league, it is expected, will be played next week, and the management of the Holloway rink where the

WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of Danderine at any drug store for a few cents, pour a little in your hand and rub it into the scalp. After several applications all dandruff disappears and the hair stops coming out.

LOOK AT CHILD'S TONGUE IF SICK CROSS, FEVERISH

When Constipated or Bilious Give "California Syrup of Figs"

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul and sour bile gently moves out of its little bowels without griping and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a bottle of California Syrup of Figs, which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you got the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Turned a look over their shoulders and beheld a host of waitresses enjoying the laugh of their young lives.

Rockland's Sugar Siege

The memorable "battle of too much spinach" never had a thing on the "sugar siege" in Rockland of the past two weeks, according to the Independent. Monday a woman with a wild, distracted look in her eyes crashed into a man near the postoffice. "Death in the family," she cried, "I've got sugar on my mind." The man, rubbing the bump on his forehead, "No," he gasped, "I'm looking for sugar. The Bank Co. got some a minute ago and I must get some of it." "Come in a minute," called a woman from Estes' drug store to a passing acquaintance. "I can't possibly stop now," said the woman. "I've just got four pounds of sugar from two stores down the street and I've got five more sugar calls to make on the hill." Even the men, some of those who have drawn the line sharply on shopping errands, can be seen any day rushing from store to store with the hope that a stray pound or so may be diverted their way. Three hundred pounds of the precious stuff was shipped by a Boston wholesaler to his Rockland store, but through error the expressman delivered it to another local firm. The men who received it did not scrutinize the label very closely, and sold the entire lot before they discovered the mistake, which was rather tough on the other fellow. The store is revealing business methods. Some merchants hold all they receive for "special customers," while other firms give it out to one and all alike with no strings attached while it lasts, and a nominal sum at that. One firm, that Dame Rumor credited with having a surplus stock on hand when the tightness came, charged 10 cents per pound, unjustly taking advantage of the critical situation. Another firm, realizing no doubt that there is no profit in the necessity, but that there is an attempt to get any, telling regular customers complain and hustle elsewhere.

The Three Fishers

Three fishers went sailing away to the west.  
Away to the west as the sun went down.  
Each thought of his home, and of those he loved best.  
And the children stood watching them out of the town.  
For men must work, and women must weep.  
And there's little to earn and many to keep—  
Though the harbor bar be moaning.  
Three wives sat up in the lighthouse tower.  
And they trimmed the lamps as the sun went down.  
They looked at the squall and they looked at the shore.  
And the night-jack came rolling up, ragged and brown.  
But men must work, and women must weep.  
Tho' storms be sudden and waters deep—  
And the harbor bar be moaning.  
Three corpses lay out on the shining sands.  
In the morning gleam, as the tide went down.  
And the women are weeping and mourning their hands.  
For those who will never come back to the town.  
For men must work, and women must weep.  
And the sooner it's over the sooner to sleep.  
And good-bye to the bar and its moaning.  
—Charles Kingsley.

This Happened in France

A group of Hingham boys who went "over there" with Massachusetts' first contingent were characters in a little playlet we might caption "The Awakening," says the Hingham Journal. On landing at a port somewhere in France the boys went in search of a restaurant, for the wants of the inner man had been pleading for something different for two long weeks. A few minutes' wait and our heroes came to a restaurant that was very pretty without and more so within with pretty girls as waitresses.  
One of their "foreign" sisters was particularly a Gibson type of beauty, and as good fortune would have it she was assigned to wait on the welcome strangers. Several times she made trips to the boys' table and on every occasion she was subjected to good-natured criticism, such as "nothing like that in Hingham"; "I wonder if she's an only daughter"; and "Too bad she can't speak English, what a pleasant conversation we'd have." But like the text-bookist's owl in the poem, she spoke not. Presently the meal was finished and the boys paid the bill, plus a tip to the young lady, who at this point burst out into a "nothing like that in Hingham"; "Well, boys, you're certainly welcome. How are all the folks across the pond, especially New York, where I was born?"  
The scene shifts—four forms—made for the open air, and as they passed the store window they yep.

THE RUSSIAN OUTBREAK

The outbreak of revolution led by the radicals in Petrograd is an ill omen not only for the future of Russia, but in some degree for the effect upon the war situation. The avowed object of the movement is peace and hence Premier Kerensky and his cabinet, who were determined to keep on fighting, have been deposed or arrested. It is difficult as yet to say just how far this outbreak will be sustained in Russia, although the people who have already suffered much from the war want peace regardless of the consequences. They consider only their own safety and the means of obtaining it.

It is well known that German agents are working among the radical leaders, urging peace and undoubtedly promising many concessions such as passage of the Dardanelles, freedom in the Baltic and "German assistance" for commercial development. But even if Russia gets out of the war, the other allies must fight on. Their task will be much more difficult, but it must and will be met if it be necessary to redouble present efforts of the other allies, and even to draw upon the man power of China and India. Japan will now probably become a more active participant in the war, although she cannot operate on the eastern front if Russia ceases to fight.

THE STRIKES

If the Germans were in control of the labor forces of this country, the worst they could do to injure the government would be to declare strikes in the ship yards, the navy yards and munition factories. There is a suspicion that the German agents are still busy fomenting trouble. The situation is daily becoming more serious and the need of haste in turning out our new ships is greater than ever. The government will have to adopt some means of stopping labor strikes before they spread any further, if it means to go on with the war.

HELP THE RED TRIANGLE

The Red Triangle parade to be held on Saturday night is the opening of a great movement for the benefit of the soldiers, and all who are interested in the soldiers should turn out. The Y.M.C.A. draws no lines in its wide activities for the benefit of the men who are to fight our battles—the boys of Lowell included.

SEEN AND HEARD

It looks like restless nights for the sugar storers.

Some men are so vain they run for office just to get their pictures in the paper.

The man who has a diploma from the school of experience is pretty well equipped to fight life's battles.

A Nice Christmas Gift

"Want to buy a street car?" asks the Bay State Street Railway Co., and then goes on to say: "We have 200 old cars for sale. One of these cars will make a fine playhouse for the children. Old cars have also been used for henhouses and for other similar purposes. New cars that give ever so much better service have been substituted for the cars that are for sale."—Enterprise.

MISS RANKIN FOR SENATE

Miss Jeanette Rankin, elected to congress from the state of Montana, has concluded her first session, and having had considerable encouragement, she may run for the senate against Senator Walsh when he comes up for re-election.

As she was the first and only woman in the national legislature, she regards herself in a large way as the representative of all the women of America.

In states where women have the full franchise there are more than 8,000,000 women of voting age; there are millions more working and wishing for the vote, and many millions femininely curious—watching, all of them, to see what this single woman will do with a real vote.

Miss Rankin has just made a report for the benefit of these women, enfranchised and otherwise.

Conscious of her particular responsibilities, almost every bill introduced by Miss Rankin was designed for women's aid.

On her first day Miss Rankin introduced a bill proposing a constitutional woman suffrage amendment, never reported out of committee. Miss Rankin then concentrated on getting a woman's suffrage committee in the house and was largely instrumental in the success of this measure.

Only one of Miss Rankin's proffered resolutions was adopted—the amendment to the food survey bill which provided that wherever possible, women be employed in work authorized by the bill. Miss Rankin also introduced a bill, still before the committee on military affairs, providing for the support of soldiers' dependents.

The congresswoman cast her vote against the declaration of a state of war and against the draft until final passage, when she voted for it. Since conscription and war have been nationally accepted, she has consistently cast her vote in support of every war measure.

There is slight doubt that Miss Rankin will soon have other women associates in congress. She being the first will have priority, but otherwise no special distinction. The

times—they are slow, but not sure. "Pape's Diapepsin" is positive in neutralizing the acidity, so the misery won't come back very quickly.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes that it helps to regulate your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is positive in neutralizing the acidity, so the misery won't come back very quickly.

## REPORT KERENSKY ARRESTED

**Continued**

ministers of the provisional government who were arrested by the military revolution committee have been incarcerated in the fortress of St. Peter and St. Paul.

The confirmation was given by the commissioner in command of the fortress, who received The Associated Press correspondent and personally explained to him the details regarding the confinement of the ministers.

The cabinet members, he said, were all arrested at the winter palace after its surrender early this morning. They were taken to the fortress where they were placed in solitary confinement but were courteously treated. He gave the list of those taken into custody as follows:

M. Maslov, minister of agriculture; M. I. Terestchenko, minister of foreign affairs; M. Nikitin, minister of the interior; M. L. Veresky, minister of ways and communications; M. Bernatsky, minister of finance; M. Smirnov, state controller; M. Malynovitch, minister of justice; M. Gvordoff, minister of labor; A. I. Konovaloff, minister of trade and industries; Admiral Verdelvsky, minister of marine; M. Kishkin, minister of public welfare; M. Nankovsky, who succeeded Verkhovski as minister of war; S. Koriashoff, minister of religion and M. Tretyakoff, president of the council of the council of workmen and soldiers' delegates on Wednesday.

The second revolution has been accomplished. We shall offer a peace acceptable to the proletariat of all countries, publish all secret treaties, take over all land and establish the control of workmen over industry. The consequence will be the accomplishment of the third social revolution.

M. Maslov, a social revolutionist and former minister of agriculture, the correspondent adds, in his "last testament" says that he is convinced that he is about to die and he leaves his curse upon those who sent him into the government and did not support him.

**Guard at Smolny Institute**

LONDON, Nov. 9.—Inches in and about the Smolny institute, the headquarters of the workmen and soldiers' organization in Petrograd, and of the revolutionary committee, are described in a Reuters despatch dated Thursday, at the Russian capital as follows:

"The Smolny institute presents a scene of extraordinary animation. There is a perpetual coming and going of representatives from the provinces participating in the congress, delegates on the way to convey orders

## Women's Battalion Surrenders

The women's battalion, which was among the defenders of the winter palace, surrendered yesterday before the battle began.

A despatch received from Petrograd last night said the women's battalion and the other government forces holding the palace were compelled to capitulate under the fire of the cruiser Aurora and the cannon of the St. Peter and St. Paul fortress.

**Arrive Official Report**

WASHINGTON, Nov. 9.—Both the state department and the Russian embassy today still were without any official advices of any character whatever on affairs in Petrograd.

The state department's last despatch from Ambassador Francis was sent from the Russian capital last Tuesday. The embassy's last despatch was sent from the capital on Monday.

In the absence of official advices officials of the embassy and the department continued to withhold comment.

**To Make Peace Offer**

LONDON, Nov. 9.—Several transports from Kronstadt arrived in Petrograd on Wednesday, carrying sailors who previously had sided with the provisional government, says a despatch to the Daily News from Petrograd. The correspondent gives the following extract from Nikolai Lenin's address to the council of workmen and soldiers' delegates on Wednesday:

"The second revolution has been accomplished. We shall offer a peace acceptable to the proletariat of all countries, publish all secret treaties, take over all land and establish the control of workmen over industry. The consequence will be the accomplishment of the third social revolution."

M. Maslov, a social revolutionist and former minister of agriculture, the correspondent adds, in his "last testament" says that he is convinced that he is about to die and he leaves his curse upon those who sent him into the government and did not support him.

The cabinet ministers placed under arrest were A. I. Konovaloff, trade and industry; M. Kishkin, public welfare; M. T. Terestchenko, foreign affairs; M. Malynovitch, justice, and M. Nikitin, interior.

**Korniloff Imprisoned**

PETROGRAD, Nov. 9.—The military revolutionary committee has decided to bring Gen. Korniloff, leader of the recent revolt, and his supporters to Petrograd, and imprison them in the fortress of St. Peter and St. Paul. They will be brought to trial before a military revolutionary tribunal.

The soldiers, sailors and militia and the guard occupied the interior and surrounding the building while several armored motor cars bearing anti-aircraft guns were stationed in adjacent streets to insure the protection to the headquarters.

Nikolai Lenin, accompanied by his lieutenant, Zinovief, received arrival. They were scarcely recognizable, Lenin having shaved off his moustache and Zinovief having grown a beard.

**Kerensky Addressed Soldiers**

PETROGRAD, Nov. 9.—At a meeting of the congress of soldiers' and workmen's deputies last night, a member of the revolutionary military committee said that on Wednesday, Premier Kerensky at Gatchina, 35 versts, (23 miles) from Petrograd, addressed 4000 soldiers who were on their way from the front to Petrograd. After a conference, the soldiers decided not to proceed for the time to Petrograd. Leon Troitzky, president of the executive committee of the Petrograd council of soldiers' and workmen's delegates, explained that the arrest of certain members of the Kerensky government was not an act of vengeance or political repression. All the members of the late government, he said, would be tried for complicity in the Korniloff movement.

The political parties to which the socialist ministers belong have decided to turn over all the ministers, socialists as well as others, for trial. In the meanwhile they are being held under domiciliary arrest.

**U. S. Officials Watch Russia**

WASHINGTON, Nov. 9.—Interest in the latest Russian political upheaval was intense in the capital today.

Attention naturally was directed on the probable effect of the chaotic situation on the military fortunes of the allies. Whether a strong central government, capable of prosecuting a vigorous campaign against the German forces on the eastern front, can be evolved from the present turmoil, is a matter of eager speculation.

Belief in some quarters in the possibility that Kerensky may return to power is predicated upon the assumption that the strong Cossack element favors the maintenance of a conservative form of rule.

Even if the extremists carry out their decision to conclude a separate peace with Germany, dissenting forces in other parts of Russia, it was pointed out, will be able to place in the field a military force capable of keeping the German armies occupied. At any event the severe Russian winter, it is thought, will preclude any possibility of a great German offensive before spring.

**Army Joins Revolutionists**

LONDON, Nov. 9.—A telegram reaching Amsterdam from a German source and forwarded the Central News, says the Russian army on the northern front has joined the Maximilians and is marching on Petrograd.

**Report Kerensky Arrested**

AMSTERDAM, Nov. 9.—The Rheinische Westfälische Zeitung of Essen, Germany, publishes a Stockholm telegram saying that Premier Kerensky has been arrested.

**British Aerial Operations**

LONDON, Nov. 9.—The war office last night issued the following statement on aerial operations:

"During Wednesday morning low clouds and rain considerably hampered the war work. In the afternoon, however, weather conditions improved and some successful artillery and photographic work was carried out by our aeroplanes. Our low flying machines fired many rounds at hostile troops and transports and in the course of the day a number of bombs were dropped on enemy trenches and billets."

"During the night more than three tons of bombs were dropped on enemy airfields at Gontrode and St. Denis Westrem and on aerodromes in the valley of the river Lys. Railway communications also were bombed and satisfactory results were observed. Few hostile aeroplanes were encountered, but one was driven down out of control. An enemy observation balloon on the ground was destroyed by one of our low flying machines. One of our aeroplanes failed to return."

**German Vice Chancellor**

AMSTERDAM, Nov. 9.—Friedrich von Payer, a progressive leader, has been designated as German vice-chancellor, according to a semi-official telegram received here from Berlin. It adds that the appointment of Herr Friedberg, leader of the national liberals, as vice president of the Prussian state ministry is considered probable.

**British Raids Successful**

LONDON, Nov. 9.—An official statement issued today by the British war office regarding military operations in France and Belgium, says:

"We made a successful raid last night to the eastward of Hargicourt. There was nothing of special interest to report."

**Surprise Attacks By French**

PARIS, Nov. 9.—"We carried out with success last night surprise attacks in the Argonne and on the left bank of the Meuse, in the region of Aycoourt wood, and brought back prisoners," says today's official communication.

"The Germans made two attacks after violent bombardment, one on our positions at Chateau wood, the other in the region of Arracourt. These assaults were repulsed. The enemy suffered serious losses and left prisoners in our hands."

**British and French Troops for Italy**

ITALIAN MILITARY ZONE, Nov. 9.—Both British and French troops are going toward the front. The French and British representatives who have come to Italy had a conference of two hours today with King Victor Emmanuel. The military measures called for by the present situation were discussed in active and cordial collaboration. On leaving the king, the party visited French and British troops going toward the front.

**Turks Retreating**

LONDON, Nov. 9.—The entire Turkish army in Palestine is retreating towards the north. British aeroplanes are following up the retreating Turks and bombing them.

Forty Turkish guns were captured, says the British official statement announcing the Ottoman retreat.

British and French naval forces are co-operating against the Turkish communications along the Mediterranean coast.

**Bridges Blown Up**

ITALIAN ARMY HEADQUARTERS, Nov. 9.—A dozen bridges have been blown up on the Livenza river to arrest and delay as much as possible the advance of the Austro-German forces toward the Piave river. The Livenza is a smaller river than the Tagliamento and offers fewer difficulties to the invading army.

**Calls Move "Toy Revolt"**

MEMPHIS, Tenn., Nov. 9.—The seizure of the Russian government by the Maximilians was described as a "toy revolt" here today by A. J. Sack, director of the Russian Information bureau in New York, who declared that only a few fanatics and "their following of provocateurs and German spies" were in favor of separate peace. He expressed confidence that if the allies continue to trust and materially help Russia, her

armies will be recognized and take an actual part in military operations against Germany next spring.

**SUSPECTED RAIDER AN INNOCENT TRADER**

AN ATLANTIC PORT, Nov. 9.—Another "suspected German raider" has been overhauled and proven to be an innocent trader of British register. It became known today that following the report of a captain arriving from a foreign port recently that he had sighted what appeared to be a disguised German warship off this coast, a fighting ship of the

allies picked up the suspected craft. It was a well known vessel with her hold filled with flour.

**CANCEL CONCERT ENGAGEMENT OF FRIEDA HEMPEL AT YOUNGSTOWN, O.**

YOUNGSTOWN, O., Nov. 9.—The concert engagement in Youngstown of Frieda Hempel, noted soprano of the Metropolitan grand opera company of New York advertised for next April, has been cancelled because of the alleged pro-German sentiments of Miss Hempel. It was announced here today by the organization under the auspices

of which she was to appear. Miss Hempel also had been taken. It was announced, toward cancelling the engagement of Fritz Kreisler, violinist, and Austrian army officer for similar reasons.

**ASSOCIATION OF COLLEGES**

HARTFORD, Conn., Nov. 9.—Questions of deep interest to the academic world, growing out of war conditions, are to be considered at the sixtieth annual meeting of the Association of Colleges in New England, which opened today at Trinity, with representatives of some 15 universities and colleges in attendance.

### PROMINENT CLEVELAND DOCTOR MURDERED

CLEVELAND, O., Nov. 9.—Dr. Harry Lorenzo Chapin, physician, author and world-wide traveler, late yesterday afternoon was murdered by an unidentified assailant in a room at a downtown hotel.

His skull was fractured by a blow on the back of the head. Dr. Chapin died where he was felled within a half-hour of the attack.

Coroner Byrne declared that Dr. Chapin was murdered. "The fact that the skin was not cut suggests that he was struck from behind with a heavy weapon, probably a piece of pipe or a paperweight wrapped in a handkerchief," he said. "The force must have been used." Coroner Byrne asserted that Mrs. Chapin, who was the widow of a wealthy physician, was in the room at the time of the murder. She was known to the police as the victim's wife.

Shreds of paper found on the floor of the room gave the police clues believed to suggest a possible motive for the crime. Some of the scraps, pieced together, were found to relate to an express package shipped to Cleveland by a man in Chicago and which, the police believe, was to be delivered to Dr. Chapin on payment of \$150. Police investigation developed that Dr. Chapin within the week had withdrawn \$150 from a bank. On the pieced-together scraps of paper, police deciphered the name of a man for whom search was immediately instituted.

Dr. Chapin was 47 years old and had spent the greater part of his manhood in traveling in many countries. He had been blinded when, shortly after leaving college, he traveled to the ruins of Babylon in Mesopotamia and neglected to wear a turban or dark glasses. Later an operation partially restored the sight and he was able to find his way about without assistance. He had written books and was the author of photoplay scenarios.

When Dr. Chapin left his hotel yesterday he told his wife, she stated to the police, that he was going to another hotel to meet someone with whom he had an appointment.

Later in the afternoon an inspector at the hotel made her rounds. In the room in which the murder was committed she saw a man lying midway between two windows, with blood streaming from his head.

Efforts to obtain an ante-mortem statement from the dying man were futile.

The room in which the crime was committed was in perfect order, except that a few cigar and cigarette butts were scattered on the floor and the bed appeared to have been recently used.

DO YOUR CHRISTMAS MAILING TO SAMMY IN FRANCE EARLY

Those American boys "somewhere in France" will appreciate such things as baseballs, boxing gloves, playing cards, checkers, footballs, chess, dominoes, and other things which

SHALL IT BE A MERRY CHRISTMAS FOR HIM?

United States soldiers in France will not receive their parcel post Christmas gifts on Christmas day unless the parcels are mailed on or before Nov. 15.—United States Postoffice department.

#### HOW YOU MAY SEND SAMMY'S CHRISTMAS GIFT TO HIM IN FRANCE

There are two ways to get Christmas presents to the American troops in France. The postoffice department will take Christmas parcels up to 7 pounds in weight when they have been inspected by the postmaster and certified to contain no dangerous or other prohibited articles.

Such mail should be addressed with the name of the soldier, the regiment and company, or other unit, to which he belongs, and "American Expeditionary Forces," and be conspicuously marked "Christmas Parcel."

In addition to the postal service, the war department will take Christmas boxes up to 20 pounds in weight if they are packed in strong wooden boxes, not to exceed two cubic feet in volume, well strapped, and with a hinged or screw top so that they can be easily examined by the military authorities, and contain no inflammable, explosive or other prohibited matter. Such articles should be addressed as follows:

Name of soldier,  
Unit to which he belongs,  
Care of Commanding General,  
Port of Embarkation,  
Pier 1, Hoboken, N. J.

No perishable food products other than intended for men in the

### SHOPPING BAGS

You will find one of these Shopping Bags to be of inestimable value to you. It will spare your arms of aches and pains and at the same time make shopping, even to the extent of many parcels, a pleasure rather than a painful act. You will find these bags here in all sizes and at all prices.

## SARRE BROTHERS

"Where Your Umbrella Was Repaired."

520 MERRIMACK ST.

service abroad, whether sent through the mail service direct under the 7-pound limit or sent in care of the Commanding General, Port of Embarkation, for delivery by military authorities to the addressee, is 12 cents a pound.

If you want to send a gift to any Sammy, without designating him by name, address the parcel: Care American Red Cross, American Expeditionary Forces, France. Label it "Christmas Parcel," and, if you wish, "For American Soldier who Hasn't a Christmas Gift."

The regulations and directions given above do not apply to parcels mailed now or later to American soldiers in training camps or cantonments in the United States.

#### CANADIANS CAPTURE TWO GERMAN COMPANIES WITHOUT FIRING A SHOT

CANADIAN HEADQUARTERS IN FRANCE, Nov. 8, via London. (By Canadian Press, Ltd.)—Hindenburg's orders to his troops to retake Passchendaele at all costs has not yet resulted in any enemy infantry activity

before Passchendaele. Both yesterday and today have been exceptionally quiet, except for our artillery, which has been maintaining a harassing fire on all the routes of approaches to the centres of activity in the enemy area.

Two battalion commanders, with their staffs, were captured in the last engagement, a striking indication of the rapidity with which our troops maintained their attack.

Two companies of the enemy were taken without our firing a shot, on the morning of Nov. 6. Sheltered in covered shell holes, and having no facilities for mounting their machine guns, they were captured by our rapidly advancing men before they could get their guns ready for action.

#### EVANGELIST SMITH

"Life" was the subject taken by Evangelist Smith at St. Paul's church last night. During the course of his remarks he declared that Christ came to give the abundant life, the wider vision to kill sin and to sweeten and sanctify all human relations. Mr. Smith's subject tonight will be "Life, Liberty and Happiness."

# TROTSKY REGARDED AS AGENT OF GERMANY

NEW YORK, Nov. 9.—Leon Trotsky, well known in the East Side of New York, left this city for Petrograd last April, announcing his determination to overthrow Kerensky. His friends among socialists of extreme views had been expecting all along that Trotsky, working with Lenin, would accomplish Kerensky's downfall.

There are two views about Trotsky on the East Side. Some Jewish editors who know him well maintain that he is a patriot idealist working for what he considers the best interests of Russia. Others who knew him equally well insist that he is a German agent in German pay and as such under orders from Berlin as any other German emissary.

He is a big fellow, burly and broad-shouldered, full blooded and of excitable tendencies. Possessing a knack of ready speech, which he is always eager to employ, he represents opposition and has been known to fly into violent temper in the course of argument or debate. The extremists of the East Side regarded him as ultra-radical. A small black beard, a close cropped black mustache and black piercing eyes marked his facial appearance. His age is about 40.

Trotsky arrived here from Russia on Jan. 15, 1917, and almost immediately became editor of Novy Mir, a Russian revolutionist paper published on the East Side. In this connection he became well acquainted with Morris Hillquit and with socialists and German sympathizers. Outside of his editorial duties he was active in Russian revolution propaganda in this city and also, as the talk goes, on the East Side, in preaching any sort of peace that would be favorable to Germany.

Released from Siberia  
He has been a journalist for 20 years, starting work in Russia where he was born and where he established a newspaper in Petrograd 15 years ago. His paper was suppressed from time to

time, and Trotsky came to know the inside of many Russian prisons because of the violence of his attacks against the czar's government. He took a prominent part in the abortive revolution of 1905 and was sent to Siberia in punishment, but somehow he managed to find his way back to Petrograd about 1912 in time to make some trouble for the government. Once more he was arrested and sent to Siberia, but mysterious influences secured his release within a few months.

It may or may not be significant, but immediately after his second release from Siberia he went to Berlin, where he established a revolutionary newspaper which constantly praised German institutions. He was in Berlin when the war began, but left by order of the German government, so was reported—and made his way into Switzerland and the coast carrying Zurich a few weeks he went to Paris where he started a paper which ardently advocated an early peace.

The French government did not interfere with Trotsky until Russian soldiers arrived in France, and not then until after the Russian ambassador to France had requested Trotsky's expulsion. Will ever know and two sons he moved to Madrid, where the Spanish authorities immediately conceived a strong dislike for him and threw him into prison. Last December they put him aboard the steamer Monte-Serrat at Cadiz and the Montserrat brought him to this city.

Not a Revolutionist  
He immediately gave out here that he was not a revolutionist, although his papers in Europe had been devoted to little else than advocating risings against Russia's imperial government. He stated that he was a disciple of Karl Marx and that his mission in life was to bring men into concord. Subsequently he told his friends that his place was in Russia to help overthrow Kerensky. When he reached Petrograd late in May he plunged into the thick of Bolshevik plotting, becoming a leading member of the council of workmen and soldiers' delegates, and late in the summer he became an ardent Bolshevik. He won over many members and soon had at his back a majority composed of extreme radicals, proponents of the maximum program of internationalism—brought the name.

While in this city Trotsky and his family lived in Vyse avenue, The Bronx.

## UNDERTONE CONTINUED UNCERTAIN IN MARKET

NEW YORK, Nov. 9.—The stock market after yesterday's severe reversal due to the new Russian developments appeared to be receiving substantial support at the opening today although the undertone of the general list continued uncertain.

Steamship shares were the strongest features, Marine pfd. soon rising 3 points. War stocks and equipments, as represented by U. S. Steel, Bethlehem Steel, Baldwin Locomotive and Central Leather, were 1 to 2 points higher, and copper also developed firmness.

Rails strengthened. Pacific and Reading leading that group at average advances of a point. Almost all the foreign bond issues including Anglo-French 5s at 99 3/8 and Paris 6s at 98 were at lowest quotations since the time of the listing on the New York stock exchange.

Russian government bonds which are dealt in on the curb reflected the lower exchange rates. The 6 1/2-2s. sold at 94 and 5 1/2-2s. at 95.

"KEEP YOUR POWDER DRY, GIRLS!" In giving these women the motto "Keep your powder dry" the "lady instructor" doesn't mean the kind of powder you think she means. She is telling one of the groups of women riflemen formed in many Italian cities to wait until they see the whites of the Austrians' eyes.

## GIRL KISSES 25 MEN INTO U. S. NAVY

NEW YORK, Nov. 9.—When pretty Miss Marie Antoinette Elliott of 304 West 70th street told Frank Martin in her arms at the noonday recruiting meeting at 217 Broadway yesterday the Kaiser accumulated in a moment 25 of the most enthusiastic and willing enemies that ever marched off to battle.

For the young woman, glowing with the impulsive enthusiasm of the occasion, literally kissed the 25 men into the United States navy.

Miss Elliott had just made a patriotic speech calling upon her hearers to join the navy. Before her stood a group of interested but not militant young men.

"Come along," she said, "I'll engage to keep the first man who enlists in tobacco, clothing and books."

She paused for a moment and looked over the field, her fair face radiant and her bright eyes snapping merrily.

"I'll be sister to him for the duration of the war, and after," she added. Frank Martin, standing near the rail, couldn't stand the pressure. He vaulted over the rail, onto the platform and seized the girl's hand. She moved forward to meet him. Whether it was Martin's enthusiasm or a strategic decision, nobody knows, but he leaned forward to be kissed.

Miss Elliott hesitated for a second, shot a sly glance at Martin and one of inquiry at Taylor Wetmore, who was presiding. Wetmore, being a man who can see an opportunity and act without consulting a mass meeting, nodded.

Whereupon the enraptured Martin was grasped in the young woman's arms in less time than it takes to tell it, and duly and literally kissed into the navy.

Twenty-four other men vaulted the rail and kissed the enthusiastic and laughing girl. With every kiss came a recruit, and when a reporter who got pulled into the jam by accident was given a kiss, he gravely turned and offered to return the stolen goods in full repatriation.

"Never mind," said the girl. A score of enlisted sailors who had come to help the meeting along pleaded to be allowed to take on their second hitch there and then.

"We are only in for the duration of the war," they said. "Why not let us join for something more?"

The motion picture men made hay while the sun of enlistment—and kissing—shone.

"I will give a kiss for a recruit any day," said Miss Elliott, "but mind you, just one."

There were other speakers and other events at the session, but nobody remembered them. It was announced that Elizabeth Murray would come down today and sing in the big drive for 60,000 additional sailors. Leah Baird, a motion picture actress, is also to help.

Housewives of this city now look forward to Biddy By's tips on cooking and culinary art which appear each week in the Sunday Supplement of The Sun, published each Saturday.

NEW YORK, Nov. 9.—Theodore P. Shonts, president of the Interborough Rapid Transit company, issued a bulletin yesterday saying that the subway now carries more than 1,350,000 passengers every twenty-four hours. Out of this total, he says, 900,000 ride between the hours of 6 and 9 o'clock in the morning and between 4 and 7 o'clock in the afternoon.

Among other interesting statements concerning the traffic Mr. Shonts says:

"The subway carries 15,000 people to the Times Square station for the matinees. The night theatre crowds delivered there number about 18,000."

"One-third of New York's subway theatre crowd comes from those sections of the city served by the Lenox avenue and Bronx line, one-fourth is carried by the Broadway trains, one-fifth comes from Brooklyn and one-eighth from stations between Ninety-sixth street and Brooklyn bridge. The other few vary between the different stations."

"One-third of the people who go to the theatre on the subway remain in the theatrical district until 1 o'clock in the morning."

"The Bronx traffic is just now increasing more rapidly than traffic in any other section. Residents of other sections of New York have little realization of the size of The Bronx. Only a few of the big cities of the United States are larger than this borough alone, a great part of the population of which depends upon the subway. The Bronx has a population of 779,000—more than Cleveland or Baltimore or Pittsburgh or Detroit or San Francisco. In fact, if listed as a city in itself it would be the sixth city in the country."

"The Bronx has developed several very important traffic points that the average New Yorker may never even have heard of. Take, for instance, Freeman street, the third stop south of 160th street. At 7 in the morning it affords a striking illustration of where New York's millions come from."

"Train after train, to cars from, pulls into Freeman st. station between 6.45 and 7.15 in the morning and leaves loaded to capacity. So great is the population of that section of the Bronx, and so rapidly do the station trains leave the station, the crowd seems just as large as ever."

"People living in The Bronx go to work on the average an hour before the people in the upper West Side and Washington Heights."

"On an important Jewish holiday, such as Yom Kippur, the subway traffic falls off 200,000 passengers."

## BOSTON MAN PRISONER IN GERMANY

BOSTON, Nov. 9.—Corporal Harold L. Willis of Boston, a member of the Lafayette escadrille, recently reported killed in an air battle over the German lines, is alive and a prisoner in Germany, according to advices received by relatives today. A post card sent by the young flyer to a friend in Paris stated that he was well, but greatly disheartened over being captured by the enemy.

Willis, a Harvard graduate, went to France with an American ambulance corps, but later joined the flying squad. He had been mentioned frequently in war despatches for valiant service.

## ARTILLERYMEN WHO ARRESTED NEGROES AT HOUSTON RIOT TO TESTIFY

SAN ANTONIO, Tex., Nov. 9.—A detachment of coast artillery soldiers ordered to Houston the night of the negro riot, Aug. 23, to preserve order and who made arrests of members of the 24th United States Infantry, were given an opportunity today to view the negroes now on trial before court martial here. The artillerymen, who will testify later, scrutinized the negroes closely.

## CHICAGO COURT ROOM CROWDED WITH APPLICANTS FOR CITIZENSHIP

CHICAGO, Nov. 9.—Americanism permeated the court room of Circuit Judge Oscar E. Heard who came here yesterday from Freeport to aid the Cook county bench in clearing away a docket crowded with applications for citizenship. The judge did not find the multiplicity of foreign names to his liking, so before admitting some twenty scores of applicants to citizenship he re-christened some of them and curtailed the names of others.

The changes were accepted with good grace in most instances but at least two of the applicants protested and announced they would lay the matter before the federal authorities.

## RUSSIANS BUYING ROUBLES AEW LEVEL CAUSED BY REVOLUTION

BRIDGEPORT, Conn., Nov. 9.—Russians here are today buying rubles at the new level caused by the latest revolution. Soon after the first revolution local Russians bought all the rubles available, paying from 22 to 24 cents the face value being 51 cents. Large purchases are reported to have been made here total at from 12 to 12 1/2 cents.

## SEK MAN WHO POSED AS A PRIEST IN CONNECTION WITH SINN FEIN ACTIVITIES

NEW YORK, Nov. 9.—A man who is said to have posed as a priest when that role would best serve his ends, is being sought by federal authorities as a result of information contained in three letters found among the effects of Thomas Welsh, a British subject arrested here Sunday and believed to have been a messenger from leaders of the Sinn Fein movement in Ireland to their agents in the United States.

Federal officials today announced the letters indicate nation-wide ramifications of Sinn Fein activities in this country.

## BOY OF SEVEN MURDERED

LEBANON, Pa., Nov. 9.—The body of a seven-year-old boy was found yesterday by his grandmother, Mrs. Mary Nagle, hidden beneath a mattress in the garden of a farm at Lawn, near here. He had been shot through the heart. Charles Nagle, the sixteen-year-old uncle of young Boyer, is missing. Uncle and nephew were left in charge of the house Wednesday. Other members of the family left with a load of household goods for a home into which they were about to move. It is believed the shooting was accidental and that, frightened at the tragedy, the older boy decided on flight.

## FIGHT FIRE UNDER NAVY SUPPLY PIER

NEW YORK, Nov. 9.—Firemen in rowboats and the Fireboat Abraham S. Hewitt fought a persistent fire last night under the asphalt flooring of the Recreation Pier at 24th street and the East river, now used by the navy and sheltering nearly \$1,000,000 worth of supplies. Damage was confined to the underpinning of the pier and only smoke penetrated to the space where supplies are piled high and to the sleeping quarters of the twenty-five marines who live there on guard.

The fire was discovered at 10.15 o'clock, when flames were blazing brightly under the 800-foot Pier. Passing craft had seen light under the pier much earlier in the evening, but believing it to come from a boat on tour of inspection, paid no attention to it. Firemen said the fire had been going since 8.30 P. M.

The first work of the firemen was to arouse the sergeant and guard of 24 marines whose quarters they found filled with stifling smoke. Then they had to tear a hole 25 or 30 feet square in the asphalt floor of the pier to reach the flames. The fireboat was summoned and men from Hook and Ladder No. 7 went under the pier in small boats. Meanwhile marines fixed bayonets patrolled the pier to keep careful watch over the supplies.

The Recreation pier has been boarded in since the beginning of the war and used as a naval supply station. Goods were stored there in bulk last night and a big navy tug was anchored in the river just off the pier. In spite of the usual suspicion of possible German plotters it was said officially that nothing had been discovered to show the fire had been set. It is supposed to have been set by a spark from a boiler instead of heating purposes several weeks ago.

## LAWRENCE TEAM WANTS TO PLAY INDIANS

Lawrence, Mass.  
Dear Sir—Please print this in your paper. The Tigers of Lawrence challenge the Lowell Indians. Game to be played Nov. 17. If the Indians are without a game for tomorrow (Nov. 10) it can be arranged by calling 4189-M at 7 o'clock tonight. James Pollard, 53 Howard street, Lawrence.

## FIVE PERFECTING AMENDMENTS TO PROPOSED I. AND R. AMENDMENT ADOPTED

BOSTON, Nov. 9.—Five of the forty perfecting amendments to the proposed Initiative and referendum amendment, the principal issue before the body, were adopted today by the constitutional convention, the test vote being 147 to 137. The convention will continue voting next Tuesday.

## Chalifoux's CORNER

ALL THE LADDIES GREW OVER NIGHT TO A NEW MANLINESS  
Everyone has noticed the new man that has sprung up in the khaki uniform. He is no longer the carefree boy. There's a new light in his eyes as he gathers around Old Glory. He stands up taller and with newly manifest dignity as a servant of the United States government. Without words he modestly but firmly says in his steady step and bearing, "My mother and my father and everyone that knows my name shall be proud of me in the performance of my duty."  
Who dares to say now that a boy does not know what he ought to do until he is 25 years old?

The transfer of the operations of these two plants to Lowell, it is believed, would mean the hiring by the United States Cartridge company, providing the company succeeds in bringing out the best ammunition in the world. It doesn't make all kinds and sizes, but what it does make is pronounced the very best. And the demand for ammunition is so great that the Cartridge company will probably have more business than it can attend to, even though it should succeed in developing its plans for expansion. It is anticipated that the munitions orders of the United States on which the shop is now operating, will keep the plant going at full speed at its present capacity.

## EX-QUEEN OF HAWAII REPORTED DYING

HONOLULU, Nov. 8 (Delayed).—Ex-Queen Liliuokalani of Hawaii was reported dying today. Physicians said she could not live many hours.

## HIGH COST OF LIVING BARS OSTRICH

The park department has decided to curtail expenses to the extent of refusing the gift of two ostriches from the Franklin park zoo in Boston. Nothing definite has been stated as to why the zoo authorities developed so generous a streak, but it is hinted that the high cost of living and the inability of the city to pay for the ostriches are responsible for the heart-opening process on the part of the zoo managers.

## GERMAN FUGITIVES ARE CAPTURED IN TEXAS

JAREDO, Tex., Nov. 9.—Lieuts. Hans Berg and Loeschner, who were of the 10 Germans who escaped from the internment camp at Fort McPherson, Ga., on Oct. 23, were captured on the Rio Grande yesterday as they were trying to get across the river into Mexico.

## BRADFORD MAN WOUNDED

# Report Kerensky Arrested Maximalists to Negotiate for "Democratic Peace"

## Report Russian Army on Northern Front Has Joined Maximalists and is Marching on Petrograd—Kerensky Cabinet Members Imprisoned—Entire Turkish Army in Palestine Retreating—British and French Troops Nearing Italian Front

Reports from German sources today furnished virtually the only fresh news regarding the situation in Russia, where the maximalists are in control of Petrograd and are appealing to the army to support it "against imperialistic attempts," until it has obtained "a democratic peace."

One of these reports, which was entirely without confirmation, was that Premier Kerensky, who left the capital before the extremists gained the ascendancy, had been arrested.

The other report, also of German origin and similarly unconfirmed, declared the Russian army on the northern front had joined in the maximalist movement and was marching on Petrograd.

Cabinet Members Imprisoned  
The great majority of the members of the Kerensky cabinet were made prisoner by the maximalists when the winter palace, in which they had taken refuge, was bombarded by cruisers and its defenders compelled to surrender. They are in the fortress of St. Peter and St. Paul and will be tried for complicity in the Korniloff revolt.

Leahue Leads Maximalists  
News despatches received from Petrograd are subject to the censorship of the Maximalists and probably portray only one side of the situation.

Italy Resists Advance  
In northern Italy the Austro-Germans have forced a crossing of the Livorno river and the Italians are retreating toward the Piave, the last strong natural line before Venice. Gen. Cadorna's troops are making a spirited resistance to the forward movement of the invaders, especially on the upper Tagliamento and the upper Piave.

250,000 Italians Captured  
The larger units of the Italian army are retreating without molestation from the Austro-Germans, but strong rear guards are giving the Teutons battle at several points. An Italian attempt to hold out on the middle Tagliamento resulted in the force being cut off and 17,000 Italians, including a general, being taken by the Austro-Germans in their capture, according to Berlin, to 250,000.

Cadorna to Make Stand  
Along the Livorno Gen. Cadorna's soldiers apparently were more successful. The invaders crossed the Livorno only after a vigorous attack and in the

region of Vittorio the Italians were able to detain the advance. The Livorno is only 10 miles from the Piave, where Gen. Cadorna probably will make a strong stand.

Cossacks Desert Kerensky  
PETROGRAD, Nov. 9.—All the Bolsheviks arrested at the time of the July uprising have been freed. The Cossacks, on whom the provisional government relied, failed to support it. The reason is said to be that the government could find no infantry to aid these cavalry forces.

Successes for Revolutionists  
PETROGRAD, Nov. 9.—A despatch from Helsinki, Finland, says that delegates from the Baltic fleet and army committees have resolved to adhere to the revolutionary committee. The revolutionary committee at Riga has occupied all the important strategic points.

Italians Hold Back Invaders  
ROME, Nov. 9.—The Italians are still holding back the Austrians and Germans by rear guard actions, while the main body of the troops is establishing itself on the positions chosen for the resistance, says today's official statement.

Former Ministers Imprisoned  
PETROGRAD, Nov. 9.—Confirmation was obtained tonight that the former

region of Vittorio the Italians were able to detain the advance. The Livorno is only 10 miles from the Piave, where Gen. Cadorna probably will make a strong stand.

LONDON, Nov. 9.—That the Russian coup d'état was engineered and subsidized by Germany for the purpose of eliminating Russia from her enemies is the virtually unanimous opinion expressed in newspaper editorial comment. A despatch view of the outlook is taken by some commentators, while others claim that the triumph of the maximalists probably is a passing phase and refuse to believe that they represent Russia or that Russia will agree to a separate peace.

WITH THE ARMY AND NAVY  
The Times partly blames the Kerensky government for tolerating anarchy and says: "The Premier Kerensky never showed himself really able to rule the storm and came—to say the least—with diminished credit out of the Korniloff episode. That the real Russia will ever consent to a separate peace of acquiescence in all the extravagance of the soviet manifestos is impossible to believe."

The Morning Post under the caption: "Revolution Made in Germany," says: "Whether the revolution will succeed remains to be seen. There is still a core of good faith and loyalty in Russia. It remains only for the allied nations to reach by some means the heart of the Russian people themselves. This is a task in which the United States and Japan might exercise their new found power of friendly co-operation."

The situation needs strength, energy and wisdom. Do these elements exist anywhere in the diplomacy of the allies? We had up to this time looked vainly for them but we seem to see them in the United States which is acting with vigor and intelligence from which great things for the future are to be hoped."

The Daily Mail says: "Social revolutions move in a fixed orbit and one of the stages through which they pass is that of chaos during which the Robespierres and the Lénines hold power. The Robespierres were not France and the Lénines have no right to pose as representatives of Russia."

Everything is in readiness for the opening of the Red Triangle campaign in Lowell this evening when the workers and leaders of the various teams will meet at the banquet board in Memorial hall and hear the plan of the campaign outlined to them.

Activities will begin at 6:45 and every worker is invited to be present at that time. If for any reason, a worker cannot get to the hall in time for the banquet it will be possible for

## PROMINENT CLEVELAND DOCTOR MURDERED

CLEVELAND, O., Nov. 9.—Dr. Harry Lorenzo Chapin, physician, author and world-wide traveler, late yesterday afternoon was murdered in a room at a downtown hotel.

His skull was fractured by a blow on the back of the head. Dr. Chapin died where he was killed within a half-hour of the attack.

Coroner Byrne declared that Dr. Chapin was murdered. The fact that the victim was a world-wide traveler, late yesterday afternoon was murdered in a room at a downtown hotel.

Shreds of paper found on the floor of the room gave the police clues believed to suggest a possible motive for the crime. Some of the scraps, placed together, were found to relate to an express package shipped to Cleveland by a man in Chicago and which the police believe, was to be delivered to Dr. Chapin on payment of \$180.

Police investigation developed that Dr. Chapin within the week had withdrawn \$180 from a bank. On the piece-together scraps of paper, police deciphered the name of a man for whom search was immediately instituted.

Dr. Chapin was 47 years old and had spent the greater part of his manhood in traveling in many countries. He had been blinded when, shortly after leaving college, he traveled to the ruins of Babylon, also to the ruins of the pyramids in Egypt and to the ruins of the Sphinx.

When Dr. Chapin left his hotel yesterday he told his wife, she stated to

WASHINGTON, Nov. 9.—Not even Liberty loan speakers or soldiers or government propaganda are exempt from the war tax on admissions. The internal revenue commissioner has ruled that they must pay the tax imposed on persons admitted free.

WASHINGTON, Nov. 9.—Prospects of unemployment in various sections of the country this winter are being studied by the council of national defense with a view to distribution of workmen and contracts so as to cause a minimum of distress. It was said there was likely to be unemployment in districts manufacturing non-essentials which make great demand on the country's transportation system.

AGITATION FOR COINAGE OF TWO AND ONE-HALF CENT PIECE RENEWED  
WASHINGTON, Nov. 9.—Agitation for coinage of a 2½ cent piece has been renewed by the recent rapid upward movement of prices caused partly by new war taxes and a bill probably will be pressed at the next session of congress to authorize the mintage of such a coin.

INJURED IN ELEVATOR  
Charles Mocha, residing at 39 Summer street and employed at Valski's mill, received injuries to his head and back when he was caught in an elevator at the mill. The ambulance was summoned and the injured man was removed to the Lowell hospital.

A particularly interesting Woman's Page is given away free with Saturday's Sun.

# Gen. Cadorna Removed From Command of Italian Army

## Conference of British, French and Italian Representatives Results in Creation of Permanent Inter-Allied Military Committee

ITALIAN ARMY HEADQUARTERS, Nov. 8.—(By The Associated Press)---The conference of British, French and Italian representatives has resulted in the creation of a permanent inter-allied military committee. New leadership for the Italian army has been provided. Gen. Cadorna, who has been in supreme command of the Italian army since the beginning of the war has been given a place on the new committee.

## "WETS" NOW HAVE LEAD OF 2534 IN OHIO

CINCINNATI, O., Nov. 9.—With 69 counties having reported officially and unofficial but apparently reliable and complete figures from 19 others the anti-prohibition forces still maintain a lead in the election by a majority of 2534. When it is remembered that

more than one million votes have been tallied, it is evident that any variations from the unofficial returns may affect the final result.

WIDOW A SUICIDE  
NEW YORK, Nov. 9.—The investigation begun yesterday by District Attorney Swann into the death of Mrs. Sarah M. Stansky, a wealthy widow, on the theory that she might have been murdered, was abandoned today after an autopsy which the district attorney announced, convinced him she committed suicide.

NEW YORK, Nov. 9.—John D. Crimmins, widely known contractor and constructor of many important public works in this city, died here today. He was identified with many really and financial enterprises and was an officer in several Roman Catholic charitable organizations. In 1901 he was made knight commander of the Order of St. Gregory the Great, by Pope Leo XIII.

STRIKE CLOSES PLANT  
BUMFORD, Me., Nov. 9.—Enforced idleness of 200 male employees was caused today by the strike last night of about 250 girls in the mill of the Continental Paper Bag Co., for a wage increase of \$1 a week. The present wage with bonus is \$10.35.

Money deposited in the SAVINGS DEPARTMENT begins to draw interest the first day of each month.

## THINKS WEALTHY WIDOW WAS MURDERED

NEW YORK, Nov. 9.—District Attorney Swann last night began an investigation into the death of Mrs. Sarah Stassny, a wealthy widow, in her apartments in New York, Wednesday morning, which previously had been reported to him as a case of suicide.

Mr. Swann announced the inquiry was started after a coroner had forwarded to him a letter purporting to be from a niece of the dead woman, in which suspicious circumstances were suggested.

Dr. Otto H. Schultze, medicus assistant to the district attorney, said after an investigation that he believed Mrs. Stassny had been murdered.

Isidore Herschfield, an executor of Mrs. Stassny's will and whose wife was a cousin of the dead woman, told District Attorney Swann the letter had been "written in a spirit of spite because the niece who wrote it had been disinherited."

Investigation is said to have revealed the two bullet wounds were found in Mrs. Stassny's body, one in the temple and another below the heart, but that only one exploded cartridge was found in the revolver beside the body. The body was found by Richard Epstein, a cousin of the dead woman, who lived in the apartment, and also is an executor of her will.

Letters found in Mrs. Stassny's room indicated that she had contemplated suicide.

Both Epstein and a negro maid declared they had not heard shots.

## GROWING IMPATIENCE AMONG GERMANS

COPENHAGEN, Nov. 9.—Capt. Persius, naval expert of the Berliner Tagblatt, notes a growing impatience among Germans with the results of the submarine campaign registered in a swelling flood of letters demanding an answer to the question: "When shall we have England beaten?" He throws cold water on the optimists and warns them against accepting as readable figures on destroyed tonnage killed—figures that are not "can we continue the war?" but "will it pay?"

## RAILWAY MAIL CLERKS TO JOIN A. F. OF L.

PORTSMOUTH, N. H., Nov. 9.—The Railway Mail Clerks' association, an organization covering the entire country, has voted to affiliate with the American Federation of Labor.

E. J. Ryan of Boston, the national president, announced at headquarters here last night the result of the referendum ballot taken in accordance with the action of the convention of the association held in Cleveland last June.

The vote was 6827 in favor of joining the federation to 2072 against. In New England the vote was 662 to 121 in favor of the plan.

## JEWELRY WORKERS TO VOTE ON STRIKE

NORTH ATTLEBORO, Nov. 9.—The Jewelry Workers' union with a membership of 1400 will meet tonight to vote on the question of a general strike in all the jewelry factories in this town. Sixty employees of V. H. Blackinton & Co. went on strike yesterday because of the alleged discharge of three union men last week.

BRUNSWICK, Me., Nov. 9.—Two business buildings owned by Ferdinand J. Lemieux on Maine street were practically destroyed by fire discovered about 3.40 o'clock yesterday morning in the rear of the building occupied by Leondro A. Surace as a poolroom.

In the opinion of the firemen, the firemen started from a cigar or match. The next building south, also owned by Mr. Lemieux, was in part occupied by the owner, who had a store in the north half, and Emilie T. Saintonge, who sold machinery in the south half. The tenements in the second story were

## HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets. Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, a pimple-free face, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

occupied by T. Louis Tremblay and Alexander Deschaine.

Mr. Deschaine was awakened by smoke and discovered the next building in flames. Two alarms were sounded, bringing all the apparatus in town to the fire. The blaze quickly spread to the southern building and was with great difficulty prevented from spreading to Day Block next south.

In escaping from his tenement Mr. Tremblay struck his head against some object which inflicted an ugly cut. One of the children of Mr. Deschaine was injured about the head when she fell down stairs. Two firemen, George Mansfield and Josiah N. Collins, were slightly injured by a falling ceiling. Mr. Lemieux carried \$2000 insurance, but none of the others was insured.

## U. S. AGENTS SETTLE TWO LABOR CONTROVERSIES AT WEBSTER, MASS.

WASHINGTON, Nov. 9.—The department of labor yesterday announced the settlement of two labor controversies involving employees of the S. Slater & Son cotton and woolen mills at Webster, Mass., and West Virginia engineers.

Secretary Wilson telegraphed that the special labor commission of which he is chairman will investigate grievances of the Pacific coast telephone employees on its arrival at San Francisco within a day or two. The workers recently returned with the understanding that the government would undertake a settlement.

## ELKS TO BUILD WAR BELGIAN CONVICTED AS HOSPITAL IN BOSTON SPY IN LONDON

WASHINGTON, Nov. 9.—America's first reconstruction hospital where men wounded overseas will be fitted for occupational pursuits commensurate with their injuries will be built by the Benevolent and Protective Order of Elks at Boston.

The Elks' war relief commission, after a meeting here yesterday, announced that the government has agreed to accept the hospital.

The institution will cost \$250,000 and will be erected on Parker hill, contiguous to the Robert B. Brigham hospital. It will consist of a complete unit of twin-ward hospital buildings, vocational workshops, barracks, mess hall and post exchange, and is to be a standard for similar hospitals to be built in various parts of the country.

Funds for erecting the institution will be available out of the \$1,000,000 relief fund contributed by the 500,000 Elks of the country.

## MORE LETTERS CONCERNING ACTIVITIES OF SINN FEINERS TAKEN FROM WELSH

NEW YORK, Nov. 9.—Three more letters concerning the activities of Sinn Feiners in Ireland have been found in the effects of Thomas Welsh, arrested here Monday after his arrival on a British steamship. It was announced last night by William J. Flynn, chief of the United States secret service.

While the contents of the letters were not made public, it was said they contained names of persons in the United States and Europe, which may prove of value in breaking up conspiracies against the government of England. Welsh is still held in the Tombs in \$2600.

Largest Sale of Any Medicine in the World. Sold everywhere. In boxes, 10c., 25c.

## THREE STORY LEAP TO ESCAPE FLAMES

WESTFIELD, Nov. 9.—Walter Bargeron, an engineer employed in No. 2 Strathmore paper mill at Woronoco, suffered fractured ribs, a strained back and a lacerated right fore arm in a jump from the third story attic to the ground, to escape a fire which gutted his home in Woronoco last night.

The fire was discovered by a pedestrian, who saw it burning under the eaves, on the opposite side of the house from the Bargeron apartment.

Awakening his wife and four small children, Bargeron led them to safety and then re-entered the house to save some personal effects. While in the attic, his escape was cut off by the collapse of the stairs and he was forced to jump from the attic window, landing on the ground in an upright position. He was taken to Noble hospital, Westfield, where he was treated by Dr. H. Hildreth before returning to his home town.

The Woronoco fire department was assisted in hauling the blaze by apparatus sent from Westfield. The nearest hydrant was a half-mile from the house, and while the fire was at its height, the water connections were broken to allow a trolley to pass.

## NEW YORK WOMEN GO TO THANK WILSON

WASHINGTON, Nov. 9.—A delegation of suffragists, headed by Mrs. Carrie Chapman Catt and Dr. Anna Howard Shaw, president and honorary president respectively of the National American Woman Suffrage association, have an engagement to call at the White House late today to express to President Wilson the gratitude of the New York women and of the association who feel that the victory in New York was largely due to his help in their campaign.

## FORD TO BUILD NO MORE PLEASURE AUTOS UNTIL THE WAR IS OVER

WASHINGTON, D. C., Nov. 9.—Henry Ford will build no more pleasure automobiles until the war is over. He will devote his entire plant to the production of war necessities, such as

tractors, ambulances, air craft engines and shells. Through his personal representative, C. H. Wills, he recently offered to discontinue absolutely the production of pleasure cars, and under the head of "pleasure cars" fall the ordinary runabouts, touring cars and small commercial trucks which his plant has turned out by the million.

## Free From Tortures of Rheumatism After Suffering Seven Years

Does Own Housework After Being Helpless in Wheel Chair Sixteen Months—Joints Were Deformed

The story of what appears to be a remarkable recovery from chronic rheumatism of the joints after being in pain from the disease for seven years was recently given out in a chair by Mrs. J. M. McMaisters of 312 Humphrey St., Lowell, Mass. When

taking Var-ne-sis I could use my wheel chair, then my crutches and finally my canes. The pain and stiffness became less noticeable. The chalky bunches of the fingers and the knees disappeared, my hands straightened so that now I can walk downstairs step after step, sew a little and

asked for a statement, she said: "For seven years I have not known a day that I did not have pain. All my joints were ached, when I moved my head I could hear and feel grating like there was gravel or sand in my neck. My knees would snap and grate like my neck, they were drawn up so I was unable to straighten them. If I wanted to sit down I would have to literally fall in a chair. Trunk straps were fastened around my body to get me upstairs; on the top step I was laid on a rug and dragged to the bed.

"The fingers of the right hand were drawn into the palm and the hand drawn to the body. I could not get my hand to my head, as joints were stiff, and I had to be fed and dressed like a child. Different physicians treated me for a time. The last doctor said I would never get rid of the disease, as it was the worst form of rheumatism. Arthritis deformans. I was in bed for sixteen months.

## EX-GOV. FOSS HARD HIT BY SLUMP IN STOCKS

BOSTON, Nov. 9.—Caught with heavy stock holdings in a rapidly falling market, ex-Gov. Eugene S. Foss has been forced to place his affairs in the hands of a committee of Boston bankers in order to protect his manufacturing interests.

An enormous shrinkage in the market value of high grade securities, extending over several months and continuing this week, precipitated the crisis in Mr. Foss' affairs. Stocks, of which he had been a large holder, have suffered a steady decline, probably aggregating a loss of several million dollars in his assets.

Investments which he made long ago have been threatened with ruin, owing to the fact that many of his assets are in real estate holdings which are not ready convertible.

Two of the stocks in which he had heavy holdings, Boston Elevated and Massachusetts Electric, struck the lowest quotation in history before the close of the market yesterday.

To Sell Some Stocks  
To have poured these securities into a falling market would have depressed values still further. Yet some of these investments must be liquidated in order to protect his ownership in the Sturtevant Blower company and other manufacturing concerns which are in good shape and operating with steady profit.

This liquidation will be carried out by the committee in an orderly manner, and it is possible that financial assistance will be given the ex-governor.

A member of the committee stated that Mr. Foss' assets, for the present, exceed his liabilities by a considerable amount, and the committee hopes so to adjust his affairs that a substantial sum will be left to his credit.

Mr. Foss himself is declared by friends to be a broken man. It is believed possible that he will go away to seek rest and renewed health. Though in his office in the John Hancock building yesterday, he denied himself to newspapermen.

It was within the past two days that he placed his affairs in charge of the committee, which includes Col. William A. Gaston, lately president of the National Shawmut bank; Galen L. Stone of Hayden, Stone & Co., and Neal Rantoul of P. S. Moseley & Co.

CONNECTICUT LEADS NEW ENGLAND ON LOAN

BOSTON, Nov. 9.—With the final total of subscriptions to the second Liberty loan of 1917 aggregating \$176,946,650, New England came within \$23,053,050 of securing its maximum allotment of \$200,000,000 and over-subscribed its minimum quota of \$300,000,000 by \$176,946,650.

The final figures issued yesterday by the Liberty loan committee of New England, compiled from the reports sent in by the 1072 banks in the New England district, in conjunction with the records of subscriptions placed in Boston and other centers which have been credited back to the home towns of the subscribers, show that, as a result of these transfers, Massachusetts lost \$1,900,000 to the other New England States.

Of this amount \$1,063,000 was credited back to Vermont; \$340,000 to New Hampshire; \$132,000 to Maine; \$2,350,000 to Connecticut and \$180,000 to Rhode Island.

The state of Massachusetts, which was originally credited with \$228,893,250, now has to its credit the sum of \$217,990,250. The city of Boston lost \$33,000,000 as a result of these transfers and now has a final total of \$17,265,650. This is \$1,513,650 in excess of its maximum quota of \$15,752,000.

Connecticut Leads New England  
Of all the New England states, Connecticut is the only one which, in this final accounting, has exceeded its minimum allotment, all the other falling a bit short. With a maximum quota of \$161,346,000, Connecticut is now credited with subscriptions aggregating \$164,723,450, an over-subscription of 3,377,450. This exceeds the minimum quota for that state—\$98,802,500—by 78 per cent.

By far the other five states, Massachusetts comes nearest to attaining her maximum. This was fixed at \$110,234,000 and the final figures for the state are \$127,730,250, only \$17,496,250 below the maximum and 56 per cent. above the minimum allotment of \$191,302,700.

Maine, with a total of \$25,849,500, has come within \$3,150,500 of reaching her maximum quota of \$30,000,000 and has exceeded by 40 per cent. her minimum allotment of \$18,351,000. Her final figure for the state is \$27,730,250, only \$1,118,750 below her maximum allotment of \$28,849,000, but has exceeded by 35 per cent.

DOCTORS HAND OUT LIVE TIPS

They Take the Public Into Their Confidence

Prominent physicians claim people fall in life because of "nerve hunger," that it is the active, bright-eyed, strong nervous man or woman who is "there" at work or play.

Strong, well nourished nerves is the great secret of success, health and happiness.

Men and women try to live regardless of health, strength, ambition, energy and hope, they exceed the speed limits, wasting nerve strength and energy and fail to store up reserve force, afterwards they only exist, life has no joys.

Without energy, ambition, strong nerves, and pure blood one cannot hope to enjoy the fullest measure of success and happiness.

A noted specialist says, "Phosphated iron brings strength to the blood, nerves and brain, that it is a perfect combination of vital elements of great tonic qualities when taken by 'Nerve-sick humans,' that it will increase body and nerve energy, restore ambition and staying powers."

He also says: "If you are the victim of overwork, worry, excess of mental and physical forces, have the blues, and the pleasures of life are no longer enjoyable, that you need Phosphated Iron to brace, build you up and put you on your feet again."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets. Fred Howard, the drug store, Lowell Market and leading druggists everywhere.

# OVERCOATS

## \$25 Value to Order

Made any style, fly front, double breasted, balmacaan, ulster style, buttoned through, and the popular Trench coat for young men.

## THIS WEEK SPECIAL \$15

Three months ago for spot cash I bought 19 styles of Wanskuk fancy gray Overcoatings. In this lot there are a few black kerseys and patent beavers, 28 ozs. in weight.

This mill makes the finest face cloth in New England, on Beavers and Serges and mostly staple patterns, in blacks, oxfords, vicunas, meltons and herringbone weaves. The conservative dresser will find in this range of patterns just the style he is looking for. These goods should have been on my counters two months ago, but owing to conditions of the present day congestion, I just received them—the lateness of the season compels me to sell them at the above mentioned price.

Real honest value, worth \$25 in to-day's market. My price to order

Open Evenings Till 9.

## HOPE OF SAVING U. S. SAILORS ABANDONED

WASHINGTON, Nov. 9.—All hope for the safety of Lieutenant John T. Melvin and the enlisted men reported missing after the torpedoing of the American patrol ship Alcedo has been abandoned.

Vice-Admiral Sims cabled the navy dept. yesterday that the search for survivors of the Alcedo had been given up, and that it was believed most of the missing men had been killed outright by the explosion of the torpedo.

Daniels' Statement  
Secretary Daniels authorized this statement: "The navy department has received a report from Vice-Admiral Sims stating that no trace has been found of the one officer and 26 men reported missing after the sinking of American patrol vessel Alcedo. Several vessels which were searching for possible survivors have given up the search. It is believed that most of the missing men were killed by the explosion of the torpedo."

MISS FRANCES G. CURTIS OF BOSTON CHAIRMAN OF JUNIOR RED CROSS

BOSTON, Nov. 9.—Miss Frances G. Curtis, a member of the Boston school board, has been named as chairman of the Junior Red Cross school auxiliaries of the Metropolitan chapter of the Red Cross. She will have charge of the work of forming junior auxiliaries in the public, private and parochial schools of the city. Already several of the schools have taken preliminary steps toward such organization.

## POLICE WOMEN

There may come a time when our women will have to do police duty, and it is said that they have done noble work in this line in a few cities of the United States. A woman, however, must be perfect physically, and strong, to take over man's duty.

The housework for the mother or the housekeeper at home is often beyond her strength. It must be lightened in some way or other. Very often the worries and cares are much greater than the actual physical labor, but the feeling that this or that cleaning, sewing, etc., must be done, fatigues the mind more than the physical labor actually tires the body.

No wonder the tendency of our times is for the young women to prefer work in office or factory rather than doing house drudgery. If the woman of the family is run down with the distressing complaints peculiar to woman, she should give instant care to those organs which are so important for womanly health. Dr. Pierce, the specialist in woman's diseases and founder of the Invalids' Hotel, at Buffalo, N. Y., put up his "Favorite Prescription" nearly 50 years ago, made entirely of roots and herbs, without alcohol, that puts the womanly health in proper condition. The catarrh is cured, and in consequence backache, dizziness, fainting spells are dispelled. Send 10c to Dr. Pierce's Invalids' Hotel, for trial package of tablets. Tablets for sale by most druggists, at sixty cents.

Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of. In ninety-nine per cent. of these cases it is the womanly organism that requires attention; the weak back, dizzy spells and black circles about the eyes are only symptoms. Go to the source of trouble—take Dr. Pierce's Favorite Prescription! When that is corrected the other symptoms disappear.

UNITED WORKMEN  
A regular meeting of the members of Lowell Lodge, Ancient Order of United Workmen, was held last evening in Odd Fellows hall and at the close of the session an entertainment was given, those taking part in the program being as follows: Frederick G. Humphries, Miss Madeline Boland, Mary Ann Peterson, Mildred Hallist and Robert Murphy. Among the visitors who addressed the gathering were Grand Past Master Workman William J. Sullivan of Salem and District Deputy Henry Hart of Lawrence, Master Workman A. W. Davis had charge of the evening's program.

## SAYS SMALL DID NOT HAVE A FAIR TRIAL

CONCORD, N. H., Nov. 9.—The full bench of the supreme court heard in this city yesterday arguments in the case of Frederick L. Small of Ossipee, formerly a Boston broker, found guilty of wife murder. He is now in state prison under sentence to be hanged in January.

William S. Matthews of Somersworth argued the case for Small yesterday morning, with the assistance of Sidney P. Stevens, Atty. Gen. James I. Tuttle, assisted by County Solicitor Walter D. H. Hill of Conway, was heard for the state.

Mr. Matthews argued that the testimony of the state's electrical experts as to what might have been done with various articles found in the cellar of the burned Small cottage to produce a delayed fire, as alleged by the state, should have been ruled out because it was not based upon evidence in the case.

"The case against the respondent is based wholly upon circumstantial evidence," said his counsel, "and with this vitally important link (covering between seven and eight hours) missing, the state's case fails, for it is certain from the evidence that the person who committed the murder set the fire."

The exhibition of the head of Mrs. Small to the jury was objected to because its only effect "was to prejudice the respondent and inflame the minds of the jury."

Testimony of George B. Magrath as to the heat of the fire, of witness Wedger as to the chemical, thermite, and of E. W. Hodson as to the identification of certain wires were objected to as "indefinite, meager and uncertain evidence." And exception was taken to the refusal of the presiding justice to direct a verdict of "not guilty" upon the ground of insufficient evidence.

Twenty instances were cited of statements made by the attorney general in his argument before the jury which counsel for the respondent declared to be "epithets and characterizations of the respondent and misstatements of evidence."

The contention of Mr. Matthews was that the respondent did not have a fair trial, therefore that the exceptions should be sustained and a new trial granted.

Atty. Gen. Tuttle yesterday afternoon argued that the case of the state was free from error and that Small's rights had not been infringed. Mr. Tuttle said that denied to a presenting attorney of the right to use language such as his in the Small trial would mark the beginning of the end of the "sacred right of trial by jury."

The body of Mrs. Small was found in the ruins of her home on Sept. 25, 1916, several hours after Small had left home for Boston.

SWEDISH CHURCH FAIR  
Another successful session of the fair under the auspices of the Swedish Methodist church was conducted last evening and the receipts of the evening were very substantial. The program included an address of welcome by Miss Anna Andersson, bible reading and prayer by the pastor, selections by the male quartet of the church, and readings by Miss Matilda Schomberg. A link business was carried on at the following sales tables: Cake and pretzels, the American girls' organization, dry goods, the Scandinavian girls' fancy articles, Dorcas society, candy table, young men of the church, ice cream, cake and coffee were served by the sewing society.

SOCIAL SERVICE LEAGUE  
At a recent meeting of the Lowell Social Service league, the resignation of Congressman Rogers as president was accepted with regret, and the following officers were elected: President, Hon. Frederic A. Fisher; vice presidents, D. L. Page and Robert Friend; honorary vice presidents, Hon. John Jacob Rogers, Rev. Charles T. Billings and P. E. Sullivan; general secretary, Miss Mary Alma Cotter.

YOU NEED NO RUBBERS  
WHEN YOU VISCOLIZE YOUR SHOES  
VISCOL will soften and waterproof your shoes and preserve them. Soak your shoes in VISCOL and have dry feet. Viscolized shoes will not rot out when being worn in the wet nor will they get hard and mildewed when put away. One pair of viscolized shoes will outlast two pairs of untreated shoes.

## THE RED TRIANGLE

Continued

him to attend the business session, which will not begin until 8 o'clock. The organization of the campaign is practically complete now and this evening's affair will serve to introduce the workers to each other. This afternoon a meeting of the women of the city was held in Colonial hall and prominent speakers were on hand to talk of Red Triangle work.

Tomorrow about 150 Lowell soldiers from Ayer will come to town to assist in giving the campaign a good send-off and at 8 o'clock in the evening a mass meeting will be held at the Westford street armory. Monday the workers will meet at the Y.M.C.A. at noon to make their first reports and by that time the campaign shall have swung into its full stride. On Wednesday, general chairman of the campaign, has announced that the work of securing subscriptions in the suburban towns has been handed over to Hon. Edward Fisher, who was conspicuously successful in this line at the time of the Red Cross and other campaigns last summer.

**Class 3 Division**  
The following workers were appointed last evening for the teams in the so-called Class 3 division. They will solicit amounts under \$500:

**DIVISION A**  
Paul Chandler, chairman, Sawyer Carriage Co.

**Team 1**  
E. A. Ramsay, capt., Mass. Cotton mills  
P. S. Roberson, Boot mills  
E. A. Clifford, Saco-Lowell shops  
Wm. Rawlinson, 89 Dover  
W. H. Howe, 105 Jennings bank  
C. H. Clouston, Meeker, 151  
C. O. Webster, Mass. Cotton mills  
O. W. Hardy, 9 Harris av.

**Team 2**  
W. R. Jeyes, capt., Boys' club, Dutton  
A. D. Mitchell, 23 Forrest  
J. R. Goldman, Hildreth building  
J. R. Kew, 289 Branch  
Louis Munroe, 404 Middlesex  
Dr. A. E. Kunt, 13 Harris av.  
E. W. Douglas, 106 Sanders av.

**Team 3**  
J. H. Gamble, capt., 125 Perry  
Harry Needham, 125 Perry  
E. B. Brennan, 495 Fletcher  
H. E. Simonds, City Institution for Savings  
Dyran Kirby, U. S. Cartridge Co.

**Team 4**  
Ralph Runels, capt., Saco-Lowell shops  
L. J. Wentworth, Saco-Lowell shops  
K. Whittier, Saco-Lowell shops  
H. Runels, 414 Middlesex

**Dandruff Scalps Lead to Baldness**

If you have dandruff you must get rid of it quick—it's positively dangerous and will surely ruin your hair if you don't. Dandruff heads mean hair falling out, brittle, gray, sagging hair that finally dies and falls out—new hair will not grow—then you are bald and nothing can help you. The only sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, surely and safely, and at little expense, there is nothing so effective as Parisian sage, which you can get from good druggists everywhere. It is guaranteed to banish every sign of dandruff, stop itching scalp and falling hair, and promote a new growth, or the cost, should it be, will be refunded.

Parisian sage is a scientific preparation that supplies all hair needs—an antiseptic liquid, neither sticky or greasy, easy to apply, and delicate to perfume.

If you want beautiful, soft, thick, lustrous hair, and lots of it, you must use Parisian sage. Don't delay—begin tonight! Write attention now! Insures abundant hair for years to come.

Note: Parisian sage positively will not color or streak the hair.

## What Morris Plan Loans are Made for

Here are some of the things for which people of character without giving chattel security or losing their self-respect, borrow money on easy terms, at legal rates of interest from Morris Plan Companies in all parts of the country:

Accident. To pay taxes or assessments.  
New Baby. To pay life insurance premiums.  
To pay up loans. To clean up old debts.  
Sickness in family. To make first payment on a lot.  
Death in family. To make repairs on home.  
Clothing for children. For a vacation trip.  
Clothing for parents. To discount bills.  
To buy sewing machine. To increase stocks of merchandise.  
To begin business. To purchase store equipment.  
To pay for education. To purchase delivery equipment.  
To begin housekeeping. To help needy relatives.

One of these may be YOUR reason for making a loan. Perhaps you have an entirely different reason.

This Morris Plan Company is always looking for opportunities to loan money on easy terms to worthy applicants who are vouched for by persons of character.

It does not demand chattel security. CHARACTER is the basis of credit here.

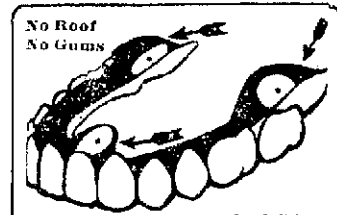

IF YOU HAVE PRESSING DEBTS, PAY THEM WITH A MORRIS PLAN LOAN. GET A NEW START.

## Dr. Hewson's Dental Treatment Goes a Long Way Towards Banishing the Demons of Disease.

Stomach trouble, dull eyes, blotched skin, headaches and premature old age usually begin in the mouth. Bad teeth, improperly chewed food and an unhygienic mouth put you on the toboggan. Here's a point on which all men who have studied efficiency agree—if you can't chew you can't qualify. Good digestion, good health and a sweet breath depend upon your teeth. If there's a defect of any kind come to Dr. Hewson's at once. Curable members will be treated and saved if possible. Missing members—few, many or all—will be restored by handsome, comfortable, efficient substitutes, and you'll gain a new lease of life.

Roofless—Gumless—Invisible Dental Plate

Only at Dr. Hewson's Offices can you secure this invisible, roofless, gumless, triple suction plate that cannot drop, rock, nor come loose. The closest observer cannot detect its presence in the mouth. Demonstration Free.

All work and materials are guaranteed for ten years by a written warranty as good as a U. S. Treasury bond. Come to Dr. Hewson's office in the morning and you can have your new teeth the same day extractions are made, if you wish. Examinations, advice and estimates of the cost of putting your teeth in perfect condition are free.

## This Coupon is Worth \$1 Cash

Any new patient presenting this coupon at Dr. E. L. Hewson's Dental office, 40 Central St., will receive \$1.00 worth of work absolutely free. This offer is made to demonstrate the painless methods of filling, crowning and extracting.

Pure silver fillings ..... 50c  
Pure gold fillings ..... \$1.00 and up  
Bridges work, per tooth heavy cusps of solid, pure gold ..... \$3.00  
Full set of Teeth on best rubberplate ..... \$5.00

At Dr. Hewson's Dental offices you receive \$25 worth of sympathetic, expert, guaranteed dental service for \$5. This includes \$3 worth of extractions, if necessary; a gold tooth which would cost you \$5 elsewhere, and a plate which is usually sold at \$12.

## MILK MAN ARRAIGNED IN POLICE COURT

Walter A. Andrews of Dracut, was charged in police court this morning with a violation of the milk law in having watered milk in his possession. William A. Bennett, acting milk inspector, testified to taking samples and finding them adulterated. It was testified that the present case was the third offense of Andrews on the same charge. Judge Frederic A. Fisher made a finding of guilty and Andrews was ordered to pay a fine of \$50.

Joseph P. Kelly, charged with the larceny of an automobile valued at \$600 from Ralph C. Stuart, was held in \$1000 for superior court. Catherine P. Grimeshaw, Marguerite Bellemare, Sargent Bellemare and Charles Joyce were arrested yesterday by members of the vice squad, from a house at Tremont and Moody streets, and in court this morning were charged with drunkenness. They were found guilty and each received a 30-day jail assignment. James L. Bonley, charged with drunkenness, was also found guilty and sent to jail for a month. The case of James L. Bonley, charged with drunkenness for court this morning, was continued until tomorrow for sentence. The case of Fortuna Roy and Raoul Gagnon, charged with assault and battery, will also be heard tomorrow.

Dominick McCarty was charged with the larceny of \$40 in cash and a pocketbook valued at \$2 from Thomas H. Daley. November 15 was the date set for the trial. The case of Alfred Gagnon, charged with non-support, was continued until Nov. 17. Mohammed Said, charged with larceny, will have his case heard Nov. 20.

A long drawn out non-support case took up the major portion of the session and when all the testimony had been offered, the court ordered the case continued for a month and in the interval an effort will be made to have the couple come to terms.

## Special Bargains in MILLINERY AT P. SOUSA'S THIS WEEK

Every day of the year is a bargain day in our millinery department. That is, you can always save from 15% to 50% in your headwear. Our "regular prices" average "sale prices" in the down town stores. Yet there are times, when not contented with this, we make a special effort to further convince the public that we can sell cheaper than elsewhere.

**READ THESE SPECIALS FOR THIS WEEK:**

Shapes and Tailored Hats that sold as high as \$3.00.....98c

Others that sold as high as \$3.98.....\$1.49

WE HAVE PLENTY OTHER BARGAINS NOT MENTIONED IN THIS AD.

**P. SOUSA & CO.**

## WHAT THE GREAT WAR WILL DO TO LOWELL

William R. Balch, war editor of the Boston Transcript, appeared before the members of the Highland club last evening and told them what he knew—or, at least, part of what he knew—about the great war. Mr. Balch spent several years in Germany prior to the outbreak of the war and knows the German viewpoint and situation as few Americans do. He is in touch with all war news available in this country and has access to all official despatches received in Washington. These advantages give him a wealth of information and last evening he was generous in imparting his knowledge.

In addition to his fund of facts Mr. Balch possesses a pleasing presence as a speaker and his talk last evening was an almost informal one. His subject was "What the Great War Will Do to Lowell" and he spoke in part as follows:

"There's a new world coming when the war ends and it is up to you men of Lowell to see that the war is properly fought out. The mere giving from your pocketbook is nothing. I have you ever realized that you and your family waste from 35 to 37 per cent. of the white flour in the bread which you eat? If 3000 other people in Massachusetts do the same, you will probably be the cause of some poor kid in the trenches starving to death.

"The Monroe doctrine has long been one of our national stupidities. We think that what happens in Europe is of no consequence to us, but it is. Don't go away with the idea that everything begins and ends in Lowell. The street outside this building once in France or Germany. We are citizens of the world and we must take our part in the war on that basis.

"What can you do? I don't know. It's up to yourself. Two old and feeble friends of mine in England go to a hospital every night at midnight and stay up until dawn so that the nurses may sleep. They have found a way of doing something. You must do something like that if you want to get your men out of the trenches.

"Why are we fighting Germany, you may ask? Because the Germans have set out to conquer the world. They planned to do this immediately after the war of 1870. At the close of one war Germany is preparing for the next. The Germans planned to carry on this war along three great roads. The first was the policy of peaceful penetration.

"Years before the war began, Germany had one expert employed among every 30 or 35 workmen. When I was in England, a German youth

came to me and asked if I could help him obtain a position as a chemist in a soap factory in England. He said that he wanted to learn chemistry and that he was willing to work for nothing until he should become of value to the company. This fellow was only one of the 1,000 spies in England. There were 16,000 in the United States, 18,000 in Belgium, 22,000 in France and as many more in other countries.

"Germany prepared even to the minutest detail for this war. Why she even had the invoice from other countries sent through her banks and the details of every shipment were noted. Business houses were bought in other countries. In Italy, Germany controlled 70 per cent. of the business of the country at the outbreak of the war. Why did the Germans put up such a stiff battle at Verdun? Because there are iron mines there and these, linked with Germany's coal mines, would make her commercial mistress after the war.

"The second road along which Germany planned to carry this war was by her highly developed spy system. Every action in Germany is based on an accurate knowledge of what the other fellow is doing or intends to do. The first German spy who was shot in London had been a barber in England for three years before the outbreak of the war. He had been set up in business by the government. All he knew about the spy system was that at a certain time, one man would hand him a paper or package which he was to pass on to a third man at another stated time. Outside of that, the whole German spy system of which he was a part was a mystery to him. And so it was with every German spy. If he were caught and forced to confess, his knowledge could implicate only two other men. It was a highly developed system as a whole but the individuals were un-realizing cogs.

"A cut-glass factory six miles from the foremost fortress on the Meuse line was blown up in the early days of the war and in the ruins was found an emplacement for a 42-centimetre gun. All the Germans had to do was to roll up their gun and start firing. There was a number of hunting shacks along the coast of Belgium before the war and these, also, were nothing more or less than gun emplacements. I believe that there is one of these emplacements hidden along the coast of Cape Cod. No schoolhouse has been built in Germany for the past 30 years without the approval of the German general staff. They must be capable of being turned into hospitals at the shortest notice. And so with every factory in Germany; it is merely a disguised ammunition factory.

"But the whole trouble with the German system was that it was not as fine as that of the French. The Germans were in too much of a hurry to boast and tell what they had done and what they were going to do. The Germans discovered poison gas and as soon as they had a small quantity of it made they had to use it right

away. If they had waited until a sufficient amount had been made, they might have gone right through France and driven everything before them. But they couldn't wait."

Mr. Balch then went into a detailed description of what happened to the German man when "Der Tag" arrived. Every German had been prepared for this day years in advance and when the signal was given they were ready for it. Little shacks similar to the polling booths in this country were stationed all over the country and when the alarm was sounded the German rushed to his particular shack without even stopping to get his hat. If he were a minute late he was severely reprimanded. A key was clamped around his neck as a means of identification and he was sent off without seeing or speaking with his loved ones.

Mr. Balch epitomized the reason for Germany's failure to make good her boasts in the fact that the "Germans have never known or understood any nation on earth except her own. That is why Germany has not won a single battle; she has underestimated the fighting spirit of her opponents."

The speaker said that he had the opportunity of talking with the Kaiser when he was in Germany and he characterized the emperor as very keen, but soapy and bad-tempered. He considered himself God's regent on earth and he resents anyone who insults the Almighty.

"The Kaiser is a bad soldier," said Mr. Balch, "despite his years of military training. He was unwilling to leave the work of carrying on the war to his military experts; no, he must do it himself. He has repeated over and over again that the future of this earth belonged to Germany and America, but America has offended him and he must give us a good hiding."

In conclusion Mr. Balch urged his listeners to do everything in their power to oppose the Germans. He implored them to cultivate the greatest suspicion against every German who has not already openly declared himself on the side of the United States.

"If you don't do it now," he said, "in months from now, when black will be the fashionable color for women, you will be ready to take reprisal on the nearest German."

After the address Mr. Balch met the members of the club informally and answered a number of questions about the war.

Last evening's lecture was in charge of the entertainment committee.

## ORDERS PORT OF RIO JANEIRO CLOSED

RIO JANEIRO, Nov. 9.—The government has issued a decree ordering the closing of the port of Rio Janeiro.

The local evening newspaper is the paper that reaches the home when the whole family is there to read it. The Sun fills this field in Lowell.

## AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more

medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. MCGONIGAL, 3432 Hartville Street, Phila., Pa.

## LOWELL'S LIBERTY LOAN TOTAL CLIPPED

The Lowell Liberty loan committee is in receipt of a communication from the Federal Reserve bank to the effect that the Lowell total is being reported to Washington as \$615,300.

This sum is \$10,000 or thereabouts less than the Lowell committee claimed and the discrepancy is unquestionably explained in the fact that Boston gave credit to Lowell for only \$30,000 of the Hamilton Manufacturing Co.'s subscriptions and kept \$150,000 in Boston in spite of a notification received during the campaign that the Hamilton's total subscription was to be credited to Lowell.

The Federal Reserve bank has credited Lowell with \$100,000 of the Tremont & Suffolk mills subscription and \$100,000 of the Bigelow Hartford Carpet Co. subscription. In the final listings Billerica gets credit for \$3350 more. Dracut has a \$50 credit. Chelsea \$100 and Tewksbury \$100. The New England Telephone & Telegraph Co. by a careful distribution of its centralized subscriptions has credited numerous sums back from Boston to Lowell and all the surrounding towns.

The final notification from the Federal Reserve bank states that the subscriptions in Lowell as reported were \$503,000 and the amount credited in Boston to the Lowell total is \$1,027,300, making the grand total \$6,115,300.

The Lowell committee could easily swell this by fighting for that other \$150,000 which was at one time officially credited, but the committee does not consider the game worth the candle and contents itself with planning not to let these big subscriptions get away during the next campaign.

The Federal Reserve bank has expressed its appreciation of the work done in Lowell which could have been brought from this city an entirely satisfactory total subscription, and it asks that the committee's organization be kept intact for the next drive.

BROCKTON, Nov. 9.—Mayor Stewart B. McLeod yesterday received a consignment of 30 bags of sugar, each bag weighing 100 pounds, which will be placed on the market in one pound lots. Brockton has been without sugar during the past few weeks, but the poor people have not had a chance at it. In nearly every instance it was sold only to persons who bought other goods in varying amounts. Police officers were put on guard at the door of the office of the board of health, where the sugar is stored, to prevent a raid and a course of officers will be on hand Monday to preserve order when the sale starts.

A crowd of nearly 1000 women stormed the doors of the Brockton public market for two hours yesterday while a sale of sugar was on. Not satisfied with making the sugar market short, housewives are raiding the stores of salt and every other article. Every little rumor to the effect that a certain article of going short is a signal for a rush.

## INVESTIGATE PRICES OF CANNED VEGETABLES

CHICAGO, Nov. 3.—Intimation that the big packers have not been playing exactly fair with the food administration in the matter of canned vegetables was contained in an order from Washington yesterday directing Harry A. Wheeler, state food administrator, to look into the stocks of tinned foods held by the packers. It is particularly desired to know when the stocks were put up. The government wants to know this with reference to prices paid at the time as compared with present prices.

The packers are said to be the biggest canners of vegetable products in the country and thus to control prices. This season's pack of corn is said to be the largest since 1912 and it is said, should be obtainable at reasonable prices.

The corn pack for 1917 is estimated at 17,000,000 cases, as compared with 9,500,000 cases in 1914, when prices were about half what they are now.

ORDERS PHYSICAL CONNECTION OF STEAM AND ELECTRIC RAILWAY TRACKS IN PORTLAND

AUGUSTA, Me., Nov. 9.—The public utilities commission yesterday ordered the physical connection of the steam and electric railway tracks in Portland, the work to be completed by Jan. 1, 1918. The cost will be met, 75 per cent. by the steam roads and 25 per cent. by the electric roads.

SUP'T. QUINN TO OPPOSE MAYOR ROCKWOOD AT CAMBRIDGE

BOSTON, Nov. 9.—Edward W. Quinn, superintendent of the Cambridge water works, has announced that he will be a candidate for mayor of that city in the coming election.

# ATHENA

## UNDERWEAR

FOR WOMEN AND CHILDREN

### Shaped in the making to fit naturally without stretching

The difference between ATHENA Underwear and other underwear is clearly shown in these pictures.

ATHENA is shaped in the making to fit the form in a natural manner. It is the only underwear for women and children that fits without stretching—permits perfect freedom of movement.

### Comfort without any Extra Cost

You pay no more for ATHENA than for other, bag-like underwear.

ATHENA Underwear is made in all sizes. We have suits in a wide range of weights and qualities that will fit you to perfection.

Step in today and get one suit of ATHENA. It will tell you the story of comfort better than we can.

## J. L. CHALIFOUX CO.

## P&Q Clothes

We accept Liberty Bonds same as cash in all P&Q Shops. Will take your \$50 or \$100 bonds for face value and give you change and interest to date.

## PATRIOTISM -- ECONOMY

PATRIOTISM IS NOT PARSIMONY  
ECONOMY IS NOT STINGINESS--

And buying clothes where you can save \$5 to \$10 on your Suit or Overcoat is as much a patriotic duty as paying your war tax.

The P&Q Shop making the clothes in its own New York Tailor-plant, buying enormous quantities of woolsens, cutting off the middleman's profit and selling direct through its 22 stores—is "doing its bit." For it's our patriotic duty this year, to save our customers money—because every dollar they save releases a dollar for war duty.

P&Q Clothes are clothes of quality—made in America for American Men, whether by birth or adoption—and contain the value that is appreciated by men who feel they like to be better dressed without paying exorbitant prices.

Visit the P&Q Shop. We challenge you to see that we make good!

## BRAZIL NOW FEARS DOUBLE ATTACK

SANTA ANNA DE LIVRAMENTO, Brazil, November 9.—The municipal authorities believe that the settlement of the strike which has been in progress here for some time is only temporary and that the Germans are forming a new unit.

The strike just settled was the third to come in quick succession, and like the others it greatly interfered with the shipment of foodstuffs and other supplies to the entente allies. Officials say they believe the strikers are part of a revolutionary movement.

Strong Forces Employed  
The national government is maintaining strong forces through the affected district and the Brazilians are declared to be anxious for action against the Argentine troops as a result of persistent reports in official

circles that Argentina is mobilizing at Libres and Santo Tomé, near the southern Brazilian frontier. Officials scoff at Argentina's excuse that the mobilization is merely precautionary against a German uprising in Brazil and fear a renewal of hostilities over the old boundary dispute concerning the Misiones province, which was settled some years ago by President Cleveland.

Among other international problems Brazil is faced by a renewal of active propaganda by the monarchists, especially in the Rio Grande do Sul and Porto Alegre districts and which also is active here.

Brazil has prohibited entrance into the country of Uruguayan Germans. It is reported here that a national decree has been issued suspending the constitutional rights of Germans and the decree is expected to cause a new outbreak in the German provinces.

LIBERTY GOLF TOURNAMENT

NEW YORK, Nov. 8.—Proceeds of the Liberty golf tournament conducted by the United States Golf association during the summer for the bene-

fit of the Red Cross were \$72,375. It was announced here last night by the association. On Independence day 455 clubs, representing every state in the Union with the exception of Idaho, Nevada, New Mexico and Oregon, held competitions for the Red Cross, the announcement said.

## SPY SUSPECTS WILL LOSE CABLE RIGHTS

WASHINGTON, Nov. 9.—The government is about to deny cable communication with neutral countries to a number of persons in the United States, including some American citizens, on the suspicion that they have furnished information to the enemy on military, naval and commercial operations.

Telegraph and cable companies, it was stated yesterday, will be given lists of individuals who have been under surveillance, with instructions to refuse transmission of their messages. Some of the men under the ban are said to have been engaged by neutral organizations or corporations in the European neutral countries or in Mexico, South and Central America, to gather information ostensibly for commercial purposes, but in reality for transmission to Germany.

Although these agents, in some instances, are unwittingly acting in the enemy interests, the avenues of communication will be closed to them by the government censorship board. Censorship is but one phase of the program for tightening control over enemy activity now being formulated for early announcement. The plans include further steps to prevent explosions, fires, and other acts of sabotage.

More drastic measures, also will be taken soon, it is said, to restrict the movements of the thousands of alien enemies.

## PARIS CONFERENCE TO DISCUSS SHIPPING

WASHINGTON, Nov. 9.—Aside from the subject of actual military operations, shipping will be the most important question taken up by American and allied representatives at the Paris war conference.

The United States shipping board has announced that it will turn out between now and early spring 1,000,000 tons of ships. This will fall far short of the ever increasing demand, the army and the navy on the one hand and the allies on the other calling every day for more vessels. For every ship made available, the shipping board finds a dozen uses.

One subject the conference will consider carefully is how many troops America can put in the field without endangering the food and material supplies of France and Italy. The American view of the situation will be set forth by Bainbridge Colby. The shipping board also sent with the commission, it was learned yesterday, a special representative to study English ship building methods. He is Charles Day, a Philadelphia marine engineer, who will investigate particularly the construction in England of fabricated steel ships.

**REGISTRATION FOR PRIMARIES**  
Twenty-two names of men and eight of women were added to the voting list, yesterday's sessions of the board of registrars. The registration by wards was as follows:

Ward	Men	Women
Ward 1	1	0
Ward 2	1	0
Ward 3	1	0
Ward 4	1	0
Ward 5	1	0
Ward 6	1	0

## CONCERT BY FREDERIC G. BOND FOR BENEFIT OF THE RED CROSS

Next Wednesday evening in Colonial hall a concert will be staged under the direction of Frederic G. Bond for the benefit of the Red Cross. An excellent program has been arranged and the soloists will include Mrs. F. L. Roberts, Mrs. Nano Gallagher, Mrs. Jack Donnelly, Miss Vera Moody, Miss Katherine Henderson and Miss Margaret McDonough. Mr. Bond will also sing solo and duets, and several members of his classes will take part. Napoleon Gullabunt and Miss Ella M. Kelly will accompany.

The patronesses will include Mrs. Butler Ames, Mrs. H. A. Thompson, Miss Harriet Coburn, Mrs. J. W. Hurst, Mrs. Harry J. Corwin, Mrs. Charles K. Simpson, Mrs. Collins Vanderberg, Mrs. Henry H. Wilder, Mrs. C. C. Sibley, Mrs. H. H. Fletcher, Mrs. Frank Bramhall, Mrs. Charles Russell, Mrs. Robert L. Russell, Mrs. Russell, Mrs. G. J. Macartney, Mrs. Aubert J. Ray, Mrs. George R. Chandler, Mrs. Fred E. Nelson, Mrs. Frank Smith and Mrs. Frank W. Stevens.

## LOWELL SOCIALIST CLUB

The regular meeting of the American branch of the Lowell socialist organization was held last night at 22 Middle street. Routine business was transacted, and one new member was admitted. Plans were reported under way for a vigorous city campaign, and reports from New York were read stating that six and possibly eight socialist wards had been elected, and that one socialist municipal judge also had been elected. The next meeting will be held Sunday afternoon at 3 o'clock at the headquarters.

## ASSOCIATE HALL SCENE OF SIXTH ANNUAL DANCE OF THE BELLEVUE CLUB

The sixth annual dance of the Bellevue club was held last night at the associate hall and the large attendance was an evidence of the popularity of the members of the club. The evening was spent in an enjoyable manner. One of the features of the evening was the dance order novelty which bore a calendar for the year 1918. The minor-league orchestra furnished music for the occasion, and the officers in charge of the arrangements were as follows: General manager, Richard Marshall; assistant general manager, William Wallace; floor director, Frank Hick; treasurer, John Ward; and chief aid, Paul Chandler.

## THE JAMES CO.

## COMPENSATION DENIED LOWELL MAN

Special to The Sun.

STATE HOUSE, Boston, Nov. 9.—On the grounds that he failed to file a "claim for compensation within six months after he was injured" the case of Michael McCarthy of 149 Cross street, Lowell, against the Saco-Lowell shops was yesterday dismissed by the Massachusetts industrial accident board.

McCarthy, who has been an employee of the Saco-Lowell shops for 16 years, was injured Sept. 1916, while at work in the setting up room of the shop. He fell from a truck and in falling a three-inch level which was in his overall pocket crushed into a tumor which was in the groin. Subsequently he went to St. John's hospital and was operated on. He was out of work for five months, returning to his employment Feb. 19, 1917.

Yesterday's report of the industrial accident commission denying McCarthy's claim, is based on the hearing which was held on the aldermanic chamber of the Lowell city hall on the afternoon of June 25 of this year. The insurer was the American Mutual Liability insurance company.

The employee sought compensation for his incapacity and the payment of an \$80 bill due Dr. Matthew P. Mahoney, \$25.50 for hospital, \$10 for Dr. John H. Donovan. The testimony taken into consideration by the industrial accident board included that of Andrew A. McCarthy of 668 Gorham street, son of Michael McCarthy, who declared that he corresponded with the insurance company as early as January 16 telling of his father's injury and asking them to consider the matter.

Summary of the board's finding is as follows: "I find upon the evidence that the employee in this case received a personal injury in the course of and arising out of his employment on September 12, 1916, by reason of which he was totally incapacitated for work up to Feb. 19, 1917, which deducting the waiting period, leaves a compensation period of 19 6-7ths weeks.

"I find that the average weekly wages of the employee were \$11.50. The amount of compensation which would be due, if this claim could be maintained, would be \$156.20. "As to the medical bills incurred within the first two weeks, I find that \$50 for the first operation and \$5 for the pathological examination is a reasonable fee for the services of Dr. Mahoney; that the bill of St. John's hospital in the amount of \$10 is reasonable; that the bill of Dr. John H. Donovan in the amount of \$10 is reasonable. Dr. Carroll's bill, it appears, was incurred after the first two weeks following the injury, and when the employee paid the \$4 or \$5 for medical expenses does not appear.

"I find that the employee was injured by the overturning of a truck on which he was riding and a spiral level coming in contact with a tumor of the groin which had been in a quiescent state up to that time; that the blow 'lighted up' the tumor to a point which incapacitated the employee for work and necessitated the removal of the tumorous growth. I further find that all incapacity for work due to the injury had ceased on Feb. 19, 1917.

"I find that the employer had knowledge of the injury but that no claim for compensation was made until April 17, 1917, more than six months after the injury.

"The letter written to the insurer by the employee's son on January 16, 1917, does not meet with the statutory requirements for a claim, and it is apparent that none of the letters after that date approach such requirements. The question then arises as to whether the failure to file a claim was due to mistake or other reasonable cause.

**BELL'S SEASONING**

IS THE ORIGINAL for poultry, game, meat, fish, etc.; others are imitations.

**ASK GROCERS FOR BELL'S**  
W. G. Bell Company, Boston, Mass., U.S.A.

No promise of settlement was held out in any of the insurer's letters. The insurer's letter of February 27, 1917, made the employee aware that the insurer was not then ready to admit liability but was still investigating the case, but, notwithstanding this, the six months was allowed to elapse without the filing of a claim.

"The failure to file a claim within six months cannot be held to be due to 'mistake or other reasonable cause' as those terms are used in law.

"The claim for compensation is dismissed."

**YOUNG WOMEN'S CHRISTIAN ASSOCIATION SECURES MANY NEW MEMBERS IN CAMPAIGN**

More than 100 members have been secured by the Young Women's Christian association as a result of the campaign which is being held for an increase in membership. There were about 70 Y.W.C.A. members at the supper tables in Kitson hall last night and the report of the "Double You" campaign proved to be a very encouraging one. During the supper the girls sang association songs and the campaign leaders were cheered to the echo.

The war council, \$1,000,000 to be used for the women of France and Russia, appeal to women to set aside their personal inclinations and sacrifice themselves as are the men, in the doing of the task before them. The climax of the conference was reached in Miss Margaret Slattery's thrilling appeal for the patriotism of the women of America. Mrs. Francis Sayre, President Wilson's daughter, gave a stirring, earnest appeal to women to set aside their personal inclinations and sacrifice themselves as are the men, in the doing of the task before them. ## REDUCE BUTTER RATION IN GERMANY

COPENHAGEN, Nov. 8.—The butter ration in Greater Berlin has been reduced for the winter to 20 grams, approximately one ounce weekly. Fifty grams of margarine are also granted but the newspapers point out that war margarine is principally water and has slight nutritive value.

Food Minister von Waidow has announced that a special department could be organized to enlighten the people on the food situation. This announcement evoked the comment from one newspaper that "the stomach cannot read."

## LONDON PAPERS COMMENT ON ARRIVAL OF AMERICAN WAR MISSION IN ENGLAND

LONDON, Nov. 8.—The arrival in London of the American mission, Col. House's statement to the press, and the announcement of the American state department fill a conspicuous place in the morning newspapers. Editorially, the Times says:

"The theory that America stands more or less aloof from the allies may still survive, but henceforward she shares our inmost counsils, not only regarding the objects of the war, but as to the way to win it. In several points lately things have not been going too well for the allies, but none of their reverses or disappointments matter if only the great war power of the United States is directed rightly to the common end."

## BLAME GERMANS FOR FOOD SCARE

BOSTON, Nov. 8.—There is an old saying to the effect that the worst of our troubles are those that never occur, which finds apt application to the present scare over a scarcity of salt and flour.

It is ridiculous to suppose that the 655,000,000 bushels of wheat which have been raised and harvested this year, together with that which was carried over from last year's crop, is exhausted or even likely to become exhausted right away.

The truth about wheat is that while we have not all that we could wish was available, in view of the fact that we must feed the allies as well as ourselves, there is no danger of a famine. If the people of the country will keep cool and give the millers and the food administration half a chance, there will be enough flour for all normal domestic requirements.

The salt industry of New York state has not suspended, as one would infer from the hurried and feverish demand recently that the supply was none too generous. This demand not only has cleaned up all the stock the railroads had on hand, but has made such a cut in the holdings of the wholesalers that they are now obliged to apportion what they have left.

The labor supply is none too plentiful, and the salt industry, like a good many others has suffered somewhat from this fact, as well as from the lack of normal transportation facilities. But the salt manufacturers are still doing business, and many in said with absolute confidence that the shortage which exists locally at present will soon be relieved.

It is believed in responsible quarters here that the stories which have cropped out lately about the shortage of this or that article of common everyday use, are more than German propaganda, which aims to keep the people of the country in a ferment about food supplies and thus break down the purpose of the country to see the war through to a successful conclusion.

There promises to be no pecuniary gain to consumers in loading up with sugar, salt, flour or any of the common everyday articles of food, because the government now controls the prices, and in the operation of this control prices are not likely to be higher and probably will be lower later on for practically everything in this class.

### More Flour Produced

Boston has not, at present, a very large supply of flour; there is no disputing this fact. The figures of warehouse stocks, at the beginning of the month, disclosed holdings of only about 15,000 barrels, and four men and whole sale and retail grocers freely admit that they have not large supplies.

If it were possible to learn the quantities held by families, it probably would be found that this city is not so short of flour as appears. Local receipts for the week, to date, have been in excess of those of the same period last year, and since all the flour that has come here this year has been high-priced, it is safe to say there has been little waste.

Light receipts lately may be explained by the inauguration of a food control law. The farmers at first did not take kindly to a price of \$2.20 a bushel for No. 1 Northern spring wheat, with other grades lower in proportion to quality, and were inclined to hold in the belief that they could force the government to raise the price basis to 200,000 barrels, so that the farmers are not entitled to more than \$1.50 a bushel for their wheat.

It is hinted that German propaganda had something to do with the holding tendency after harvest time. The farmers, however, have finally seen the light and the latest word from the flour milling centers is that the mills are now running 100 per cent capacity.

In Minneapolis alone in the week ended Wednesday, the output of the mills was more than 511,000 barrels, an increase of 60,000 over the output of the previous week. Milwaukee and Duluth also have jumped ahead sharply in production and coming east to Buffalo and other western New York flour centers, there has been a big increase in production.

It is idle to suppose that with the production increasing Boston is long going to be short of supplies.

Since there is no danger of higher prices, vigilant government fixing the price, dealers say people should keep their heads and buy supplies as needed, not only of flour, but of everything else. The scare about sugar is a real one, but that in salt and flour is largely the result of scared buying by those fearing a famine.

### GEORGE F. LEHY, FIRST PRESIDENT OF BOSTON CITY CLUB, DIED SUDDENLY

BOSTON, Nov. 8.—The funeral of George Bernard Lehy, the first president of the Boston City club and member of many business and civic organizations, will be held at 9 o'clock tomorrow morning, with a solemn high mass of requiem at St. Leo's church, Dorchester. Further arrangements will be made this morning upon the arrival of the deceased's brother, Rev. John J. Lehy, S.J., treasurer of Holy Cross college, Worcester.

Mr. Lehy died of heart disease late Wednesday evening at his home at 43 Algonquin street, Dorchester, in his 45th year. On Wednesday he attended, as a member, the meeting of the committee appointed to fix the price of coal. In the late evening he suffered an attack of heart weakness and died within a few minutes of the arrival of the family physician.

He had been prominent in civic work

We believe the public will appreciate our sacrifice of profit in continuing the old price in spite of the tremendous increase in the cost of manufacture. You can buy Dr. Caldwell's Syrup Pepsin from your druggist for fifty cents or one dollar a bottle.

in clubs and organizations and banking circles. He was the first president of the Boston City club, had been president of the Boston Fruit and Produce Exchange, was a member for five years of the Boston finance commission, and as a member of the chamber of commerce, served as a director and president of the city fund and as a member of the gratuity fund committee.

Mr. Lehy was born in South Royalston, Oct. 13, 1855, and was educated in the country schools and at Holy Cross college. He conducted a grocery store in Leominster, and afterwards traveled for a firm in Pittsburgh and New York. He became a member of the firm of Pines & Lehy, produce dealers, and later joined the firm of W. S. Quimby & Co. 69 Market street, produce dealers. He became president of the firm.

He had been a director of the Fourth Atlantic National bank, and a trustee of the Union Institution for Savings. In June, 1914, he resigned from the Boston finance commission after serving for five years. On the death of John A. Coulthart, he was elected to fill the former's unexpired term in the Boston city council.

Mr. Lehy in politics was a democrat. He was a member of the Knights of Columbus and a member of the Charitable Irish society.

Mr. Lehy married in May, 1880, Miss Abbie M. Lewis of South Royalston, with whom he had attended school. He is survived by his wife and a brother.

### AMUSEMENT NOTES

**B. F. KEITH'S THEATRE**  
Good music from cart wheels, horse shoes, anvils and forges is brought out by "The Musical Blacksmiths," appearing at the B. F. Keith theatre this week. But a change is made from the atmosphere of the smithy to that of the drawing room in very quick time. Novelty adds to the musical renderings of the act, which is altogether one worth while. Neat comedy, put over in a dominating manner, is supplied by Quigley, Fitzgerald and Hal Kelley and Eunice Sauvain also furnish an abundance of good comedy.

After the manner of musical comedies of the day, the musicals are full of a blackface turn, and Keeley Bros. & Co. June, 1914, he resigned from the Boston finance commission after serving for five years. On the death of John A. Coulthart, he was elected to fill the former's unexpired term in the Boston city council.

Mr. Lehy in politics was a democrat. He was a member of the Knights of Columbus and a member of the Charitable Irish society. Mr. Lehy married in May, 1880, Miss Abbie M. Lewis of South Royalston, with whom he had attended school. He is survived by his wife and a brother.

### OPERA HOUSE

The New Emerson Players, ennobled as one of the best stock companies in New England, appearing in "The Silent Witness," a dramatic creation that scored a sensation in the metropolis with a few seasons ago, which was released for the stock stage only recently, are making one of the biggest hits in local theatrical circles that has been recorded in seasons. The Silent Witness company has characterized its efforts in the past by endeavoring to give only the best to local patrons, and in their latest efforts they have certainly succeeded in providing the very best entertainment obtainable for the price. Those who have witnessed the clever interpretation of this wonderful stage vehicle by Otto Hauerbach are unanimous in the opinion that it is the strongest and most gripping story of a season. In it the entire cast is seen to advantage. The characterization of the principal roles is done with a smoothness and finish that is seen only in high-priced theatrical circles. Miss Francesca Rotoli and Douglas Dumbrell are reflecting the rare talent in their respective parts, while the slight comedy touches of the piece are ably handled by Miss Sidney, late of the John Craig Players of Boston. Arthur De Lord, the juvenile man, and Claude De Lord are also seen in parts that bring out their capabilities as actors of a superior brand. Only a few seats are left for the remaining performances. See it now or you will suffer disappointment. Next week "Which One Will I Marry?" a discussion of the great question in every woman's life.

At the Monday night's performance the management will give free to the holder of the lucky reserved seat coupon an order for \$25 worth of merchandise at the store. Get your seat now and it's free! This offer is bona fide and is good only for Monday night. All persons holding a reserved seat coupon, whether it be 50, 20 or 20 cents, are eligible. No one attached to the theatre in any way will be permitted to win the award.

**THE STRAND**  
The French official war pictures called "In the Wake of the Hun," which are being shown during the last three days of the week at The Strand, are perhaps the most vivid reproductions of what German "kulturs" means that this country has ever seen. These pictures were taken by what is known as the Cinematographic Division of the French army and were only released for public use in this country a short time ago. The royalties paid for the use of them go to the French government to aid the French soldiers and other victims of the war.

The public generally has read and re-read the graphic word-picture concerning the devastation wrought by the retreating Huns along the French front, and the terrible destruction done by them, not only in the cities and towns of the district occupied by them during their unsuccessful march to Paris, but in the outlying districts. And what makes them all the more interesting in connection with the rush of the French army close on the heels of the retreating Huns, is the appearance of Gen. "Black Jack" Pershing and a division of American "Sammy's" marching briskly into a French town. The appearance of the Americans is a truly climatic to a really wonderfully interesting and instructive series of war pictures. See them. They are genuine.

As an added attraction, Mme. Petrova, in "Silence Sellers," a great dramatic screen creation, is being shown and this, too, is an attraction in itself. Mme. Petrova's unusual dramatic attainments are brought to the surface very forcibly in this picture. There are other pictures, including a Travelogue and a Keystone comedy.

OPEN FRIDAY NIGHTS TILL 9.30

# Clothing Values Supreme!

In these days uncertain qualities, on account of the advancing costs and scarcity of wool, thousands of men are turning to the Merrimack Clothing Co. for their clothes. Hundreds of these are new faces, and after investigating the reason this is what we hear—We know these are abnormal times and know it is wise for us to purchase our clothing at a Reliable Store with a

## Reputation for Quality and Square Dealing

Now, Mr. Man, if you have an Overcoat or Suit to buy this winter and want to be sure of the quality and at the same time don't object to saving about \$10 on your purchase, just make a double quick march to the Merrimack Clothing Company, across from City Hall, where you can select a dependable garment without any fear of it not wearing satisfactorily—you take no chances—every Merrimack garment is fully guaranteed or your money refunded. This is the Merrimack way of doing business.

## OVERCOATS For All Men

At Less Than Wholesale Prices Today

## CONSERVATIVE COATS at \$15 to \$35

These include Oxfords, Cambridge Grays and Blacks in models that are always in style. Some are lined with serge and some with heavy silk. We contracted for these coats when fabric prices were way below their present level, so the values we offer are most extraordinary, especially in Shuman coats at \$20.00 and the silk lined ones at \$35.00.

## Coats With Belts

These are what most of the young fellows are looking for this Winter, and here's where they're found in greatest numbers. There are several models in Chevots, Scotchies and soft warm fabrics in more colors than you can shake a stick at. The belts go all the way round—trench style.

\$15, \$18, \$20 Up to \$30

## And Without Belts

Some of these are form-fitting in dressy plain grays at \$25, but the majority are boxy Balmacans, a brand new creation with nifty slash pockets. Some have velvet collars. The much-wanted Scotchies are plentiful. So are the popular Melton fabrics. Coats without belts are—

\$15, \$18, \$20 and Up

## FIRE AT NEW ORLEANS ARMY CAMP

NEW ORLEANS, La., Nov. 9.—Fire starting from a defective flue in a quartermaster's building at Camp Nicholls, in the old city park race track near here, early today destroyed army quartermaster buildings causing a loss of several thousand dollars. Virtually all army supplies were removed. Difficulty in obtaining water caused army officials to fear the entire camp might be destroyed, and a general alarm was sounded. The flames were controlled after about two hours' fighting.

### SUN BREVITIES

Best Printing, Tobin's Asso. Bldg.  
A son was born yesterday to Mr. and Mrs. Alphonse Seignory of 13 Grand street.  
Mr. and Mrs. Simon Rock, of 23 Lily avenue, are rejoicing over the birth of a son, which occurred yesterday.  
The many friends of Mrs. Marcel Herbert of Lincoln street, will be grieved to learn that she is confined to her home with a serious illness.  
The Marshall Field Co., Chicago, says: "That the newspaper gets the news of their merchandise offerings to the greatest number of people in the quickest possible time." This kind of service is rendered in an unequalled manner in Lowell by The Sun, Lowell's Greatest Newspaper.

### NEW NATIONAL PARTY TO HAVE CONVENTION IN THIS PLANS PROGRESSING

NEW YORK, Nov. 9.—Announcement of a national convention early in 1918 at which plans will be made for placing candidates in the field for the congressional elections later in the year, was made in this city yesterday by the national party, which was formed in Chicago in October through a coalition of prominent progressive, prohibitionist, single taxers, socialists who withdrew from the socialist party, and independents. The time and place of the convention are yet to be chosen.  
John Sprague of Vermont, director of propaganda and education of the party, said an effective organization was being built up and that the party's campaign would be made on "complete and unswerving loyalty to the allied cause."  
Other planks in the national party platform, Mr. Sprague said, will be prohibition for the period of the war, equal suffrage by federal amendment, maximum free speech consistent with the national safety and abolition of poll-taxing.  
Officers of the party are: Chairman, Dr. Ira Landrith of Tennessee; vice chairman, David A. Coates, Washington; Virginia C. Hinshaw, Illinois; Matthew Hale, Massachusetts; J. G. Phelps Stokes, New York; and Mrs. Annie E. K. Bidwell, California; secretary, Fred H. Chase, New York; treasurer, William P. Cochran, Maryland.  
Prof. Ellen Hayes, Wellesley, Mass., is a member of the executive committee.

## SEN. LA FOLLETTE SUES FOR \$100,000 DAMAGES

MADISON, Wis., Nov. 9.—Suit of \$100,000 damages was filed today on behalf of Senator La Follette against the Democrat Printing Co. and O. D. Brandenburg, president and editor. The action is based on alleged libels contained in editorial utterances, news despatches, quotations from other newspapers and magazines and condemnatory resolutions published in the Democrat and intended to show that the senator was giving aid and comfort to the enemy. Mr. Brandenburg announced that the paper will say editorially that it welcomes the test afforded by the suit.

### GOAT'S MILK CHEAP, HEALTHY SUBSTITUTE FOR COSTLY COW'S MILK

If high prices are getting "your goat," come right back at them by getting a real goat.  
Goat's milk has been repeatedly suggested by many as a cheap and available supply of this necessary food.  
Medical men in favor of using goat's milk say that although the goat may be infected experimentally with bovine tuberculosis it is in the natural state immune to the disease.  
Dr. Noard in France some years ago showed that among 130,000 goats and kids slaughtered for food not one suffered from tuberculosis.  
It has been contended that the odor of the male goat makes the milk unpalatable, but this objection may be overcome by keeping the milch goats in separate and clean barns.  
The goat as an economic proposition is to be seriously considered in war times. It will eat practically any variety of grass or herbage and can, in fact, extract a good living from ground that would support no other animal.  
The goat, in spite of its odor, is a clean animal, and the flanks and udder do not become dirty as in the case of the cow.  
Goat's milk is richer in various body building properties than is either human or cow's milk, especially in proportion of casein.  
The following table of percentages gives some idea of the value:

	Casein	Fat	Sugar
Human milk	2.5	3.2	6.8
Cow's milk	3.5	8.76	4.75
Goat's milk	4.20	8.76	4.94

### Health Questions Answered

E. C. M.: "Frequently I feel as though I were on the verge of a nervous breakdown. What should I do to prevent such an occurrence?" Be examined at least twice a year by your physician and then follow his instructions regarding a rational daily regime.

### UNITED IRISH LEAGUE

President Connolly, of the local United Irish League, has called a meeting for next Monday evening for the purpose of talking over the situation in Ireland and taking such action as may be deemed necessary.

# A Good Time to Select Your Overcoat

He's a wise man who picks out his Overcoat now. Wise in more ways than one.

He takes his pick from the cream of the stock—he has a wider assortment of colors, weaves and patterns to choose from; and, when that unheralded cold weather arrives he is ready.

The next time you are in the vicinity, step in and look over our fine overcoats from those good clothes-makers—

### FUNERAL NOTICES

**GRAVEN**—Died at the Lowell General Hospital, Nov. 8, Mrs. Emily L. Craven, aged 64 years, 7 months and 29 days. Funeral services will be held at her late residence, 218 Stevens street, Sunday afternoon at 3 o'clock. Friends are invited without further notice. Please omit flowers. The burial will be private at Westford, Mass. The funeral arrangements are in charge of Undertaker George W. Healey.

**DEMPSEY**—The funeral of Joseph M. Dempsey will take place Sunday afternoon at 3 o'clock from his home, 39 Bachman street, Burial in St. Patrick's cemetery. Monday morning a mass of requiem will be sung at St. Michael's church at 8 o'clock. Undertakers James P. O'Donnell & Sons.

**HARRIS**—The funeral of Daniel Harris will take place Monday morning at 8 o'clock from his late home, 323 Worthen street. Burial in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers James P. O'Donnell & Sons.

**HORMAN**—The funeral of Charles J. Horman will take place Saturday morning at 8 o'clock. Public prayers Friday evening at the home, 27 Mill street, Collinsville. Burial by the pastor of St. Mary's church, Collinsville, at 8 o'clock. Friends invited. Monday morning a mass of requiem will be sung at St. Mary's church, Collinsville. Burial in St. Patrick's cemetery, Collinsville, Conn., in charge of Undertakers James P. O'Donnell & Sons.

**KENNEY**—The funeral of Mr. John Kenney will take place Saturday morning at 8 o'clock from his late home, 130 Cross street. High mass of requiem at St. Michael's church at 9 o'clock. Interment will be in St. Patrick's cemetery, in charge of Funeral Director James W. McKenna.

**SAGGS**—The funeral of Mrs. Mary Saggs will take place from her late home, 130 Cross street, Saturday morning at 8 o'clock. Services at St. Patrick's church at 9 o'clock. Burial in St. Patrick's cemetery. Funeral in charge of C. H. Molloy's Sons.

**SPRAGUE**—Died in this city, Nov. 8, at his home, 120 Sprague avenue, Levi Kirk Sprague, aged 67 years, 7 months and 2 days. Funeral services will be held at the chapel of the Lowell cemetery on Saturday afternoon at 2 o'clock. Friends are respectfully invited to attend. The funeral arrangements are in charge of Undertaker William H. Sullivan.

**TAYLOR**—Died in Abington, Mass., Nov. 8, at her home, Mrs. Emma A. Taylor, aged 71 years, 11 months, 4 days. Funeral services will be held at the home of her daughter, Mrs. Amelia A. Taylor, 8 Bleachery street, this city, on Sunday afternoon at 2:30 o'clock. Friends are invited without further notice. Burial private. The funeral arrangements are in charge of Undertaker H. A. Simmons.

### DEATHS

**DEMPSEY**—Joseph M. Dempsey, aged 18 years, died early this morning at his home, 39 Bachman street. He leaves a mother, Mrs. Mary Dempsey, two sisters, the Misses Katherine G. and Mary B. Dempsey. Deceased was a member of the Holy Name society of St. Michael's church.

**TAYLOR**—Mrs. Emma A. Taylor, mother of the late Levi K. Taylor, died Thursday afternoon at her home in Abington, Mass., after a long illness, aged 71 years, 11 months, 4 days. She is survived by one daughter, Mrs. Amelia A. Taylor of this city; one granddaughter, Miss Mabel Taylor of this city; and one nephew, Mr. Albert Warren of Everett. The body was removed to the funeral parlors of Undertaker H. A. Simmons, 56 Branch street.

**SPRAGUE**—Levi Kirk Sprague died at his residence, 120 Sprague avenue, this city, last evening, of heart trouble, after a brief illness. Mr. Sprague was the son of the late Levi and Lydia

P. Sprague and was born in Lawrence, April 6, 1850. His father came to Lowell soon after and was active in many of Lowell's industries, and a prominent contractor. Kirk entered the contracting business with his father, but soon dropped it, and took up farming, in which he was much interested. He was educated in the Howe school, Billerica, then a private school, and in Saco, Maine. He leaves a wife, Susan P. Sprague, and a daughter, Mrs. Rachel L. Dexter, and a brother, William H. Sprague, and two sisters, Mrs. Mary J. Mansur of Lowell and Mrs. Augusta Sewall of Albany, N. Y.

**BROWN**—Frank A. Brown, formerly of this city, died Oct. 31 in Troy, N. Y., where he has resided for many years. He was aged 52 years and 11 months. The son of the late Frank J. and Mary E. Brown, the deceased was born in Lowell, Dec. 3, 1865 and received his early education in the Bartlett and Edison grammar schools. Later he graduated from the Lowell high school, after which he was connected with the Morning Times, an early Lowell newspaper, for about 10 years. Severing his connection with the Times, he took a position as foreman in the printing department of the Western Liniment Co. of this city. For several years following, he was proprietor and publisher of the Dracut Tribune and the Chelmsford Tribune and at the time of his death, he was architectural salesman for the American Type Foundry with offices at Troy, N. Y., previous to which he had been superintendent of the printing department of the Hartford Fire Insurance Co., of Hartford, Conn. Mr. Brown leaves a wife, Alverna; two sons, Edward and Robert; and three sisters, Miss Ella Brown, Mrs. Anna Cole and Mrs. Mildred Cole of Mechanicsville, N. Y.

**GRAVEN**—Died Nov. 8, at the Lowell General Hospital, Mrs. Emily L. Craven, aged 64 years, 7 months and 29 days. She is survived by three daughters, Miss Blanche M. Craven, Mrs. Robert H. Elliott and Mrs. John Wallace, in Ireland; and by two granddaughters and four grandnieces.

**CHRISTIAN**—Mrs. Eustache Christian, nee Helene Lamarge, died last evening at her home, 120 Sprague street, aged 81 years and 11 months. She leaves her husband and two daughters, Mrs. Josephine Hebert and Mrs. Napoleon Champagne. She was a member of St. Anne's sodality of St. Joseph's parish.

**FRYE**—Mrs. Faye, former janitor of the Pilgrim block, Lawrence, died last night at her home in Andover, aged 84 years. Mr. Faye had been janitor of the Pilgrim block since the time it was built in 1891 until about seven years ago, when he retired. He is survived by one daughter, Mrs. Mary O'Brien of Lowell, and one son, James of San Francisco.

**LIPTON NOT TO BUY "AMERICA"**  
BOSTON, Nov. 9.—Sir Thomas Lipton, who had expressed a desire to purchase the schooner yacht America, called the owners today that since being advised that the ship was in intention to preserve the historic craft he had no further interest in the matter. The message was in reply to one sent by the owners asking for what purpose Sir Thomas wanted to buy the America.

## COMMISSIONER WOODS OF NEW YORK TO RESIGN

NEW YORK, Nov. 9.—Police Commissioner Arthur Woods, appointee of Mayor Mitchell, announced today his intention of resigning to take effect Dec. 31, the day the present fusion administration, defeated for re-election by the democrats, goes out of office. His term under the law would run until April, 1918. He could be removed from office sooner only after a public hearing.

Administration of the police department is usually a chief issue in mayoralty campaigns here, although no great point was made of it in the recent election.

**SEATTLE, Wash., Nov. 9.**—Before the end of next season the first regular train service over the coast end of the Alaska government railway will be established, according to a statement today by William C. Cades, chairman of the Alaska railroad commission which is here.

The Alaska railroad is to be 508 miles in length and 245 miles already have been completed.

Delaney of 517 High street, won three first prizes, the winner's ribbon and a special at the show held at the Hotel Brunswick in Boston last evening under the auspices of the Y.T.C. of A. for the benefit of the dogs and horses in the war.

"Pitsey Babe," Tillie A. Brackett's toy poodle, won three first prizes, the winner's ribbon and two specials at the same show.

### SEC. DANIELS URGES ALL TO SUPPORT WAR CAMP COMMUNITY SERVICE

WASHINGTON, Nov. 9.—The four million dollar fund being raised this week for the war camp community service will, in the opinion of Secretary Daniels, do its part toward making American fighting men ideal types of the democracy they represent. The movement, he declared, cannot be supported too strongly.

A prisoner and complainant, by consent of the judge, recently retired to a jury room and exchanged trousers for the Calais, Me., coat. The prisoner was wearing some new trousers he took from James Murphy of Princeton and said he would give them up if he had some others to wear to jail. Murphy exchanged the old ones he was wearing for the new ones.

## BROADWAY CLUB ANNIVERSARY

The third anniversary of the Broadway Social and Athletic Association was celebrated with a banquet at the Waverly hotel last evening, and the affair, like all others conducted by this prominent organization, proved a success in every particular. There was a large attendance and all greatly enjoyed the appetizing supper, the eloquent addresses and the excellent musical and literary numbers.

The speakers included Mayor O'Donnell, Commissioners Morse, Brown and

JEREMIAH J. O'SULLIVAN,  
Toastmaster

Warnock, Rep. Dennis A. Murphy, Rep. Charles H. Slowey, President Timothy O'Sullivan, Jeremiah J. O'Sullivan, Sheriff Martin Conway and William H. Sullivan. Musical numbers were furnished by Walter Poullet, Commissioner James E. Donnelly, George Bolen, John Shugrue and John Stapleton. The affair this year held more significance than any previous event, and this fact was brought out very forcibly during the progress of the festivities. Since the organization of the club, five of the members have been called to their reward, the club members have purchased over \$1500 worth of Liberty bonds, and it has contributed 12 members to the service. All these facts were touched upon, and a silent tribute was paid to the departed members, with Commissioner Donnelly singing "Absent Brothers." The soldier members of the club who were able to secure leave from duties were present, and occupied seats of honor. They were praised for their patriotism and loyalty, and a toast was offered for the mothers of the boys in khaki.

The exercises last evening opened shortly after 8 o'clock, and after the dinner had been satisfied, President Timothy O'Sullivan rapped to order and extended a cordial welcome to all. He also took occasion to thank the members for again electing him to the

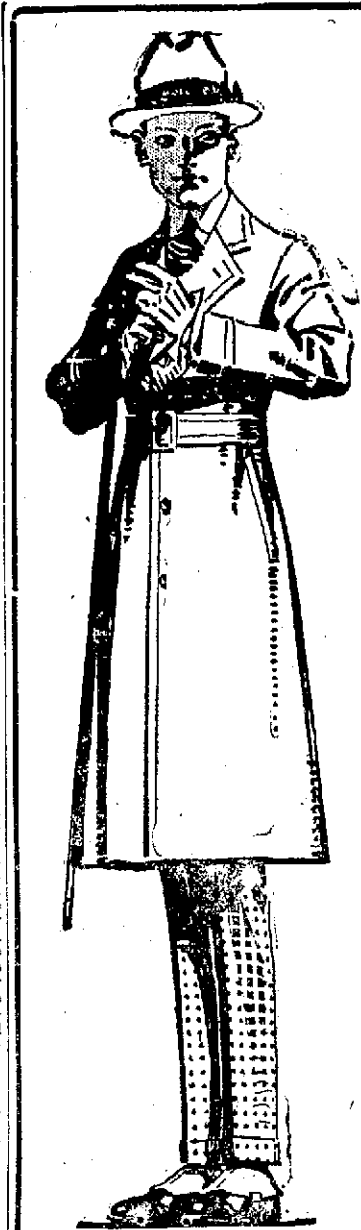

high office of president and said that he hoped all would continue to render him their co-operation and assistance. He said that whatever success his administration had enjoyed was due to the undivided support he had received from all connected with the club. He pledged himself to continue to discharge the duties of the office in the same manner as in the past, and urged all to continue their interest in the club's affairs.

Jeremiah J. O'Sullivan, Esq., a member of the club, was then presented as toastmaster of the evening. He received a great reception for his pre-eminent work as toastmaster at the last anniversary banquet was fresh in the memory of all. He thanked the members for again honoring him and told of the great pleasure it gave him to attend the affairs conducted by the club. He said that the prominent position held by the organization was shown by the presence of all members of the municipal government. The state was represented by two members of the legislature, and good old Uncle Sam by the soldier members of the club. Rep. Dennis A. Murphy was next called upon, and he was accorded an ovation. He thanked the boys for the reception and said that he wanted to again express his gratitude for what they had done for him in the past. He assured them that he would always cherish an opportunity to show his appreciation of their many favors.

Mayor O'Donnell

Mayor O'Donnell was received with cheers and he bowed in recognition of the reception. He said that while he was not a member of the club or a resident of that section of the city, he was always a member and resident of the Acre in spirit. He said that he always had the greatest respect for the type of people from that part of the city, for they were a credit to the community. He said that he was pleased to see that the members appreciated the true worth of their popular representative in the legislature, Dennis A. Murphy, and that he joined with them in wishing him continued success. The speaker congratulated the club for its contribution to the liberty loan and for its great showing in sending 12 of its members to assist the United States government to make the world safe for democracy. The mayor concluded by thanking the committee for inviting him to attend the banquet and hoped that the club would enjoy many years of success and prosperity.

Other Speakers  
Rep. Charles H. Slowey, a colleague of Rep. Murphy, was enthusiastically greeted, and he said that he wanted to thank the members for all that they

had done in his behalf in the past, and said that he would always remember their many kindnesses.

Sheriff Martin Conway spoke prominently of the days when the old North common ball team came out to his town, Billerica, to play ball. He told

of the many great battles on and off the field, and said that he would always remember the boys from the Acre for their loyalty and devotion to one another. He closed by paying a glowing tribute to Rep. Murphy.

William H. Sullivan spoke along congratulatory lines, and expressed his thanks for the opportunity to be present at the third anniversary banquet. At this point Toastmaster O'Sullivan said that he would request all to stand and pay a silent tribute to the five members of the club who have passed away. The list of departed brothers was read as follows: Raymond McGrath, Walter Stockbridge, Michael Driscoll, Thomas Tague and Benjamin Dunn. Commissioner Donnelly came forth and sang "Absent Brothers," with all joining in the chorus.

The affair was brought to a close with all singing "The Star Spangled Banner." The officers of the Broadway Social and Athletic club are: President, Timothy O'Sullivan; Vice President, Martin Peeney; recording secretary, John Shugrue; financial secretary, Richard P. O'Brien; treasurer, Peter P. Brady; board of trustees, William A. Walsh, George Mullen, John Riley, William R. Kiernan, John Clancy; sergeant-at-arms, James Winn; literary committee, John Stapleton, Stephen Shugrue, William Madden, James Clinton and Fred Lawton.

**BOOK PAPER MAKERS AGREE TO STOP ALLEGED PRICE-RAISING PLOT**

WASHINGTON, Nov. 8.—Book paper manufacturers yesterday made an agreement with the federal trade commission which alleged unfair trade practices will be stopped and no further action will be taken on the commission's complaint that the manufacturers conspired to enhance prices.

Manufacturers doing an annual business of \$30,000,000 are affected by the agreement.

The commission's order was one of the most sweeping ever issued by that body to protect the public against concerted price raising. Dissolution of the bureau of statistics maintained by the book paper manufacturers, and charged with having been the medium through which they acted, first was ordered, and then each and all the respondents to the complaint were directed to desist forever from continuing membership in the bureau, from reorganizing it or from becoming members of any similar organization.

The manufacturers also were ordered to cease engaging in any concerted movement to enhance the prices of book print paper, to maintain such enhanced prices, to bring about substantial uniformity of such prices or to effect or maintain such enhancement to uniformity through telephone communication, correspondence, personal meetings "or in any other manner whatsoever."

Charles F. Moore of New York, secretary of the bureau of statistics, individually was named in the order and ordered to desist from all the practices complained of.

**HELD REGULAR MEETING**  
A regular meeting of the members of the Union Garin Nationale Independent was held last evening in the quarters of Club Citizens-Americans in Middle street. President Etienne Raymond occupied the chair and routine business was transacted. Two applications for membership were received.

**WAGE BARNERS' CLUB**  
The members of the executive board of the Wage Barners' club held a meeting Wednesday evening and voted to take an active part in the coming municipal primaries. Routine business was transacted and it was voted to hold another meeting Saturday evening.

**CERCLE D'YVOVILLE**  
An important meeting of the members of Cercle d'Yvoville was held last evening in Grafton hall with a large attendance. Miss Eva Dupuis presided and plans for an entertainment for the benefit of the Red Cross were discussed. At the next meeting a committee will be appointed to make arrangements for the event.

**MARANTVILLE TO ENLIST**  
BOSTON, Nov. 8.—Walter Marantville, shortstop of the Boston National league baseball team, visited the navy yard yesterday and announced that he would enlist in the summer of 1918. He will take his examinations next week.

**U. OF PENN. TO MEET DARTMOUTH**  
PHILADELPHIA, Nov. 8.—The University of Pennsylvania football squad left here today for Boston where the team will meet Dartmouth on Saturday. Including coaches and managers there were 45 men in the party. Because of the war Provost Smith requested a "silent send-off" for the squad so the usual noisy demonstration at the railroad station was dispensed with.

**U. S. DUNTING CLUB**  
The Dunting club of this city is making arrangements for a very busy social season during the winter months. A pool and billiard tournament between the members for the championship of the club is now being arranged by Mr. George Underwood, the chairman of the pool committee.

The first of the series of games to be played between the Buntings and the French-American citizens club is scheduled to be held at the Buntings club next Thursday night, Nov. 15 and as is the usual custom, the Buntings will be present in large numbers to greet their French-American friends and endeavor to retrieve their defeat of last year in whist, billiards and other games.

Last Sunday, the Buntings were honored with a visit from the Rogers club of Lawrence, and the Rogers of Lowell saw to it that they were entertained during their brief stay. The present management is making a determined effort to clear off the floating debt before May 1 and the prospects are bright that their efforts will be crowned with success. New members are coming along fast, as each member has been asked to bring in at least one new member before May 1 and every member is hustling selling tickets for the annual Christmas cheer to be held at the club house Christmas eve.

**POLO NOTES**  
The first local game in the new polo league, it is expected, will be played next week, and the management of the Holladay rink where the

HURD STREET

There is considerable detail attached to the opening of the polo league here. Lights will have to be changed, a cage built, bleachers erected, and Manager Moore promises that the

local rink will be completed before the first clash. He plans to make his rink one of the best in the circuit, and will spare nothing to provide the fans with an ideal place to enjoy the game.

Ferdie Harkins, who will act as placing manager for the Lowell polo team has been given the power to assemble his team, and will also have complete charge of the playing end of the games. Mr. Moore will look after the business plans.

Member of the Associated Press

## LYNN ADOPTS NEW CHARTER

The notable thing in connection with the voting of cities on various forms of charters in Tuesday's election, was that Lynn repudiated the commission form of government and adopted a charter providing for a mayor and city council of eleven members, one from each ward and four at large. It also provides for a school committee of six. The charter has a provision for the referendum and recall.

In so voting the city of Lynn has set a fitting example to Lowell in how to improve conditions in reference to our city government.

The commission of five is too small. The interests of a city of 111,000 people cannot be safely entrusted to a board of three men of whom one may be a dictator and the other two merely his tools.

The city of Lynn found the same objections to the commission form of government as does Lowell.

The commissioners are paid good salaries for devoting their time to the departments under their charge, but in many cases they interfere with the work of the departments to such an extent that they demoralize the business thereof. The old arrangement under which the head of a department would be held strictly responsible to the mayor and city council was much preferable. If he did not do his work, he could not say the commissioner prevented him, and the mayor, if given the power, could easily remove him.

The city of Lowell needs a charter that will provide a council of about fifteen, as we have heretofore suggested. There should be one from each ward and six elected at large. Such a council, with a mayor exercising the veto power, would provide all the checks and balances of the old bicameral system and it would at the same time overcome the danger of placing the city's interests entirely in the hands of three men. Besides, it will put an end to the dangerous practice of having any set of men vote their own appropriations and be their own masters in spending the money.

There is a strong sentiment throughout the city for such a change in the charter as will give us a larger council, ward representation, and make possible the choice of more representative men.

The city of Haverhill rejected the proposition for a charter providing for a city manager. This is but a fad that carries some of the worst defects of the commission form of government to a ridiculous extreme. Elect five men of mediocre ability and three of them can choose a manager who will be a pliant tool in their hands. To place the city's interests in the hands of three men is bad enough, but it would be still worse to commit them to the whim of one man—the city manager.

Haverhill will undoubtedly adopt a charter such as Cambridge has at present and such as Lowell should have in the near future, with a mayor vested with some authority and a thoroughly representative city council, not of five but of eleven or fifteen members.

## MISS RANKIN FOR SENATE

Miss Jeanette Rankin, elected to congress from the state of Montana, has concluded her first session and, having had considerable encouragement, she may run for the senate against Senator Walsh when he comes up for re-election.

As she was the first and only woman in the national legislature, she regards herself in a large way as the representative of all the women of America.

In states where women have the full franchise there are more than 8,000,000 women of voting age; there are millions more working and wishing for the vote, and many millions of them are curious—watching, all of them, to see what this single woman will do with a real vote.

Miss Rankin has just made a report for the benefit of these women, enfranchised and otherwise.

Conscious of her particular responsibilities, almost every bill introduced by Miss Rankin was designed for women's aid.

On her first day Miss Rankin introduced a bill proposing a constitutional woman suffrage amendment, never reported out of committee. Miss Rankin then concentrated on getting a woman's suffrage committee in the house and was largely instrumental in the success of this measure.

Only one of Miss Rankin's preferred resolutions was adopted—the amendment to the food survey bill which provided that wherever possible, women be employed in work authorized by the bill. Miss Rankin also introduced a bill, still before the committee on military affairs, providing for the support of soldiers' dependents.

The congresswoman cast her vote against the declaration of a state of war and against the draft until final passage, when she voted for it. Since conscription and war have been nationally accepted, she has consistently cast her vote in support of every war measure.

There is slight doubt that Miss Rankin will soon have other women associates in congress. She being the first will have priority, but otherwise no special distinction. The

women of the suffrage states will undoubtedly endeavor to send some of their great leaders to congress.

## THE RUSSIAN OUTBREAK

The outbreak of revolution led by the radicals in Petrograd is an ill omen not only for the future of Russia, but in some degree for the effect upon the war situation. The avowed object of the movement is peace and hence Premier Kerensky and his cabinet, who were determined to keep on fighting, have been deposed or arrested. It is difficult as yet to say just how far this outbreak will be sustained in Russia, although the people who have already suffered much from the war want peace regardless of the consequences. They consider only their own safety and the means of obtaining it.

It is well known that German agents are working among the radical leaders urging peace and undoubtedly promising many concessions such as passage of the Dardanelles, freedom in the Baltic and "German assistance" for commercial development. But even if Russia gets out of the war, the other allies must fight on. Their task will be much more difficult, but it must and will be met if it be necessary to redouble present efforts of the other allies, and even to draw upon the man power of China and India. Japan will now probably become a more active participant in the war, although she cannot operate on the eastern front if Russia ceases to fight.

## THE STRIKES

If the Germans were in control of the labor forces of this country, the worst they could do to injure the government would be to declare strikes in the ship yards, the navy yards and munition factories. There is a suspicion that the German agents are still busy fomenting trouble. The situation is daily becoming more serious and the need of haste in turning out our new ships is greater than ever. The government will have to adopt some means of stopping labor strikes before they spread any further, if it means to go on with the war.

## HELP THE RED TRIANGLE

The Red Triangle parade to be held on Saturday night is the opening of a great movement for the benefit of the soldiers, and all who are interested in the soldiers should turn out. The Y.M.C.A. draws no lines in its wide activities for the benefit of the men who are to fight our battles—the boys of Lowell included.

## SEEN AND HEARD

It looks like restless nights for the sugar storers.

Some men are so vain they run for office just to get their pictures in the paper.

The man who has a diploma from the school of experience is pretty well equipped to fight life's battles.

## A Nice Christmas Gift

"Want to buy a street car?" asks the Hay State Street Railway Co. and then goes on to say: "We have 300 old cars for sale. One of these cars will make a fine playhouse for the children. Old cars have also been used for henhouses and for other similar purposes. New cars that give even so much better service have been substituted for the cars that are for sale."

## This Happened in France

A group of Hingham boys who went "over there" in Massachusetts' first contingent were characters in a little playlet, we might caption "The Awakening," says the Hingham Journal. On landing at a port somewhere in France the boys went in search of a restaurant, for the wants of the inner man had been pleading for something different for two long weeks. A few minutes' walk and our heroes came to a restaurant that was very pretty without and more so within—with pretty girls as waitresses.

One of their "foreign" sisters was particularly a Gibson type of beauty, and as good fortune would have it she was assigned to wait on the welcome strangers. Several times she made trips to the boys' table and on every occasion she was subjected to good-natured criticism, such as "nothing like that in Hingham"; "I wonder if she's an only daughter"; and "Too bad she can't speak English, what a pleasant conversation we'd have." But like the last-minute omelet in the poem, she spoke not. Presently the meal was finished and the boys paid the bill, plus a tip to the young lady, who at this point burst out laughing and said in perfectly good English: "Well, boys, you're certainly welcome. How are all the folks across the pond, especially New York, where I was born?"

The scene shifts—four forms—made for the open air, and as they passed the store window they vent-

## WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of Danderine at any drug store for a few cents, pour a little in your hand and rub it into the scalp. After several applications all dandruff disappears and the hair stops coming out.

## LOOK AT CHILD'S TONGUE IF SICK CROSS, FEVERISH

When Constipated or Bilious Give "California Syrup of Figs"

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul and sour bile gently moves out of its little bowels without gripping and you have a well, playful child again.

You needn't coax sick children to take this harmless "Fruit Laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Turned a look over their shoulders and beheld a bevy of waitresses enjoying the laugh of their young lives.

## Rockland's Sugar Siege

The memorable "battle of too much spinach" never had a thing on the "sugar siege" in Rockland of the past two weeks, according to the Independent. Monday a woman with a wild, distracted look in her eyes crashed into a man near the postoffice. "Death in the family!" asked the man, rubbing the bump on his forehead. "No," gasped the woman, "I'm looking for sugar. The Blank Co. got some a minute ago and I must get some of it." "Come in a minute!" called someone from Estes' drug store to a passing acquaintance. "I can't possibly stop now," said the woman. "I've just got four pounds of sugar from two stores down the street and I've got five more sugar calls to make on the hill." Even the men, some of those who have drawn the line sharply on shopping errands, can be seen any day rushing from store to store with the hope that a stray pound or so may be diverted their way. Three hundred pounds of the precious stuff was shipped by a Boston wholesaler to his Rockland store, but through error the expressman delivered it to a local firm. The men who received it did not scrutinize the label very closely, and sold the entire lot before they discovered the mistake, which was rather tough on the other fellow. The shortage is revealing business methods. Some merchants hold all they receive for "special customers," while other firms give it out to one and all alike, with no strings attached while it lasts, and at a nominal sum at that. One firm, that Dame Rumor credited with having a surplus stock on hand when the siege came, charged 15 cents per pound, unjustly taking advantage of the critical situation. Another firm, realizing no doubt that there is no profit in the necessity, has not made any attempt to get any letting regular customers complain and hustle elsewhere.

## The Three Fishers

Three fishers went sailing away to the west.

Away to the west as the sun went down.

Each thought of his home, and of these he loved best.

And the children stood watching them out of the town.

For men must work, and women must weep.

And there's little to earn and many to keep.

Though the harbor bar be moaning.

Three wives sat up in the lighthouse tower.

And they trimmed the lamps as the sun went down.

They looked at the squall and they looked at the shroun.

And the night-rack came rolling up, ragged and brown.

But men must work, and women must weep.

Tho' storms be sudden and waters deep.

And the harbor bar be moaning.

Three corpses lay out on the shining sands.

In the morning gleam, as the tide went down.

And the women are weeping and wringing their hands.

For the men will never come back to the town.

For men must work, and women must weep.

And the sooner it's over the sooner to sleep.

And good-bye to the bar and its moaning.

—Charles Kingsley.

## HON. JAMES B. CASEY

## FOR MAYOR

## THE INTERESTING STORY OF PAWTUCKET BRIDGE—NO. 3

## RECAPITULATION

(The People of Lowell Pay the Bills)  
Original cost, Denman plan, rejected ..... \$ 80,000  
Actual cost, Nat. Eng. Co. ..... \$ 50,000  
Plus real estate and other costs ..... \$ 50,000  
Total cost to date ..... \$183,000

We have followed this very interesting enterprise from its inception.

We have agreed that the bridge was a worthy and much needed project, but we cannot delude ourselves into the conclusion that this was a sound contract.

We have noted: First, that the National Engineering Company had birth only a brief time before it received the contract.

Second, that it had no standing as a bridge construction company, since this was its first bridge contract.

Third, that the city was compelled to secure outside assistance to insure faithful performance of contract.

Fourth, that despite such assistance and heavy attendant costs, the bridge piers wilted under first high water pressure.

Fifth, that no effort has ever been made to collect a proportionate and equitable share of construction cost from the Locks and Canals Corporation.

Sixth, that construction of the bridge has dragged and dragged along since one year ago last June, when specifications called for completion of the bridge in four months.

A CONCRETE EXAMPLE OF CITY EXPENDITURES AND CITY MANAGEMENT OF THE PRESENT TIME.

## CONVERSE MEMORIAL LIBRARY DEDICATED AT AMHERST COLLEGE

AMHERST, Nov. 8.—Amherst college dedicated the Converse Memorial Library yesterday afternoon, John W. Simpson of New York of the trustees presiding.

In presenting the master key the donor, Edmund C. Converse, illustrated the relation of books to character by describing how J. P. Morgan in his own library in 1907 saved the financial world from panic.

President Alexander Meiklejohn received the gift and expressed the gratitude of the college to the workmen who built the library, the architects who designed it and the donor who gave it in affection for his brother.

William R. Mead of New York told the story of the Converse family which came to Salem, Mass., and whose members have been prominent in Boston's growth and the nation's industrial life.

Herbert B. Putnam, librarian of congress, discussed the relation of books to individual character and national development.

VON TIRPITZ ASKED TO STAND AS CANDIDATE FOR REICHSTAG

COPENHAGEN, Nov. 8.—Admiral von Tirpitz, former minister of marine has been asked by a committee of the conservative party to stand for election to the reichstag in the vacant Saxony district of Bautzen-Kamen. The Varwacis says that the parties of the Left will regard such a candidacy as a provocation. It says they undoubtedly will contest the election if von Tirpitz runs despite the political trace agreed upon at the outset of the war.

FUEL ADMINISTRATION TO LIMIT THE USE OF ELECTRICITY FOR SIGNS

WASHINGTON, Nov. 8.—Action to restrict the use of electricity for lighted advertising signs throughout the country will be taken soon by the fuel administration, when one or two local points are cleared up.

One course which has been recommended to the fuel administrator and is regarded as likely of adoption, plans to curtail the use of electricity for

## DANCE AT ASSOCIATE

Another of the popular dances of the winter season will be given at Associate hall tomorrow evening, the fun to begin at eight o'clock and to last until all are satisfied that they have had the best time of their lives. Broderick's orchestra will be on hand as usual with their best brand of music. Prices as usual.

signs during the early hours of the evening.

In large cities, where signs are lighted at twilight, just as street railways and subways are working at their limit of capacity, electric plants are forced to carry a very high peak-load by postponing the lighting of electric signs until the use of electric power goes back from rush hour to normal, the high peak-load will be avoided and much less coal will be required to produce electricity so used.

For Acid Stomach, Indigestion, Gas or Food Souring—Pape's Diapepsin

Instant Relief! Neutralizes excessive stomach acids, stopping dyspepsia, heartburn, belching, pain.

Do some foods you eat hit back—taste good, but work badly; ferment into acids and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, let this down: Pape's Diapepsin helps neutralize the excessive acids in the stomach so your food won't sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is upset you usually get happy relief in five minutes, but what pleases you most is that it helps to regulate your stomach so you can eat your favorite foods without fear.

Most remedies give you relief some-

times—they are slow, but not sure. "Pape's Diapepsin" is positive in neutralizing the acidity, so the misery won't come back very quickly.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder due to acid fermentation.

Dr. J. C. Pape, Lowell, Mass.

## REPORT KERENSKY ARRESTED

Continued

ministers of the provisional government who were arrested by the military revolution committee have been incarcerated in the fortress of St. Peter and St. Paul.

The confirmation was given by the commissioner in command of the fortress, who received The Associated Press correspondent and personally explained to him the details regarding the confinement of the ministers.

The cabinet members, he said, were all arrested at the winter palace after its surrender early this morning. They were taken to the fortress where they were placed in solitary confinement but were courteously treated. He gave the list of those taken into custody as follows:

M. Maslov, minister of agriculture; M. I. Tereschenko, minister of foreign affairs; M. Nikitin, minister of the interior; M. Liverovsky, minister of ways and communications; M. Bernatsky, minister of finance; M. Smirnov, state controller; M. Malyanov, minister of justice; M. Gerasimov, minister of labor; A. I. Konovalev, minister of trade and industries; Admiral Verdevskiy, minister of marine; N. Kishkin, minister of public welfare; M. Nizkovsky, who succeeded Gen. Verkhovskiy as minister of war; St. Kartashev, minister of religion and M. Tretyakov, president of the economical council.

In addition, Chief of Staff Bagratuni and many of his subordinates were arrested.

The commissioner said he did not know the whereabouts of Premier Kerensky, who had "run away."

It is impossible at this hour to ascertain what the casualties were in the winter palace battle, although they are reported not to have been many.

The palace which already had been stripped of most of its historic art objects, was completely denuded this afternoon of its tapestries and paintings. This was while the provisional government was still in control of the palace. The art treasures were taken to a place of its selection.

The cabinet ministers placed under arrest were A. I. Konovalev, trade and industry; M. Kishkin, public welfare; M. F. Tereschenko, foreign affairs; M. Malyanovitch, justice, and M. Nikitin, interior.

## Korniloff Imprisoned

PETROGRAD, Nov. 8.—The military revolutionary committee has decided to bring Gen. Korniloff, leader of the recent revolt, and his supporters to Petrograd, and imprison them in the fortress of St. Peter and St. Paul. They will be brought to trial before a military revolutionary tribunal.

## Women's Battalion Surrenders

The women's battalion, which was among the defenders of the winter palace, surrendered yesterday before the battle began.

A despatch received from Petrograd last night said the women's battalion and the other government forces holding the palace were compelled to capitulate under the fire of the cruiser Aurora and the cannon of the St. Peter and St. Paul fortress.

## Await Official Report

WASHINGTON, Nov. 9.—Both the state department and the Russian embassy today still were without any official advice of any character whatever on affairs in Petrograd.

The state department's last despatch from Ambassador Francis was sent from the Russian capital last Tuesday. The embassy's last despatch was sent from the capital on Monday.

In the absence of official advice officials of the embassy and the department continued to withhold comment.

## To Make Peace Offer

LONDON, Nov. 9.—Several trans-ports from Kronstadt arrived in Petrograd on Wednesday, carrying sailors who previously had sided with the provisional government, says a despatch to the Daily News from Petrograd. The correspondent gives the following extract from Nicolai Lenin's address to the council of workmen's and soldiers' delegates on Wednesday:

"The second revolution has been accomplished. We shall offer a peace acceptable to the proletariat of all countries, publish all secret treaties, take over all land and establish the control of workmen over industry. The consequence will be the accomplishment of the third social revolution."

M. Maslov, a social revolutionist and former minister of agriculture, the correspondent adds, in his "last testament" says that he is convinced that he is about to die and he leaves his curse upon those who sent him into the government and did not support him.

## Guard at Smolney Institute

LONDON, Nov. 9.—Scenes in and about the Smolney institute, the headquarters of the workmen's and soldiers' organization in Petrograd, and of the revolutionary committee, are described in a Reuters despatch dated Thursday, at the Russian capital as follows:

"The Smolney institute presents a scene of extraordinary animation. There is a perpetual coming and going of representatives from the provinces participating in the congress, delegates on the way to convey orders

to the soldiers, sailors and militia and to the congress delegates. The institute occupied the interior and surrounds the building while several armored motor cars bearing anti-aircraft guns are stationed in adjacent streets to insure the protection to the headquarters.

"Nicolai Lenin, accompanied by his lieutenant, Zinovief, received an invitation to receive the delegates. They were scarcely recognizable, Lenin having shaved off his moustache and Zinovief having grown a beard."

## Kerensky Addressed Soldiers

PETROGRAD, Nov. 9.—At a meeting of the congress of soldiers' and workmen's deputies last night, a member of the revolutionary military committee said that on Wednesday, Premier Kerensky at Gatchina, 33 versts, (23 miles) from Petrograd, addressed 6000 soldiers who were on their way from the front to Petrograd. After a conference, the soldiers decided not to proceed for the time to Petrograd. Leon Trotsky, president of the executive committee of the Petrograd council of soldiers' and workmen's deputies, explained that the arrest of certain members of the Kerensky government was not an act of vengeance or political repression. All the members of the late government, he said, would be tried for complicity in the Korniloff movement.

The political parties to which the socialist ministers belong have decided to turn over all the ministers, socialists as well as others, for trial. In the meanwhile they are being held under domiciliary arrest.

## U. S. Officials Watch Russia

WASHINGTON, Nov. 9.—Interest in the latest Russian political upheaval was intense in the capital today.

Attention naturally was directed on the probable effect of the chaotic situation on the military fortunes of the allies. Whether a strong central government, capable of prosecuting a vigorous campaign against the German forces on the eastern front, can be evolved from the present turmoil, is a matter of eager speculation.

Belief in some quarters in the possibility that Kerensky may return to power is predicated upon the assumption that the strong Cossack element favors the maintenance of a conservative form of rule.

Even if the extremists carry out their decision to conclude a separate peace with Germany, dissenting forces in other parts of Russia, it was pointed out, will be able to place in the field a military force capable of keeping the German armies occupied. At any event the severe Russian winter, it is thought, will preclude any possibility of a great German offensive before spring.

## Army Joins Revolutionists

LONDON, Nov. 9.—A telegram reaching Amsterdam from a German source and forwarded the Central News, says the Russian army on the northern front has joined the Maximilians and is marching on Petrograd.

## Report Kerensky Arrested

AMSTERDAM, Nov. 9.—The Rheinische Westfälische Zeitung of Essen, Germany, publishes a Stockholm telegram saying that Premier Kerensky has been arrested.

## British Aerial Operations

LONDON, Nov. 9.—The war office last night issued the following statement on aerial operations:

"During Wednesday morning low clouds and rain considerably hampered the war work. In the afternoon, however, weather conditions improved and some successful aerial and photographic work was carried out by our aeroplanes. Our low flying machines fired many rounds at hostile troops and transport in the course of the day a number of bombs were dropped on enemy trenches and billets.

"During the night more than three tons of bombs were dropped on enemy aerodromes at Gondrie and Deniel Westrom and on aerodromes in the valley of the river Lys. Railway communications also were bombed and satisfactory results were observed. Few hostile aeroplanes were encountered, but one was driven down out of control. An enemy observation balloon on the ground was destroyed by one of our low flying machines. One of our aeroplanes failed to return."

## German Vice Chancellor

AMSTERDAM, Nov. 9.—Friedrich von Payer, a progressive leader, has been designated as German vice-chancellor, according to a semi-official telegram received here from Berlin. It adds that the appointment of Herr Friedberg, leader of the national liberals, as vice president of the Prussian state ministry is considered probable.

## British Raids Successful

LONDON, Nov. 9.—An official statement issued today by the British war office regarding military operations in France and Belgium, says:

"We made a successful raid last night to the eastward of Hargicourt. There was nothing of special interest to report."

## Surprise Attacks By French

PARIS, Nov. 9.—"We carried out with success last night surprise attacks in the Argonne and on the left bank of the Meuse, in the region of Avocourt wood, and brought back prisoners," says today's official communication.

"The Germans made two attacks after violent bombardment, one on our positions at Chayme wood, the other in the region of Arancourt. These assaults were repulsed. The enemy suffered serious losses and left prisoners in our hands."

## British and French Troops for Italy

ITALIAN MILITARY ZONE, Nov. 9.—Both British and French troops are going toward the front. The French and British representatives who have come to Italy had a conference of two hours today with King Victor Emmanuel. The military measures called for by the present situation were discussed in active and cordial collaboration. On leaving the king, the party visited French and British troops going toward the front.

## Turks Retreating

LONDON, Nov. 9.—The entire Turkish army in Palestine is retreating towards the north. British aeroplanes are following up the retreating Turks and bombing them.

Forty Turkish guns were captured, says the British official statement announcing the Ottoman retreat.

British and French naval forces are co-operating against the Turkish communications along the Mediterranean coast.

## Bridges Blown Up

ITALIAN ARMY HEADQUARTERS, Nov. 9.—A. A. bridges have been blown up on the Livenza river to arrest and delay as much as possible the advance of the Austro-Germans toward the Piave river. The Livenza is a smaller river, the Austro-Germans and offers fewer difficulties to the invading army.

## Calls Move "Toy Revolt"

MEMPHIS, Tenn., Nov. 9.—The seizure of the Russian government by the Maximilians was described as a "toy revolt" here today by A. J. Sack, director of the Russian information bureau in New York, who declared that only a few fanatics and "their following of provocateurs and German spies" were in favor of a separate peace. He expressed confidence that if the allies continue trust and materially help Russia, her

armies will be recognized and take an actual part in military operations against Germany next spring.

BERLIN, Nov. 9.—(British Admiralty per Wireless Press)—The Austro-German forces in northern Italy, overcoming the resistance of the Italian rear guards, are advancing toward the Piave river, the war office announces.

The communication follows:

"The Livenza river has been crossed. The allied (Austro-German) armies, overcoming the resistance of the Italian rear guards, are advancing ceaselessly on mountain roads and on the plain, in driving snow and pouring rain, toward the Piave."

## SUSPECTED RAIDER AN INNOCENT TRADER

AN ATLANTIC PORT, Nov. 9.—Another "suspected German raider" has been overhauled and proven to be an innocent trader of British register. It became known today that following the report of a captain arriving from a foreign port recently that he had sighted what appeared to be a disguised German warship off this coast, a fighting ship of the

allies picked up the suspected craft. It was a well known vessel with her hull filled with flour.

CANCEL CONCERT ENGAGEMENT OF FRIEDA HEMPEL AT YOUNGSTOWN, O.

YOUNGSTOWN, O., Nov. 9.—The concert engagement in Youngstown of Frieda Hempel, noted soprano of the Metropolitan grand opera company of New York advertised for next April, has been cancelled because of the alleged pro-German sentiments of Miss Hempel. It was announced here today by the organization under the auspices

of which she was to appear. She also has been taken, it was announced, toward cancelling the engagement of Fritz Kreisler, violinist, and Austrian army officer for similar reasons.

ASSOCIATION OF COLLEGES HARTFORD, Conn., Nov. 9.—Questions of deep interest to the academic world, growing out of war conditions, are to be considered at the sixtieth annual meeting of the Association of Colleges in New England, which opened today at Trinity, with representatives of some 15 universities and colleges in attendance.

## BOSTON WOMAN GOES TO REBUILD WAR FACES

NEW YORK, Nov. 9.—Mrs. Anna Coleman Ladd, a Boston sculptor, announced yesterday that the war department had accepted an offer of her services in France in reconstructing the features of soldiers whose faces have been marred by wounds. Mrs. Ladd is the wife of Dr. Maynard Ladd, who is now in France giving special aid to children. She said she would leave for France as soon as orders are issued by the war department.

Mrs. Ladd's plan, which was submitted to Maj. V. P. Blair of the war department, is to obtain a photograph of a wounded soldier which was taken before his face was mutilated. A plaster cast of his marred face would then be taken, she explained, from which she would model with clay a cast of his features as shown in the photograph. From the completed cast a copperplate mask, silvered and painted flesh color, would be made, the said which would be held in place by spectacle frames.

Maj. Blair praised the proposal. Mrs. Ladd said she suggested that the war department be extended to the allies' armies. Mrs. Anna Coleman Ladd is well known in Boston as an author and sculptor of unusual merit. Her residence is at 279 Clarendon street and her summer home at Manchester, N. H. She studied until 1906 in Paris and Rome, and she first exhibited in Boston, Philadelphia and New York in 1907. She is a granddaughter of Henry M. Wallis, who was for a long time United States minister to Austria.

## TECHNOLOGY STUDENT, CUT BY PROPELLER, DIES AT BOSTON

BOSTON, Nov. 9.—William Eastman, 18, of Massachusetts Institute of Technology, died at the Massachusetts General Hospital as a result of injuries received yesterday while cranking an airplane in the sheds behind the institute. The motor started unexpectedly.

## NOTICE

The Indian football game with the 362nd Machine Gun Battalion, is postponed till Thanksgiving day and the manager hopes that all the supporters of the team will attend the Supply Train game at Textile campus.

only easily, and Eastman was struck by the propeller. His face was cut severely, his nose broken and his left arm fractured in two places. The blow caused concussion of the brain. Eastman had been sent to the hospital most of the time since the accident until yesterday noon, when he became unconscious and remained so until the time of his death. The doctors operated on Eastman Thursday in the hope of clearing away the poisoning that had set in.

Eastman's home was in Evanston, Ill., and he was a member of Phi Kappa Sigma fraternity at Technology. Eastman was called in the first draft, but was detailed to the institute as an instructor in airplane motors in the government aviation schools.

His parents were present at his side when the end came.

## SEC. DANIELS COMMENDS SAILORS FOR BRAVERY

WASHINGTON, Nov. 9.—Secretary Daniels has commended five enlisted men of the navy for bravery in the line of duty. Alfred Allard, of New Bedford, Mass., Stephen John Downey, of Utica, N. Y., and F. Kenneth Gualach of New York city, detailed as signal men aboard a British merchant ship, were cited for bravery in assisting to beach the vessel after it had been torpedoed.

George P. Horin of Oakland, Calif., who served on the United States steamer San Diego, and Matthew McCabe of Bayonne, N. J., water-tender on the U. S. S. Pochanotis were commended for rescuing comrades from drowning.

## DENIES MILITANTS WERE FORCIBLY FED

WASHINGTON, Nov. 9.—The hunger strike of women's party militants in the jail here has resolved itself into a dispute over whether the women were fed forcibly or whether they took food willingly.

Tony women's party headquarters announced that Alice Paul, the leader, had been forcibly fed three times since yesterday afternoon, and that Rose Winslow, her companion, had been forcibly fed twice.

Dr. J. A. Gannon, the jail physician, admitted that Miss Paul had been fed

## LEGAL NOTICES

MORTGAGEE'S SALE OF REAL

ESTATE

By virtue of the power of sale con-

tained in a certain mortgage of real

estate given by Francis Joseph Gorzicki

of Draught, Middlesex County, Mass.

chusetts, to George H. Allard, Jr., of

Lowell, dated November 4, 1915, and

recorded in the Middlesex North Dis-

trict Registry of Deeds in Book 547

Page 155, will be sold at public auc-

tion for breach of the conditions of

said mortgage deed, at the office of

George H. Allard, Jr., at 125 Merrimack

street, Lowell, Mass., on Monday,

November 26th, 1917, at two o'clock

in the afternoon, all and singular the

premises conveyed by said mortgage

deed and therein described substan-

tially as follows:

The land with the building thereon

situated in that part of Draught,

called Pleasant, being lots num-

bered 177, 178, 179, 180 and 191, on a

part of the lot 177, 178, 179 and 180,

as shown on the plan of the

Middlesex North District Registry of

Deeds, Plan Book 11, Plan 30. Lot

191 is bounded on the east by Stuart

avenue, on the south by Kendall

street, on the west by Lot 192; and

on the north by Lot 194, all of said

lots being on the plan aforemen-

tioned. The plan of the

lots 181 and 182 on said plan. Said

lots containing altogether 26,233

square feet of land, more or less.

The above premises are to be con-

veyed subject to any and all unpaid

taxes, municipal or other assessments,

and tax sales which may be due or

become due thereon by the time

will be announced at the sale at the

time and place above mentioned.

GEORGE H. ALLARD, JR.,

Mortgagee.

n2-9-16

Four days of the trip were good, but

six days were stormy with frequent

showers of hail and sleet. Thirty of

the fellows got confined to quarters for

24 hours for smoking on deck after

dark and I guess they got off light at

that.

Towards the latter part of the voy-

age our interests were centered on

the coast with its green hills towering

in the mist. I mean to get a week's

furlough over here and visit the old

folks at home.

I think I will see Bill Dineen, as I

will be near him in a few days—at

least I hope so. Relative to our ar-

rival, we were met at the dock by a

guard of honor composed of the 10th

and 11th regiments, and band,

which played "Tipperary," etc., but

when one of our own bands struck up

"Rally Round the Flag" and "Dixie,"

the loudest sound of the band's

waves was nothing compared to the

roar of the Sammies. Why it even

scared the horses of the mounted

police who were keeping the crowd

# TROTSKY REGARDED AS AGENT OF GERMANY

NEW YORK, Nov. 9.—Leon Trotsky, well known in the East Side of New York, left this city for Petrograd last April, announcing his determination to overthrow Kerensky. His friends among socialists of extreme views had been expecting all along that Trotsky, working with Lenin, would accomplish Kerensky's downfall.

There are two views about Trotsky on the East Side. Some Jewish editors who know him well maintain that he is a patriot idealist working for what he considers the best interests of Russia. Others who know him equally well insist that he is a German agent in German pay and as much under orders from Berlin as any other German emissary.

He is a big fellow, burly and broad-shouldered, full bodied and of excitable tendencies. Possessing a knack of ready speech, which he is always eager to employ, he resents opposition and has been known to fly into violent temper in the course of argument or debate. The extremists of the East Side regarded him as ultra-radical. A small black beard, a close-trimmed black mustache and black piercing eyes marked his facial appearance. His age is about 40.

Trotsky arrived here from Russia on Jan. 15, 1917, and almost immediately became editor of Novy Mir, a Russian revolutionary paper published on the East Side. In this connection he became well acquainted with Morris Hillquit and with pacifists and German sympathizers. Outside of his editorial duties he was active in Russian revolution propaganda in this city and also, as the talk goes, on the East Side, in preaching any sort of peace that would be favorable to Germany.

Released from Siberia  
He has been a journalist for 20 years, starting work in Russia, where he was editor of Novy Mir, a Russian revolutionary paper published on the East Side. In this connection he became well acquainted with Morris Hillquit and with pacifists and German sympathizers. Outside of his editorial duties he was active in Russian revolution propaganda in this city and also, as the talk goes, on the East Side, in preaching any sort of peace that would be favorable to Germany.

time, and Trotsky came to know the inside of many Russian prisons because of the violence of his attacks against the czar's government. He took a prominent part in the abortive revolution of 1905 and was sent to Siberia in punishment, but somehow he managed to find his way back to Petrograd about 1912 and made more trouble for the government. Once more he was arrested and sent to Siberia, but mysterious influences secured his release within a few months. He may or may not be significant, but immediately after his second release from Siberia he went to Berlin, where he established a revolutionary newspaper which constantly praised German institutions. He was in Berlin when the war began, but left—by order of the German government, so was reported—and made his way into Switzerland. After tarrying in Zurich a few weeks he went to Paris where he started a paper which ardently advocated an early peace.

The French government did not interfere with Trotsky until Russian soldiers arrived in France, and not then until after the Russian ambassador to France had requested Trotsky's expulsion. With his wife and two sons he moved to Madrid, where the Spanish authorities immediately conceived a strong dislike for him and threw him into prison. Last December they put him aboard the steamship Montserrat at Cadiz and the Montserrat brought him to this city.

Not a Revolutionist  
He immediately gave out here that he was not a revolutionist, although his papers in Europe had been devoted to little else than advocating risings against Russia's imperial government. He stated that he was a disciple of Karl Marx and that his mission in life was to bring men into concord. Subsequently he told his friends that his place was in Russia to help overthrow Kerensky. When he reached Petrograd late in May he plunged into the thick of Bolshevik plotting, becoming a leading member of the council of workmen's and soldiers' delegates, and late in the summer he became editor of Novy Mir, a Russian revolutionary paper published on the East Side.

While in this city Trotsky and his family lived in Wyne avenue, The Bronx.

## UNDERTONE CONTINUED UNCERTAIN IN MARKET

NEW YORK, Nov. 9.—The stock market after yesterday's severe reversal due to the new Russian developments appeared to be receiving substantial support at the opening today although the undertone of the general list continued uncertain.

Steamship shares were the strongest features, Marine pfd. soon rising 3 points. War stocks and equipments, as represented by U. S. Steel, Bethlehem Steel, Baldwin Locomotive and Central Leather, were 1 to 2 points higher, and copper also developed firmness.

Rails strengthened, Pacifics and Reading leading that group at average advances of a point.

Almost all the foreign bond issues including Anglo-French ss at 89 3/8 and Paris 6s at 85 were at lowest quotation since the time of their listing on the New York stock exchange.

Russian government bonds which are dealt in on the curb reflected the lower exchange rates. The 6 1/2-2s. sold at 54 and 5 1/2-2s at 45.

"KEEP YOUR POWDER DRY, GIRLS!"

In giving these women the motto "Keep your powder dry" the "lady instructor" doesn't mean the kind of powder you think she means. She is telling one of the groups of women riflemen formed in many Italian cities to wait until they see the whites of the Austrians' eyes.

## GIRL KISSES 25 MEN INTO U. S. NAVY

NEW YORK, Nov. 9.—When pretty Miss Marie Antoinette Elliott of 304 West 70th street folded Frank Martin in her arms at the noonday recruiting meeting at 217 Broadway yesterday the Kaiser accumulated in a moment 25 of the most enthusiastic and willing enemies that ever marched off to battle. For the young woman, glowing with the impulsive enthusiasm of the occasion, literally kissed the 25 men into the United States navy.

Miss Elliott had just made a patriotic speech calling upon her hearers to join the navy. Before her stood a group of interested but not militant young men.

"Come along," she said. "I'll engage to keep the first man who enlists in tobacco, clothing and books."

She paused for a moment and looked over the field, her fair face radiant and her bright eyes snapping merrily.

"I'll be a sister to him for the duration of the war, and after," she added. Frank Martin, standing near the rail, couldn't stand the pressure. He vaulted over the rail, onto the platform and seized the girl's hand. She moved forward to meet him. Whether it was Martin's enthusiasm or a strategic design, nobody will ever know, but he leaned forward to be kissed.

Miss Elliott hesitated for a second, shot a shy glance at Martin and one of inquiry at Taber Wetmore, who was presiding. Wetmore, being a man who can see an opportunity and act without consulting a mass meeting, was grinning. He was grinning at Martin as he was grinning at the young woman's arms in less time than it takes to tell it, and duly and literally kissed into the navy.

Twenty-four other men vaulted the rail and kissed the enthusiastic and laughing girl. With every kiss came a recruit, and when a reporter who got pulled into the job by accident was given a kiss, he gravely turned and offered to return the stolen goods in full repayment.

"Never mind," said the girl. A score of enlisted sailors who had come to help the meeting along pleaded to be allowed to take on their second hitch there and then.

"We are only in for the duration of the war," they said. "Why not let us join for something else?"

The motion picture men made hay while the sun of enlistment—and kissing—shone.

"I will give a kiss for a recruit any day," said Miss Elliott, "but mind you, just one."

There were other speakers and other events at the session, but nobody remembered them. It was announced that Elizabeth Murray would come down today and sing in the big drive for 60,000 additional sailors. Leah Baird, a motion picture actress, is also to help.

Housewives of this city now look forward to Biddy Bye's tips on cooking and culinary art which appear each week in the Sunday Supplement of The Sun, published each Saturday.

## 1,350,000 USE NEW YORK SUBWAY EVERY DAY

NEW YORK, Nov. 9.—Theodore P. Shonts, president of the Interborough Rapid Transit company, issued a bulletin yesterday saying that the subway now carries more than 1,350,000 passengers every twenty-four hours. Out of this total, he says, 900,000 ride between the hours of 6 and 9 o'clock in the morning and between 4 and 7 o'clock in the afternoon.

Among other interesting statements concerning the traffic Mr. Shonts says:

"The subway carries 15,000 people to the Times Square station for the matinees. The night theatre crowds delivered there number about 18,000."

"One-third of New York's subway theatre crowd comes from those sections of the city served by the Lenox avenue and Bronx line, one-fourth is carried by the Broadway trains, one-fifth comes from Brooklyn and one-eighth from stations between Ninety-sixth street and Brooklyn bridge. The other two vary between the different stations."

"One-third of the people who go to the theatre on the subway remain in the theatrical district until 1 o'clock in the morning."

"The Bronx traffic is just now increasing more rapidly than traffic in any other section. Residents of other sections of New York have little realization of the size of The Bronx. Only a few of the big cities of the United States are larger than this borough alone. A great part of the population of which depends upon the subway. The Bronx has a population of 779,000—more than Cleveland or Baltimore or Pittsburgh or Detroit or San Francisco. In fact, if listed as a city in itself it would be the sixth city in the country."

"The Bronx has developed several very important transportation points that average New Yorker may never even have heard of. Take, for instance, Freeman street, the third stop south of 139th street. At 7 in the morning it affords a striking illustration of where New York's millions come from."

"Train after train, 10 cars long, pulls in. The morning rush is between 6:15 and 7:45 in the morning and leaves loaded to capacity. So great is the population of that section of The Bronx that so rapidly as the station platforms fill up that when a loaded train leaves the station the crowd seems just as large as ever."

"One of the important factors in the work on the average an hour before the people in the upper West Side."

"Out of 100 subway passengers originating north of Ninety-sixth street sixty come from The Bronx and forty from the upper West Side and Washington Heights."

"During an important Jewish holiday, such as Yom Kippur, the subway traffic falls off 200,000 passengers."

## BOSTON MAN PRISONER IN GERMANY

BOSTON, Nov. 9.—Corporal Harold B. Willis of Boston, a member of the Lafayette escadrille, recently reported killed in an air battle over the German lines, is alive and a prisoner in Germany, according to advices received by relatives today. A post card sent by the young flyer to a friend in Paris stated that he was well, but greatly disheartened over being captured by the enemy.

Willis, a Harvard graduate, went to France with an American ambulance corps, but later joined the flying squad. He had been mentioned frequently in war despatches for valiant service.

## ARTILLERYMEN WHO ARRESTED NEGROES AT HOUSTON RIOT TO TESTIFY

SAN ANTONIO, Tex., Nov. 9.—A detachment of coast artillery soldiers ordered to Houston the night of the negro riot, Aug. 23, to preserve order and who made arrests of members of the 24th United States Infantry, were given an opportunity today to view the negroes now on trial before court martial here. The artillerymen, who will testify later, scrutinized the negroes closely.

## CHICAGO COURT ROOM CROWDED WITH APPLICANTS FOR CITIZENSHIP

CHICAGO, Nov. 9.—Americanism permeated the court room of Circuit Judge Oscar F. Heard who came here yesterday from Freeport to aid the Cook county bench in clearing away a docket crowded with applications for citizenship. The judge did not find the multiplicity of foreign names to his liking, so before admitting some two score of applicants to citizenship he re-christened some of them and curtailed the names of others.

The changes were accepted with good grace in most instances but at least two of the applicants protested and announced they would lay the matter before the federal authorities.

## RUSSIANS BUYING ROUBLES AEW LEVEL CAUSED BY REVOLUTION

BRIDGEPORT, Conn., Nov. 9.—Russians here are today buying rubles at the new level caused by the latest revolution. Soon after the first revolution local Russians bought all the rubles available, paying from 22 to 24 cents, the face value being 51 cents. Large purchases are reported to have been made here total at from 12 to 12 1/2 cents.

## SEEK MAN WHO POSED AS A PRIEST IN CONNECTION WITH SINN FEIN ACTIVITIES

NEW YORK, Nov. 9.—A man who is said to have posed as a priest when that role would best serve his ends, is being sought by federal authorities as a result of information contained in three letters found among the effects of Thomas Welsh, a British subject arrested here Sunday and believed to have been a messenger from leaders of the Sinn Fein movement in Ireland to their agents in the United States.

Federal officials today announced the letters indicate nation-wide ramifications of Sinn Fein activities in this country.

## BOY OF SEVEN MURDERED

LEBANON, Pa., Nov. 9.—The body of Harry Moyer, 7, was found yesterday by his grandmother, Mrs. Mary Nagle, hidden beneath a mattress in the garden of a farm at Lawn, near here. He had been shot through the heart, Charles Nagle, the eleven-year-old uncle of young Moyer, is missing.

Uncle and nephew were left in charge of the house Wednesday. Other members of the family left with a load of household goods for a home into which they were about to move.

It is believed the shooting was accidental and that the frightened child, tragically, the older boy decided on flight.

## FIGHT FIRE UNDER NAVY SUPPLY PIER

NEW YORK, Nov. 9.—Firemen in rowboats and the fireboat Abraham S. Hewitt fought a persistent fire last night under the asphalt flooring of the Recreation Pier at 24th street and the East river, now used by the navy and sheltering nearly \$1,000,000 worth of supplies. Damage was confined to the underpinning of the pier and only smoke penetrated to the space where supplies are piled high and to the sleeping quarters of the twenty-five marines who live there on guard.

The fire was discovered at 10:15 o'clock, when flames were blazing brightly under the \$800-foot pier. Passing craft had seen light under the pier much earlier in the evening, but believing it to come from a boat on tour of inspection, paid no attention to it. Firemen said the fire had been going since 8:30 P. M.

The first work of the firemen was to arouse the sergeant and guard of 24 marines whose quarters they found filled with stifling smoke. Then they had to tear a hole 25 or 30 feet square in the asphalt floor of the pier to reach the flames. The fireboat was summoned and men from Hook and Ladder No. 7 went under the pier.

Small boats of the navy, with fixed bayonets patrolled the pier to keep careful watch over the supplies. The Recreation pier has been boarded in since the beginning of the war and used as a naval supply station. Goods were stored there in bulk last night and a big navy tug was anchored in the river just off the pier. In spite of the usual suspicion of possible German plotters it was said officially that nothing had been discovered to show the fire had been set. It is supposed to have been set by a spark from a boiler installed for heating purposes several weeks ago.

T. R'S AUTO RUNS DOWN MAN  
NEW YORK, Nov. 9.—Col. Roosevelt's automobile, in which the colonel was riding, knocked down John Murphy, 30, a Westchester resident, at 38th street and Park avenue yesterday. Murphy was taken in the colonel's car to the Roosevelt hospital, where it was found he was suffering from a cut scalp and bruises on the left ribs.

Murphy, whose home is at Jamaica, L. I., was striding telegraph wires. He walked from behind one of the park inclosures on the avenue and stepped in front of Col. Roosevelt's car, witnesses say.

The colonel, after leaving Murphy at the hospital, went to the West 80th street station and reported the accident.

## HARRY W. HEALEY, Auctioneer

Office 84 Central Street, Lowell, Mass., Tel. 810

## Tomorrow, Nov. 10, 1917, at 3 P. M.
